Poisoned Arrows An Investigative Journey Through Indonesia By Monbiot George:

Poisoned Arrows George Monbiot, 1989 Verslag van een reis door Indonesisch West Nieuw Guinea waarbij het lot van de door de Indonesische autoriteiten in hun traditionele bestaan bedreigde Papoea's centraal staat *Poisoned Arrows* George Monbiot, 1989-01-01 George Monbiot har foretaget en illegal rejse til Irian Jaya West Irian hvor han har været vidne til de indonesiske myndigheders overgreb mod den indfødte befolkning *Civilizing the Margins* Christopher R. Duncan, 2008 Discusses the programs policies and laws that affect ethnic minorities in eight countries Burma Cambodia Indonesia Laos Malaysia the Philippines Thailand and Viet Nam Once targeted for intervention people such as the Orang Asli of Malaysia and the hill tribes of Thailand often become the subject of programs aimed at radically changing their lifestyles which the government views as backward or primitive Several chapters highlight the tragic consequences of forced resettlement a common result of these programs Invisible Doctrine George Monbiot, Peter Hutchison, 2024-06-04 A sharp fiercely argued takedown of neoliberalism that not only defines this slippery concept but connects it to the climate crisis poverty and fascism and shows us how to fight back Neoliberalism is the dominant ideology of our time It shapes us in countless ways yet most of us struggle to articulate what it is Worse we have been persuaded to accept this extreme creed as a kind of natural law In *Invisible Doctrine* journalist George Monbiot and filmmaker Peter Hutchison shatter this myth They show how a fringe philosophy in the 1930s championing competition as the defining feature of humankind was systematically hijacked by a group of wealthy elites determined to guard their fortunes and power Think tanks corporations the media university departments and politicians were all deployed to promote the idea that people are consumers rather than citizens One of the most pernicious effects has been to make our various crises from climate disasters to economic crashes from the degradation of public services to rampant child poverty seem unrelated In fact they have all been exacerbated by the invisible doctrine which subordinates democracy to the power of money Monbiot and Hutchison connect the dots and trace a direct line from neoliberalism to fascism which preys on people's hopelessness and desperation Speaking out against the fairy tale of capitalism and populist conspiracy theories Monbiot and Hutchison lay the groundwork for a new politics one based on truly participatory democracy and private sufficiency public luxury an inspiring vision that could help bring the neoliberal era to an end **The Cambridge Introduction to Travel Writing** Tim Youngs, 2013-05-27 Critics have long struggled to find a suitable category for travelogues From its ancient origins to the present day the travel narrative has borrowed elements from various genres from epic poetry to literary reportage in order to evoke distant cultures and exotic locales and sometimes those closer to hand Tim Youngs argues in this lucid and detailed Introduction that travel writing redefines the myriad genres it comprises and is best understood on its own terms To this end Youngs surveys some of the most celebrated travel literature from the medieval period until the present exploring themes such as the quest motif the traveler's inner journey postcolonial travel and issues of gender and sexuality The text culminates in a chapter on twenty first century travel writing

and offers predictions about future trends in the genre making this Introduction an ideal guide for today's students, teachers and travel writing enthusiasts

Poisoned Arrows George Monbiot, 1990 *In the Shadow of the Palms* Sophie Chao, 2022-05-02

In the Shadow of the Palms Sophie Chao examines the multispecies entanglements of oil palm plantations in West Papua, Indonesia, showing how Indigenous Marind communities understand and navigate the social, political and environmental demands of the oil palm plant. As Chao notes, it is no secret that the palm oil sector has destructive environmental impacts: it greatly contributes to tropical deforestation and is a major driver of global warming. Situating the plant and the transformations it has brought within the context of West Papua's volatile history of colonization, ethnic domination and capitalist incursion, Chao traces how Marind attribute environmental destruction not just to humans, technologies and capitalism, but also to the volition and actions of the oil palm plant itself. By approaching cash crops as both drivers of destruction and subjects of human exploitation, Chao rethinks capitalist violence as a multispecies act. In the process, Chao centers how Marind fashion their own changing worlds and foreground Indigenous creativity and decolonial approaches to anthropology. [The Routledge Companion to Travel Writing](#) Carl Thompson, 2015-12-22

