Perfected Humanity:

The Religion of Humanity Octavius Brooks Frothingham, 1873 *Human Perfection in Byzantine Theology* Alexis Torrance, 2020-10-16 To what kind of existence does Christ call us Christian theology has from its inception posited a powerful vision of humanity's ultimate and eternal fulfilment through the person and work of Jesus Christ How precisely to understand and approach the human perfection to which the Christian is summoned is a question that has vexed the minds of many and diverse theologians Orthodox Christian theology is notable for its consistent interest in this question and over the last century has offered to the West a wealth of theological insight on the matter drawn both from the resources of its Byzantine theological heritage as well as its living interaction with Western theological and philosophical currents In this regard the important themes of personhood deification epektasis apophaticism and divine energies have been elaborated with much success by Orthodox theologians but not without controversy Human Perfection in Byzantine Theology addresses the question of human perfection in Orthodox theology via a retrieval of the sources examining in turn the thought of leading representatives of the Byzantine theological tradition St Maximus the Confessor St Theodore the Studite St Symeon the New Theologian and St Gregory Palamas The overarching argument of this study is that in order to present an Orthodox Christian understanding of human perfection which remains true to its Byzantine inheritance supreme emphasis must be placed on the doctrine of Christ especially on the significance and import of Christ's humanity The intention of this work is thus to keep the creative approach to human destiny in Orthodox theology firmly moored to its theological past *The World to Come* Capel MOLYNEUX, 1853 *The Incarnation as God's First Intention* Edwin Chr. van Driel, 2025-10-21 In *The Incarnation as God's First Intention* Edwin Chr. van Driel advocates a transformative perspective on the incarnation proposing that God's decision to become incarnate was not a response to human sin but was instead God's first and foundational intention Engaging the historical and theological roots of this supralapsarian before the fall Christology van Driel a leading scholar on the topic invites readers to reconsider long held views on God's engagement with creation With clarity and depth van Driel unpacks how understanding the incarnation as God's original purpose reshapes the doctrines of creation election salvation and eschatology His insights offer a fresh framework for the church's mission in today's world suggesting that God's presence with us is not merely a remedy for human fallenness but rather God's first intention and ultimate goal for creation Written for students theologians and all who seek a deeper understanding of God's relation to the world this book challenges readers to see the incarnation God's dwelling among us as God's central purpose **Our Only Hope** Margaret B Adam, 2014-08-28 The most popular source of theological hope for modern Christians is that of Jurgen Moltmann Preachers teachers and lay people reflect Moltmann's influence with their hope in a this worldly eschatology and suffering God However an exclusive reliance on that hope deprives the church of crucial resources in the face of global economic environmental and military crises *Our Only Hope* explores Moltmannian hope and considers its costs before looking elsewhere for additional contributions from

