- Increase the Effectiveness of Approved State Training Programs

Programs To Employ The Disadvantaged

**United States. Congress. Joint
Economic Committee**

Programs To Employ The Disadvantaged:

Programs to Employ the Disadvantaged Peter B. Doeringer, 1969 Resources in Education , 2001 **Expanding Work Programs for Poor Men** Lawrence M. Mead, 2011-05-16 Expanding Work Programs for Poor Men makes the case that poor fathers like poor mothers need both help and hassle That is poor men need more help from the government but they must also be expected and required to help themselves Drawing on welfare reform as a successful precedent Lawrence M Mead explores the psychology of male nonwork and evaluates the successes and failures of existing government programs for poor men including child support and conditions of parole These programs have succeeded in increasing work levels among poor men by requiring that they provide income to support their families or maintain a job to avoid returning to prison Although both programs rely on legal enforcement they are most effective when enforcement is coupled with incentives Mead suggests that child support and parole conditions offer a useful model for future men s work programs which should be mandatory and enforced but combined with rewards for steady work such as higher wage subsidies for low income workers

Catalog of Federal Domestic Assistance , Identifies and describes specific government assistance opportunities such as loans grants counseling and procurement contracts available under many agencies and programs **Jobs for the Poor** Timothy J. Bartik, 2001-06-11 Even as the United States enjoys a booming economy and historically low levels of unemployment millions of Americans remain out of work or underemployed and joblessness continues to plague many urban communities racial minorities and people with little education In Jobs for the Poor Timothy Bartik calls for a dramatic shift in the way the United States confronts this problem Today most efforts to address this problem focus on ways to make workers more employable such as job training and welfare reform But Bartik argues that the United States should put more emphasis on ways to increase the interest of employers in creating jobs for the poor or the labor demand side of the labor market Bartik s bases his case for labor demand policies on a comprehensive review of the low wage labor market He examines the effectiveness of government interventions in the labor market such as Welfare Reform the Earned Income Tax Credit and Welfare to Work programs and asks if having a job makes a person more employable Bartik finds that public service employment and targeted employer wage subsidies can increase employment among the poor In turn job experience significantly increases the poor s long run earnings by enhancing their skills and reputation with employers And labor demand policies can avoid causing inflation or displacing other workers by targeting high unemployment labor markets and persons who would otherwise be unemployed Bartik concludes by proposing a large scale labor demand program One component of the program would give a tax credit to employers in areas of high unemployment To provide disadvantaged workers with more targeted help Bartik also recommends offering short term subsidies to employers particularly small businesses and nonprofit organizations that hire people who otherwise would be unlikely to find jobs With experience from subsidized jobs the new workers should find it easier to obtain future year round employment Although these efforts would

not catapult poor families into the middle class overnight Bartik offers a powerful argument that having a full time worker in every household would help improve the lives of millions Jobs for the Poor makes a compelling case that full employment can be achieved if the country has the political will and adopts policies that address both sides of the labor market Copublished with the W E Upjohn Institute for Economic Research Information on Federal Programs to Aid the Poor United States.
