Project Alpha Washingtons Secret Military Operations In North Vietnam:

Project Alpha Sedgwick Tourison, 1997-07-15 The Mission Penetrate North Vietnam In the early days of the Vietnam conflict American strategists in the Pentagon the White House and the CIA were desperate to contain the Communist menace In an operation codenamed Plan 34 Alpha covert agents from South Vietnam were recruited for dangerous land sea and air missions The Team A Relentless Fighting Machine Drawing on recently declassified documents and on the first person interviews of a man who was there Project Alpha tells the harrowing stories of a unique breed of warrior and the daring battles they fought A chronicle of deception betrayal and exceptional bravery it is the inside account of some of the most extraordinary operations in the history of modern warfare Finally The Full Story Can Be Told *The Vietnamese American* 1.5 Generation Sucheng Chan, 2006 Riveting stories by refugees who fled Vietnam **The Encyclopedia of the Vietnam War** Bloomsbury Publishing, 2011-05-20 Now in its second edition this comprehensive study of the Vietnam War sheds more light on the longest and one of the most controversial conflicts in U S history The Vietnam War lasted more than a decade was the longest war in U S history and cost the lives of nearly 60 000 American soldiers as well as millions of Vietnamese many of whom were uninvolved civilians The lessons learned from this tragic conflict continue to have great relevance in today s world Now in its second edition The Encyclopedia of the Vietnam War A Political Social and Military History adds an entire additional volume of entries to the already exhaustive first edition making it the most comprehensive reference available about one of the most controversial events in U S history Written to provide multidimensional perspectives into the conflict it covers not only the American experience in Vietnam but also the entire scope of Vietnamese history including the French experience and the Indochina War as well as the origins of the conflict how the United States became involved and the extensive aftermath of this prolonged war It also provides the most complete and accurate order of battle ever published based upon data compiled from Vietnamese sources This latest release delivers even more of what readers have come to expect from the editorship of Spencer C Tucker and the military history experts at ABC CLIO *The US Special Forces* John Prados, 2015-05-05 The assassination of Osama bin Laden by SEAL Team 6 in May 2011 will certainly figure among the greatest achievements of US Special Forces After nearly ten years of searching they descended into his Pakistan compound in the middle of the night killed him and secreted the body back into Afghanistan Interest in these forces had always been high but it spiked to new levels following this success There was a larger lesson here too For serious jobs the president invariably turns to the US Special Forces the SEALs Delta Force the Green Berets and the USAF s Special Tactics squad Given that secretive grab and snatch operations in remote locales characterize contemporary warfare as much as traditional firefights the Special Forces now fill a central role in American military strategy and tactics Not surprisingly the daring and secretive nature of these commando operations has generated a great deal of interest The American public has an overwhelmingly favorable view of the forces and nations around the world recognize them as the most capable fighting units

the tip of the American spear so to speak But how much do we know about them What are their origins What function do they fill in the larger military structure Who can become a member What do trainees have to go through What sort of missions do Special Forces perform and what are they expected to accomplish Despite their importance much of what they do remains a mystery because their operations are clandestine and the sources elusive In *The US Special Forces What Everyone Needs to Know* eminent scholar John Prados brings his deep expertise to the subject and provides a pithy primer on the various components of America's special forces The US military has long employed Special Forces in some form or another but it was in the Cold War when they assumed their present form and in Vietnam where they achieved critical mass Interestingly the Special Forces suffered a rapid decline in numbers after that conflict despite the fact that the United States had already identified terrorism as a growing security threat The revival of Special Forces began under the Reagan administration After 9 11 they experienced explosive growth and are now integral to all US military missions Prados traces how this happened and examines the various roles the Special Forces now play They have taken over many functions of the regular military a trend that Prados does not expect will end any time soon This will be a definitive primer on the elite units in the most powerful military the world has ever known

The Spy Who Loved Us Thomas A. Bass, 2009-02-10 Pham Xuan An was a brilliant journalist and an even better spy A friend to all the legendary reporters who covered the Vietnam War he was an invaluable source of news and a font of wisdom on all things Vietnamese At the same time he was a masterful double agent An inspired shape shifter who kept his cover in place until the day he died Pham Xuan An ranks as one of the preeminent spies of the twentieth century When Thomas A Bass set out to write the story of An's remarkable career for *The New Yorker* fresh revelations arrived daily during their freewheeling conversations which began in 1992 But a good spy is always at work and it was not until An's death in 2006 that Bass was able to lift the veil from his carefully guarded story to offer up this fascinating portrait of a hidden life A masterful history that reads like a John le Carr thriller *The Spy Who Loved Us* offers a vivid portrait of journalists and spies at war