Thomas Aquinas theological virtue of hope to nihilism and beyond in order to encourage the church to sustain and practise hope in Jesus Christ our only hope Phenomenological Approaches to Moral Philosophy J.J. Drummond, Lester Embree, 2013-03-14 Against the background of the recent revival of ethics this handbook aims to show the great fertility of the phenomenological tradition for the study of ethics and moral philosophy by collecting a set of papers on the contributions to ethical thought by major phenomenological thinkers Twenty one chapters in the book are articles by experts who explore the thought of the major ethical thinkers in the first two generations of the phenomenological tradition and direct the reader toward the most relevant primary and secondary materials The final three chapters of the book sketch more recent developments in various parts of the world and the first three chapters investigate the relations between phenomenology and the dominant normative approaches in contemporary moral philosophy **The Divine Word Opened** Jonathan Bayley (Rev. DD.), 1858 **The Divine Word Opened: Sermons** Jonathan Bayley, 1858 *Modern Christian Thought, Second Edition* James C. Livingston, Francis Schüssler Fiorenza, This widely acclaimed introduction to modern Christian thought formerly published by Prentice Hall provides full scholarly accounts of the major movements and thinkers theologians and philosophers in the Christian tradition since the eighteenth century Enlightenment together with solid historical background and critical assessments **Rhythms of Faithfulness** Andy Goodliff, Paul Goodliff, 2018-10-31 This collection of essays by British Baptists honors the work of John Colwell amongst the Baptist community recognizing in particular the contribution he has made to Christian doctrine and ethics and more recently his involvement in the formation of The Order for Baptist Ministry OBM The book explores what we are doing in morning prayer and what it is to allow the seasons and festivals of the Christian year to shape our lives **Evangelical Dictionary of Theology** Daniel J. Treier, Walter A. Elwell, 2017-11-07 This bestselling reference tool has been a trusted resource for more than 25 years with over 165 000 copies sold Now thoroughly updated and substantially revised to meet the needs of today s students and classrooms it offers cutting edge overviews of key theological topics Readable and reliable this work features new articles on topics of contemporary relevance to world Christianity and freshened articles on enduring theological subjects providing comprehensive A Z coverage for today s theology students The author base reflects the increasing diversity of evangelical scholars Advisory editors include D Jeffrey Bingham Cheryl Bridges Johns John G Stackhouse Jr Tite Ti nou and Kevin J Vanhoozer Dumitru Staniloae: An Ecumenical Ecclesiology Radu Bordeianu, 2011-09-29 Widely considered the most important Orthodox theologian of the twentieth century Dumitru Staniloae 1903 1993 contributed significantly to an ecumenical understanding of these themes Because of his isolation by the Romanian Communist regime his work still awaits its merited reception especially given its potential contribution towards Christian unity In Staniloae s understanding the Church is a communion in the image of the Trinity Because there is a continuum of grace between the Trinity and the Church the same relationships that exist among trinitarian persons are manifested in creation in general and the Church in particular In this way the Trinity fills the world

and the Church determining their mode of existence Intratrinitarian relationships are manifested in the relationships between humankind and non human creation the Church and the world local and universal aspects of the Church clergy and the people and among various charisms The Andover Review ,1893 **The Ascension in Karl Barth** Andrew Burgess,2017-07-05 This book explores the doctrine of ascension and Barth s ascension thought in particular First it examines the doctrine of Jesus Christ s ascension into heaven presenting a sustained discussion of Karl Barth s approach to this doctrine and the significance of the doctrine within his theology as a whole Secondly through examining Barth s ascension thought and dialoguing with three other theologians Torrance Farrow and Jenson a clearer understanding of Barth and his theology is achieved The treatment of issues related to Christ s ascension across a broader protestant perspective increases the relevance and usefulness of this unique study Andrew Burgess presents the doctrine of the ascension as an important and undervalued doctrine and encourages Christians to see how like Barth they might benefit in their ability to think coherently about the present age and about Jesus in relation to this age enabling further thought about the work of the Holy Spirit the church and Christian ethics **American Protestant Ethics and the Legacy of H. Richard Niebuhr** William Werpehowski,2002-09-20 In this careful analysis and evaluation of the monumental influence of Niebuhr Werpehowski traces four streams that flow from Niebuhr s theology particularly as it deals with ethics In a tightly knit and comprehensive investigation of the work of four contemporary ethicists important in their own right Paul Ramsey Stanley Hauerwas James Gustafson and Kathryn Tanner Werpehowski explores how the legacy of Niebuhr has made an impact on their thought and work He presents a clear concise nuanced analytical criticism of the development of the four ethicist s construction of ethics and does it in a way that interweaves and puts the four into a dialogue and conversation with Niebuhr and each other Addressing a number of substantive issues including the viability of just war tradition and the relationship between church and world American Protestant Ethics and the Legacy of H Richard Niebuhr demonstrates that Christian ethics operates within a set of polar tensions and that such conversations as are developed within need to be a part of moral discourse inside and between a variety of communities of faith The Son Who Learned Obedience D. Glenn Butner,2018-09-07 This book offers a fresh perspective on the ongoing evangelical debate concerning whether the Son eternally submits to the Father Beginning with the pro Nicene account of will being a property of the single divine nature Glenn Butner explores how language of eternal submission requires a modification of the classical theology of the divine will This modification has problematic consequences for Christology various atonement theories and the doctrine of God because as historically developed these doctrines shared the pro Nicene assumption of a single divine will This new angle on an old debate challenges the reader to move beyond the inaccurate characterization of views on eternal submission as Arian or feminist toward a more accurate understanding of the real theological issues at stake **Chinese Philosophy in an Era of Globalization** Robin R. Wang,2012-02-01 This book treats Chinese philosophy today as a global project presenting the work

