Progrès Réaction Décadence Dans l'Occident Médiéval Publications Romanes Et Françaises 231:

Progrès, réaction, décadence dans l'Occident médiéval Emmanuèle Baumgartner, Laurence Harf-Lancner, 2003 Le mot progrès n'existe pas au Moyen Âge Et le concept de progrès affleure peine dans la pensée occidentale Il est d'autant plus intéressant de réfléchir aujourd'hui sur ses premières manifestations un moment où le mythe du progrès triomphant du XVIIIe au XXe siècle est radicalement remis en question et de s'interroger sur la variation des idées des idéologies et de leurs champs d'application au cours des siècles Au Moyen Âge les cadres mentaux sont peu compatibles avec l'idée de progrès Pourtant le christianisme donne un sens à l'histoire et liquide le mythe antique de l'éternel retour et la conception cyclique de l'histoire Mais le mépris du monde implique le mépris du progrès matériel Le seul but envisageable est le progrès moral défini comme recherche du salut éternel L'idée de progrès apparaît cependant dans les mentalités médiévales travers un jeu d'oppositions progrès réaction progrès décadence passé présent antique moderne qui implique une réflexion dans les registres historique et politique mais aussi éthique et culturel

Constantinople and the West in Medieval French Literature Rima Devereaux, 2012 Medieval France saw Constantinople as something of a quintessential ideal city Aspects of Byzantine life were imitated in and assimilated to the West in a movement of political and cultural renewal but the Byzantine capital was also celebrated as the locus of a categorical and inimitable difference This book analyses the debate between renewal and utopia in Western attitudes to Constantinople as it evolved through the twelfth and thirteenth centuries in a series of vernacular Old French Occitan and Franco-Italian texts including the *Pèlerinage de Charlemagne* Girart de Roussillon *Partonopeus de Blois* the poetry of Rutebeuf and the chronicles by Geoffroy de Villehardouin and Robert de Clari both known as the *Conquête de Constantinople* It establishes how the texts representation of the West's relationship with Constantinople enacts this debate between renewal and utopia demonstrates that analysis of this relationship can contribute to a discussion on the generic status of the texts themselves and shows that the texts both react to the socio-cultural context in which they were produced and fulfil a role within that context P 4 of cover

Medieval Narratives of Alexander the Great Venetia Bridges, 2018 An investigation into the depiction and reception of the figure of Alexander in the literatures of medieval Europe

The Jacquerie of 1358 Justine Firnhaber-Baker, 2021 The Jacquerie of 1358 is one of the most famous and mysterious peasant uprisings of the Middle Ages This book the first extended study of the Jacquerie in over a century resolves long standing controversies about whether the revolt was just an irrational explosion of peasant hatred or simply an extension of the Parisian revolt

Partonopeus de Blois Penny Eley, 2011 First book length treatment of a fascinating medieval French romance underlining its influence in the genre *Partonopeus de Blois* is one of the most important works of twelfth century French fiction it shaped the development of romance as a genre gave rise to adaptations in several other medieval languages and even an opera Massenet's *Esclarmonde* However partly because of its complicated transmission history and partly due to the fact that it has been overshadowed by the works of Chrétien de Troyes it has been unjustly neglected This first full length

study of the romance brings together literary historical and manuscript studies to explore its making as it evolved through seven medieval editions the earliest of which probably predated most of Chr tien s romances The book s thematic analyses show how the Partonopeus poet applied established techniques of rewriting to a wide range of classical vernacular and Celtic sources combining this literary fusion with political subtexts to create a new and influential model of romance composition Detailed studies of the Continuation reveal more ambitious experimentation by the original author as well as the activities of a series of editors who continued to modify the text for over a century A final discussion of patronage proposes a new reading of the poem s distinct narratorial interventions on women and love and suggests a link between Partonopeus and a disturbing episode in the history of Blois Penny Eley is Professor of Medieval French at the University of Sheffield **Mary**

Magdalene from the New Testament to the New Age and Beyond Edmondo F. Lupieri, 2019-10-14 An international team of twenty scholars under Edmondo F Lupieri s direction produced Mary Magdalene from the New Testament to the New Age and Beyond While the historical figure of the Magdalene may be lost forever the construction of her literary images and their transformations and adaptations over the centuries are a lively testimony to human creativity and faith Different pictures of Mary travelled through time and space from history to legend and mythology crossed religious boundaries going beyond the various Christianities to become a sign of contradiction for many This book describes a special case of biblical reception history that of the New Testament figure of a woman whose presence at the side of Jesus has been disturbing for some but proves to be inspiring for others A Cumulative Bibliography of Medieval Military History and Technology Kelly

DeVries, 2008 This is the second update of A Cumulative Bibliography of Medieval Military History and Technology which appeared in 2002 It is meant to do two things to present references to works on medieval military history and technology not included in the first two volumes and to present references to all books and articles published on medieval military history and technology from 2003 to 2006 These references are divided into the same categories as in the first two volumes and cover a chronological period of the same length from late antiquity to 1648 again in order to present a more complete picture of influences on and from the Middle Ages It also continues to cover the same geographical area as the first and second volume in essence Europe and the Middle East or again influences on and from this area The languages of these