Vietnam War James H. Willbanks, 2017-11-16 This detailed two volume set considers the Vietnam War one of America's longest and bloodiest wars from a topical perspective addressing the main characters and key events of the war and supplying many relevant primary source documents The Vietnam War not only claimed the lives of nearly 60 000 Americans and more than a million Vietnamese but the prolonged conflict also resulted in a firestorm of protest at home that shook the foundations of the country and made US citizens question the moral principles and motivations behind our foreign policy and military actions Written in a very accessible style by recognized authorities on the war *Vietnam War A Topical Exploration and Primary Source Collection* provides students and general readers with a complete overview of the conflict in Vietnam a broad topic that remains an important part of the American history and world history curriculum Using a topical approach to cover all aspects of the war the set enables students to see the complete picture of the conflict through its presentation of reference entries and documents arranged in cohesive compelling chapters

Examples of the primary documents in the set include Communist Party Evaluation of the Tet Offensive 1968 and President Richard Nixon's Speech on Vietnamization 1969 These primary sources are augmented by oral histories of soldiers who fought in the Tet Offensive Additionally maps and images in each section enhance the aesthetic appeal of the book and heighten students understanding of the material Readers will come away with both a strong comprehension of the Vietnam War as well as an appreciation for how significant this proxy conflict was as a lead up event to the global Cold War

Encyclopedia of the Vietnam War: N-Z Spencer Tucker, 1998 **Een beeld in technicolor (2nd Edition)** Pieter Meulendijks, 2023-09-25 An image in technicolor Fifty years of wars in Vietnam 1940 1990 gives a broad and innovative interpretation of the history of Vietnam between 1940 and 1990 Black and white characterisations one sided interpretations and prevailing myths are debunked Instead a nuanced and multifaceted picture is given in which the United States is less prominent History is not only written by the victors and in this case too the history of Vietnam during this period cannot be attributed solely to Ho Chi Minh and the success of the Communists in 1975 The internal losers that is the other political movements and their leaders must also be given a crucial place in Vietnam's history For example the civil wars that took place between 1940 and 1990 played an unmistakable role The older idealised image of North Vietnam is inaccurate This country was a dictatorial and oppressive police state After 1954 the North Vietnamese leaders were embroiled in a fierce power struggle and were largely responsible for the war in South Vietnam The answer to the question of who the legitimate representatives of the Vietnamese nation were also requires a more balanced judgment of non Communist politicians such as Bao Dai Ngo Dinh Diem and Nguyen Van Thieu As for the role of international players initially it was the Cold War that determined the United States interference later it was American credibility In the end it was the support from China and the Soviet Union that was the deciding factor for North Vietnam's victory Important new perspectives are given on the role of minorities the meaning of a third way the devastating effects of the strategy the role of women and girls and the mental and cultural aspects of the wars Twilight Warriors Curtis L Peebles, 2013-06-11 From the start of the Cold War to the fall of Saigon from the Congo to Tibet from the Bay of Pigs to North Vietnam and Nicaragua here is a comprehensive overview of U S air supported covert operations against the Soviet bloc Twilight Warriors brings a sense of continuity to the shifting shadowy battlefronts of the Cold War spanning the postwar decades with one fascinating account after another The known and not so well known are woven together to provide the big picture failed early attempts to set up spy cells behind the Iron Curtain confounded by the agent Kim Philby the actual CIA plane that secretly appeared in the James Bond film Thunderball Operation MongOOSE clandestine airlines and the gutsy breed who took to the skies as airborne spies This is a sweeping globe trotting account of covert ops in the post war era that reads like an epic secret history **Secrets of Signals Intelligence During the Cold War** Matthew M. Aid, Cees Wiebes, 2013-11-05 In recent years the importance of Signals Intelligence Sigint has become more prominent especially the capabilities of reading and deciphering diplomatic military and

commercial communications of other nations This work reveals the role of intercepting messages during the Cold War

Secrets of Signals Intelligence During the Cold War and Beyond Matthew M. Aid, Cees Wiebes, 2001 In recent years the importance of Signals Intelligence Sigint has become more prominent especially the capabilities and possibilities of reading and deciphering diplomatic military and commercial communications of other nations This growing awareness of the importance of intelligence applies not only to the activities of the big services but also to those smaller nations like The Netherlands For this reason The Netherlands Intelligence Association NISA was recently established in which academics and former and still active members of The Netherlands intelligence community work together in order to promote research into the history of Dutch intelligence communities
