Lefcourt,2013-09-24 Research with the Locus of Control Construct Volume 2 Developments and Social Problems seeks to contribute towards explaining the nomological network in which the locus of control construct is embedded In studying the antecedents concomitants and far reaching ramifications of the construct we can come to see its meaning more clearly The book is organized into three parts Part I pertains to one realm of locus of control research that is of signal interest to psychologists concerned with personality research and theory If locus of control is an important predictor of behavior then we should know something about its origins and the role it plays at different stages of the life span The chapters in the first part aid in the development of such a life span approach to locus of control research Part II focuses on applications to two clinical social problems marital instability and alcoholism Part III explores the use of locus of control as a moderator variable Here the response to particular situational constraints or milieu characteristics is evaluated vis vis status on locus of control variables In this way it becomes possible to speak of the specific effects of therapy or educational procedures upon persons who vary in personality characteristics such as locus of control in much the way that the advocates of interactionism have always advised Assessment Strategies for Cognitive-Behavioral Interventions Philip C. Kendall,Steven D.

Hollon,2013-09-25 Assessment Strategies for Cognitive Behavioral Interventions is a collection of original contributions provided by leaders in the field who consider the theoretical and applied assessment issues related to the expanding field of cognitive behavioral interventions Chapters in the present volume designed as a companion volume to an earlier text Cognitive Behavioral Interventions Theory Research and Procedures focus on the issues inherent in the measurement of cognitive and behavioral events and processes The book opens with an overview of recent growth in the field Attention is devoted to examining several goals of the new assessment endeavors some suggestions related to the proposed methods and certain problems inherent in cognitive behavioral assessments Separate chapters follow that deal directly with a variety of specific content areas These include a conceptualization of attributions as well as describing their measurement and speculating as to their role in both the etiology and treatment of psychological disturbance and suggestions for assessment in clinical interviews and for using psychometric instruments and discusses belief systems and irrationality Subsequent chapters focus on special populations and procedures Progress in Asian Social Psychology Kuo-Shu Yang,Kwang-Kuo Hwang,Paul Pedersen,Ikuo Daibo,2003-03-30 This volume presents ways of thinking dramatically different from mainstream psychology which is seen by many as primarily a product of Western civilization Asian social psychologists in this edited

collection apply Asian perspectives to issues of major concern in their societies including parental beliefs about shame and moral socialization in Taiwan Hong Kong and the United States achievement motivation in Taiwan and the United States and the effects of school violence on the psychological adjustment of Korean adolescents Other chapters examine the role of social psychologists in Confucian societies and group dynamics in Japan The authors believe psychological research using an indigenous approach will enable Asian as well as non Asian psychologists to understand the cognitions and behaviors of Asian people more accurately Scholars and students interested in Asian psychology social cultural and cross cultural psychology will find this volume of interest

The Salience of Marketing Stimuli Gianluigi Guido,2012-12-06 In consumer and social psychology salience has been generally treated as an attribute of a stimulus which allows it to stand out and be noticed Researchers however have only vaguely articulated the theoretical underpinnings of this term thus impeding a thorough understanding of the perceptual processes behind its use in complex marketing communications This book presents a theoretical approach for enhancing consumer processing and memory of marketing communication Using schema theory and an information processing approach the model introduced here briefly referred to as the In salience hypothesis emphasizes the nature of prominence which is intrinsic to any salience construct reviewed in literature This model is part of wider Dichotic theory of salience according to which a stimulus is salient either when it is incongruent in a certain context to a perceiver s schema or when it is congruent in a certain context to a perceiver s goal According to the four propositions of the model in salient stimuli are better recalled affect both attention and interpretation and are moderated by the degree of perceivers comprehension i e activation accessibility and availability of schemata and involvement i e personal relevance of the stimuli Results of two empirical studies on print advertisements show that in salient ad messages have the strongest impact in triggering ad processing which in turn leads to consumer awareness The reading of this book is therefore recommended not only to academic scholars but also to marketers especially planning ad campaigns and launches of new products
