Clark, 2019-07-01

Between Earth and Empire focuses on the crucial position of humanity at the present moment in Earth history We are now in the midst of the Necrocene an epoch of death and mass extinction Nearing the end of the long history of Empire and domination we are faced with the choice of either continuing the path of social and ecological disintegration or initiating a new era of social and ecological regeneration The book shows that conventional approaches to global crisis on both the right and the left have succumbed to processes of denial and disavowal either rejecting the reality of crisis entirely or substituting ineffectual but comforting gestures and images for deep systemic social transformation It is argued that a large scale social and ecological regeneration must be rooted in communities of liberation and solidarity fostering personal and group transformation so that a culture of awakening and care can emerge Between Earth and Empire explores examples of significant progress in this direction including the Zapatista movement in Chiapas the Democratic Autonomy Movement in Rojava indigenous movements in defense of the commons the solidarity economy movement and efforts to create liberated base communities and affinity groups within anarchism and other radical social movements In the end the book presents a vision of hope for social and ecological regeneration through the rebirth of a libertarian and communitarian social imaginary and the flourishing of a free cooperative community globally Out of the Woodpile Frankie Y. Bailey, 1991-02-15

Race and Education in New Orleans Walter Stern, 2018-05-04 Surveying the two centuries that preceded Jim Crow's demise *Race and Education in New Orleans* traces the course of the city's education system from the colonial period to the start of school desegregation in 1960 This timely historical analysis reveals that public schools in New Orleans both suffered from and maintained the racial stratification that characterized urban areas for much of the twentieth century Walter C Stern begins his account with the mid eighteenth century kidnapping and enslavement of Marie Justine Sirnir who eventually secured her freedom and played a major role in the development of free black education in the Crescent City As Sirnir's story and legacy illustrate schools such as the one she envisioned were central to the black antebellum understanding of race citizenship and urban development Black communities fought tirelessly to gain better access to education which gave rise to new strategies by white civilians and officials who worked to maintain and strengthen the racial status quo even as they conceded to demands from the black community for expanded educational opportunities The friction between black and white New Orleanians continued throughout the nineteenth century and well into the twentieth when conflicts over land and resources sharply intensified Stern argues that the post Reconstruction reorganization of the city into distinct black and white enclaves marked a new phase in the evolution of racial disparity segregated schools gave rise to segregated communities which in turn created structural inequality in housing that impeded desegregation's capacity to promote racial justice By taking a long view of the interplay between education race and urban change Stern underscores the fluidity of race as a social construct and the extent to which the Jim Crow system evolved through a dynamic though often improvisational process A vital and accessible history *Race and Education in New Orleans* provides a comprehensive look at the ways the New Orleans school system shaped the city's racial and urban landscapes

Tennessee Williams, T-shirt Modernism and the Refashionings of Theater S. E. Gontarski, 2021-07-06 Tennessee Williams' *T-shirt Modernism and the Refashionings of Theater* reappraises the received wisdom that Williams's work fell into decline in the late 1960s as the Naturalism he was associated with not always through his own choice was replaced by European theatrical experimentalism and as culture saw a lifting of sexual restrictions It suggests instead that Williams was always experimental always more Chekhov than Ibsen a lyrical playwright inflected with the poetry of Hart Crane and that his late

plays are as central to Williams's reshaping of American theater as those works of the immediate post World War II era that brought him fame and fortune. Its general aim then is to engage the perception that Tennessee Williams is the greatest unknown playwright America has produced. David Savran, City University of New York. In many respects the work of Tennessee Williams after a protracted period of neglect is primed for reappraisal, reinterpretations, and subsequently restagings. This work is part of that process academically at very least but performatively as well as academic reinterest often regenerates theatrical reinterest.

New Orleans' Charity Hospital John E. Salvaggio, 1992-11-01 For more than 250 years New Orleans Charity Hospital has struggled to serve the city's indigent ill and in so doing has become an institution steeped in Louisiana history and politics. In this fascinating new book John Salvaggio traces the colorful history of Charity Hospital from the early days of French colonial medicine through the Spanish period, the early American years, the volatile Huey Long and World War II eras, and the modern postwar period. Established in 1736 with the legacy of a compassionate French ship builder, Charity Hospital has weathered many storms to maintain its status as the oldest continually operating hospital in the United States. It has withstood the transfer of Louisiana territory from the French to the Spanish and survived devastating hurricanes and a fire. The institution has also endured the stormy beginnings of Louisiana statehood, the hardships of the Civil War, and more recently the stresses of caring for an ever-expanding patient load. Throughout much of its history, Charity Hospital has encountered political squabbles, patronage problems, and financial woes. As a new century approaches, the hospital finds its future threatened by inadequate funding and the crumbling of its physical facilities. Despite many setbacks, Charity Hospital has accomplished much in its history. Salvaggio presents a summary of the many medical procedures, diagnostic techniques, and therapeutic innovations that have been introduced at the Big Free, as the hospital is popularly known. He also provides previously unchronicled information on the hospital's history during the twentieth century, writing about political infighting during the governorship of Huey P. Long, construction of a new hospital building in the 1930s, integration of the hospital in the 1960s, its relationships with the medical schools of Louisiana State University and Tulane University, and the current frustrating attempts to adequately staff the institution. Interviews with many of Charity's past directors and others associated with the hospital, as well as lively anecdotes from the author's own experience, bring the hospital's history to life and provide valuable insight into the institution's inner workings. These reminiscences, coupled with Salvaggio's depiction of Charity's past, present, and now questionable future, make this a fascinating and informative work on an important hospital of the South.
