Progreb In Hydrogen Energy:

Progress in Hydrogen Energy R.P. Dahiya, 2012-12-06 Hydrogen has been recognised as a universal clean fuel which is expected to provide energy to our homes industry and automobiles in the future It is considered as one of the most interesting alternatives to petroleum fuels A considerable amount of research and development work on production storage and transportation and utilisation of hydrogen is in progress all over the world In India several institutions have been working on the various aspects of the hydrogen considering it as an energy vector A three day National Workshop on Hydrogen Energy was organised at Indian Institute of Technology IIT Delhi to focus attention on developments in hydrogen energy at national and international levels and to provide a forum to coordinate contemporary research trends in the country in this field The presentations made at the Workshop covered the topics which are considered to be of significance to work out the perspective problems and promises for the future for transition to hydrogen energy The proceedings of the Workshop are reported in this book which include the inaugural address description of the national research and development programme in the field of hydrogen energy papers presented on production storage and transportation and utilisation of hydrogen and the panel report In the inaugural address emphasis is laid on the need for a transition from the presently used fuels to the newer ones preferably to those which are renewable and non polluting such as hydrogen