As many places around the world confront issues of globalization, migration and postcoloniality, travel writing has become a serious genre of study reflecting some of the greatest concerns of our time. Encompassing forms as diverse as field journals, investigative reports, guidebooks, memoirs, comic sketches and lyrical reveries, travel writing is now a crucial focus for discussion across many subjects within the humanities and social sciences. An ideal starting point for beginners, but also offering new perspectives for those familiar with the field, *The Routledge Companion to Travel Writing* examines key debates within the field, including postcolonial studies, gender, sexuality and visual culture. Historical and cultural contexts tracing the evolution of travel writing across time and over cultures. Different styles, modes and themes of travel writing from pilgrimage to tourism. Imagined geographies and the relationship between travel writing and the social, ideological and occasionally fictional constructs through which we view the different regions of the world. Covering all of the major topics and debates, this is an essential overview of the field which will also encourage new and exciting directions for study.

From Primitive to Postcolonial in Melanesia and Anthropology Bruce Knaft, 2025-10-01. What have anthropologists taught us about Melanesia, one of anthropology's most important and intensively studied world regions? In this book, Professor Bruce Knaft draws together and critically reanalyzes what we know about major features of Melanesian cultural history: warfare and politics, gender, bodily practices and spirituality as discerned from more than a century of academic study. *From Primitive to Postcolonial in Melanesia and Anthropology* is arguably the most comprehensive single reassessment of Melanesia as an ethnographic world area to have been published in several decades. Written for students as well as professional scholars, this work further broadens our understanding by analyzing the history of Melanesian ethnography and relating this history to the larger relationship between Melanesia as a contemporary world area and anthropology as a field of contemporary human study. Bruce M. Knaft is Professor of Anthropology, Emory University, and the author of three previous books as well as some thirty journal articles and chapters. Knaft's interests span a wide range of issues in the anthropology of Melanesia, and he is articulate with general issues of cultural theory and anthropological history.

Genealogies for the Present in Cultural Anthropology Bruce M. Knaft, 2013-09-13. In the wake of tensions between modern and postmodern sensibilities, what larger directions now emerge in cultural anthropology? In this major work, Bruce Knaft takes stock of important recent initiatives in cultural and critical theory. By combining critical reviews and ethnographic engagements with fresh readings of major figures and approaches, the work develops a larger vantage point for considering the dispersing influence of practice theories, postmodernism, cultural studies, postcolonial studies, modern post-positive feminism, and multicultural criticisms.

South Coast New Guinea Cultures Bruce M. Knaft, 1993-03-25. The communities of south coast New Guinea were the subject of classic ethnographies, and fresh studies in recent decades have put these rich and complex cultures at the centre of anthropological debates. Flamboyant sexual practices such as ritual homosexuality have attracted particular interest. In the first general book on the region, Dr Knaft reaches striking new comparative conclusions through a careful ethnographic analysis of sexuality, the status of women, ritual and cosmology, political economy, and violence among the region's seven major language culture areas. The findings suggest new Melanesian regional contrasts and provide for a general critique of the way regional comparisons are constructed in anthropology. Theories of practice and political economy, as well as post-modern insights, are drawn upon to provide a generative theory of indigenous social and symbolic development.

Settling for Less Lachlan McNamee,2023-01-17 Why countries colonize the lands of indigenous people Over the past few centuries vast areas of the world have been violently colonized by settlers But why did states like Australia and the United States stop settling frontier lands during the twentieth century At the same time why did states loudly committed to decolonization like Indonesia and China start settling the lands of such minorities as the West Papuans and Uyghurs Settling for Less traces this bewildering historical reversal explaining when and why indigenous peoples suffer displacement at the hands of settlers Lachlan McNamee challenges the notion that settler colonialism can be explained by economics or racial ideologies He tells a more complex story about state building and the conflicts of interest between indigenous peoples states and settlers Drawing from a rich array of historical evidence McNamee shows that states generally colonize frontier areas in response to security concerns Elite schemes to populate contested frontiers with loyal settlers however often fail As societies grow wealthier and cities increasingly become magnets for migration states ultimately lose the power to settle frontier lands Settling for Less uncovers the internal dynamics of settler colonialism and the diminishing power of colonizers
