Noshe Djan Afghan Food And Cookery A New And Revised Edition:

Noshe Djan Helen Saberi, Shaima Breshna, 2000 *Cuisine and Empire* Rachel Laudan, 2013-11-21 Rachel Laudan tells the remarkable story of the rise and fall of the world's great cuisines from the mastery of grain cooking some twenty thousand years ago to the present in this superbly researched book. Probing beneath the apparent confusion of dozens of cuisines to reveal the underlying simplicity of the culinary family tree, she shows how periodic seismic shifts in culinary philosophy, beliefs about health, the economy, politics, society, and the gods prompted the construction of new cuisines, a handful of which chosen as the cuisines of empires came to dominate the globe. *Cuisine and Empire* shows how merchants, missionaries, and the military took cuisines over mountains, oceans, deserts, and across political frontiers. Laudan's innovative narrative treats cuisine like language, clothing, or architecture as something constructed by humans. By emphasizing how cooking turns farm products into food and by taking the globe rather than the nation as the stage, she challenges the agrarian, romantic, and nationalistic myths that underlie the contemporary food movement.

The World Cookbook Jeanne Jacob, Michael Ashkenazi, 2014-01-15 This is the only world cookbook in print that explores the foods of every nation, state, and territory across the globe, providing information on special ingredients, cooking methods, and commonalities that link certain dishes across different geographical areas. Increasing globalization, modern communication, and economic development have impacted every aspect of daily life, including the manner by which food is produced and distributed. While these trends have increased the likelihood and expansion of food influences, variations of the same popular dishes have been found in regions all over the world long before now. This book is an ecological, historical, and cultural examination of why certain foods are eaten and how these foods are prepared by different social groups within the same and different geographical regions. The authors cover more than 200 countries and cultural groups, featuring each nation's food culture and traditions and providing overviews on foodstuffs, typical dishes, and styles of eating. This revised edition features in excess of 400 new recipes, several new countries, and additional sidebars with fun facts explaining unique foods and unfamiliar ingredients. More than 1,600 recipes for popular appetizers, main courses, desserts, snack foods, and celebration dishes are provided, allowing readers to construct full menus from every country of the world.