of both Chinese and Western philosophers Providing contemporary considerations of the Chinese philosophical tradition and bringing Chinese philosophy into conversation with Western philosophy Chinese Philosophy in an Era of Globalization provides a model for collaborative work Topics covered include value theory philosophy of religion human nature virtue ethics epistemology and philosophy of language **Buddhist-Christian Dialogue as Theological Exchange** Ernest M. Valea, 2015-04-14 This book is intended to encourage the use of comparative theology in contemporary Buddhist Christian dialogue as a new approach that would truly respect each religious tradition's uniqueness and make dialogue beneficial for all participants interested in a real theological exchange As a result of the impasse reached by the current theologies of religions exclusivism inclusivism and pluralism in formulating a constructive approach in dialogue this volume assesses the thought of the founding fathers of an academic Buddhist Christian dialogue in search of clues that would encourage a comparativist approach These founding fathers are considered to be three important representatives of the Kyoto School Kitaro Nishida Keiji Nishitani and Masao Abe and John Cobb an American process theologian The guiding line for assessing their views of dialogue is the concept of human perfection as it is expressed by the original traditions in Mahayana Buddhism and Orthodox Christianity Following Abe's methodology in dialogue an Orthodox contribution to comparative theology proposes a reciprocal enrichment of traditions not by syncretistic means but by providing a better understanding and even correction of one's own tradition when considering it in the light of the other while using internal resources for making the necessary corrections **Christian Grace and Pagan Virtue** J. Warren Smith, 2010-12-21 Ambrose of Milan 340-397 was the first Christian bishop to write a systematic account of Christian ethics in the treatise *De Officiis* variously translated as *On Duties* or *On Responsibilities* But Ambrose also dealt with the moral life in other works notably his sermons on the patriarchs and his addresses to catechumens and newly baptized There is a vast modern literature on Ambrose but only in recent decades has he begun to be taken seriously as a thinker not just as a working bishop and ecclesiastical politician Because Ambrose was one of the few Latin Christian writers in antiquity who knew Greek another major area of Ambrose scholarship has been the study of his sources notably the Jewish philosopher Philo and Christian writers such as Origen of Alexandria In this book Warren Smith examines the neglected biblical liturgical and theological foundations of Ambrose's thought on ethics Earlier studies have found little that was distinctively Christian in Ambrose's image of the virtuous person Smith shows that though like the pagans Ambrose emphasized moderation courage justice and prudence for him these characteristics were shaped by the church's beliefs about God's salvific economy The courage of a Christian facing persecution for example was an expression of faith in Christ's resurrection and the church's eschatological hope Eschatology for Ambrose was not pagan wisdom clothed in pious language but the very logic upon which virtue rests **Connecting with the Arcturians 3** David K. Miller, 2018-12-20 The themes of this book focus on the evolution of humanity the next stage of our planetary development the planetary crisis in general and how we as spiritual lightworkers and starseeds can prepare for our future and for the

ascension We look at the relationships between such complex subjects as quantum physics and spirituality and New Age physics to learn how that relates to the higher dimensions and healing techniques that use new terminology such as quantum healing and omega light The Arcturians gladly integrate physics with spirituality Ascension is the transmutation of the physical body into the fifth dimension completing Earth's incarnational cycles They report that the ascension is open to all seekers of higher spiritual truth especially those who are open to cosmic spirituality There is also an extensive glossary to help the reader Overall their messages are hopeful helpful and healing The healings provided through their thinking are relevant personally and planetarily
