Dick, Roger D. Launius, 2007 Since the dawn of spaceflight advocates of a robust space effort have argued that human activity beyond Earth makes a significant difference in everyday life Assertions abound about the impact

of spaceflight on society and its relationship to the larger contours of human existence Fifty years after the Space Age began it is time to examine the effects of spaceflight on society in a historically rigorous way Has the Space Age indeed had a significant effect on society If so what are those influences What do we mean by an impact on society And what parts of society Conversely has society had any effect on spaceflight What would be different had there been no Space Age The purpose of this volume is to examine these and related questions through scholarly research making use especially of the tools of the historian and the broader social sciences and humanities Herein a stellar array of scholars does just that and arrives at sometimes surprising conclusions

American Credo Michael Foley, 2007-09-13 If America has a claim to exceptionalism American Credo locates it in a little understood ability to engage in deep conflicts over political ideas while at the same time reducing adversarial positions to legitimate derivatives of American history and development

**The Color of Truth: A Journey to a Truly Equal Society** Pasquale De Marco, 2025-03-09 In this thought provoking book Pasquale De Marco argues that affirmative action is a failed policy that has done more harm than good Affirmative action is based on the assumption that the best way to address past discrimination is to discriminate against others in the present This is not only unjust but it is also ineffective Affirmative action programs have failed to close the racial wealth gap they have led to a decline in educational standards and they have created a climate of resentment and division Pasquale De Marco traces the history of affirmative action from its origins in the civil rights movement of the 1960s to its current status as a deeply entrenched policy in American society He shows how affirmative action has been used to justify racial preferences in everything from college admissions to government contracting Pasquale De Marco also examines the arguments for and against affirmative action He considers the claims that affirmative action is necessary to compensate for past discrimination and that it helps to promote diversity He also examines the evidence that affirmative action harms both minority and non minority students and workers Pasquale De Marco concludes that the only way to achieve true racial equality is to treat all people as individuals regardless of their race or ethnicity He calls for an end to affirmative action and for the adoption of policies that promote equal opportunity for all This book is a must read for anyone who is concerned about the future of race relations in America It is a powerful indictment of affirmative action and a call for a new approach to addressing the legacy of racism and discrimination If you like this book write a review

*Democracy and Time in Cuban Thought* María de los Ángeles Torres, 2024-01-30 In this analysis of political discourse in Cuban culture María de los Angeles Torres focuses on how the concept of time has been employed by different political projects arguing that an emphasis on human actions in the present is important for a democratic political culture

*Free Will and Illusion* Saul Smilansky, 2000-03-30 Saul Smilansky presents an original treatment of the problem of free will which lies at the heart of morality and human self understanding He maintains that we have most of the resources we need for a proper understanding of the problem and the key to it is the role played by illusion The major traditional philosophical approaches are inadequate Smilansky argues their partial insights

need to be integrated into a hybrid view which he calls Fundamental Dualism Common views about justice responsibility human worth and related notions are radically misguided and the absurd looms large We do however find some justification for enlightened moral views and grounding for some of our most cherished views of human nature The bold and perhaps disturbing claim of Free Will and Illusion is that we could not live adequately with a complete awareness of the truth about human freedom illusion lies at the centre of the human condition The necessity of illusion is seen to follow from the basic elements of the free will issue helping keep our moral and psychological worlds intact Smilansky offers the challenge of recognizing the centrality of illusion and trying to free ourselves to some extent from it this is not only a philosophical challenge but a moral and psychological one as well Musical Messenger ,1917 **No Place for Truth** David F. Wells,1994-12-20 Evangelicals argues Wells have largely lost the truth that God also stands outside all human experience that he still summons sinners to repentance and belief regardless of their self image and that he calls his church to stand fast in his truth against the blandishments of the modern world **Arkansas Highways** Arkansas. State Highway Commission,1928 **The Quest for truth** Sheikh Aly N'Daw,2014-04-01 The Quest for Truth is a journey of self awareness and self discovery The author Sheikh Aly N Daw invites us to develop a profound understanding of our inherent Being and the factors that can interfere with our original nature True understanding can only come from the heart It is only through the profound dimension of the heart that the Being can understand the world of illusion that permeates all aspects of human life This dimension of understanding is the starting point of the awakening process According to the author there is no need to retreat to the mountains to be awakened We only need to be fully aware of the nature of illusion in order to come out of it and start living in an awakened state As the Being awakens it develops the audacity to live fully in the present moment and surpass any perceived insecurity challenges or perils The Being is then able to attain the divine state of selflessness and experience Truth as a profound inner reality as did many peacemakers who have proposed viable alternative social and economic models which respect human dignity and promote true human development **Against Socialist Illusion - A Radical Argument** David Selbourne,1984-11-01 Treasury, Postal Service, and General Government Appropriations for Fiscal Year 1997 United States. Congress. House. Committee on Appropriations. Subcommittee on the Treasury, Postal Service, and General Government Appropriations,1996 **Humanism & Socialism** George Edward Novack,1973 John Macmurray's Religious Philosophy Dr Esther McIntosh,2013-06-28 Recent dissatisfaction with individualism and the problems of religious pluralism make this an opportune time to reassess the way in which we define ourselves and conduct our relationships with others The philosophical writings of John Macmurray are a useful resource for performing this examination and recent interest in Macmurray s work has been growing steadily A full scale critical examination of Macmurray s religious philosophy has not been published and this work fills this gap sharing his insistence that we define ourselves through action and through person to person relationships while critiquing his account of the ensuing political and

religious issues The key themes in this work are the concept of the person and the ethics of personal relations
