*Rome the Cosmopolis* Catharine Edwards, Greg Woolf, 2006-11-02 Rome stands today for an empire and for a city The essays gathered in this volume explore some of the many ways in which the two were interwoven Rome was fed beautified and enriched by empire just as it was swollen polluted infected and occupied by it Empire was paraded in the streets of Rome and exhibited in

the city's buildings Empire also made the city inextricably foreign polyglot an alien capital and a focus for un-Roman activities The city was where the Roman cosmos was most concentrated and so was most contested Deploying a range of methodologies on materials ranging from Egyptian obelisks to human skeletal remains via Christian art and Latin poetry the contributors to this volume weave a series of pathways through the world city exploring the different kinds of centrality Rome had in the empire The result is a startlingly original picture of both empire and city

Clarke, 2006-04-17 Art in the Lives of Ordinary Romans is superbly out of the ordinary John Clarke's significant and intriguing book takes stock of a half century of lively discourse on the art and culture of Rome's non-elite patrons and viewers Its compelling case studies on religion work spectacle humor and burial in the monuments of Pompeii and Ostia which attempt to revise the theory of trickle-down Roman art effectively refine our understanding of Rome's pluralistic society Ordinary Romans whether defined in imperialistic monuments or narrating their own stories through art in houses shops and tombs come to life in this stimulating work Diana E. E. Kleiner author of Roman Sculpture John R. Clarke again addresses the neglected underside of Roman art in this original perceptive analysis of ordinary people as spectators consumers and patrons of art in the public and private spheres of their lives Clarke expands the boundaries of Roman art stressing the defining power of context in establishing Roman ways of seeing art And by challenging the dominance of the Roman elite in image-making he demonstrates the constitutive importance of the ordinary viewing public in shaping Roman visual imagery as an instrument of self-realization Richard Brilliant author of Commentaries on Roman Art Visual Narratives and Gesture and Rank in Roman Art John Clarke reveals compelling details of the tastes beliefs and biases that shaped ordinary Romans encounters with works of art both public

monuments and private art they themselves produced or commissioned The author discusses an impressively wide range of material as he uses issues of patronage and archaeological context to reconstruct how workers women and slaves would have experienced works as diverse as the Ara Pacis of Augustus funerary decoration and tavern paintings at Pompeii Clarke s new perspective yields countless valuable insights about even the most familiar material Anthony Corbeill author of *Nature Embodied Gesture in Ancient Rome* How did ordinary Romans view official paintings glorifying emperors What did they intend to convey about themselves when they commissioned art And how did they use imagery in their own tombstones and houses These are among the questions John R Clarke answers in his fascinating new book *Charting a new approach to people s art* Clarke investigates individual images for their functional connections and contexts broadening our understanding of the images themselves and of the life and culture of ordinary Romans This original and vital book will appeal to everyone who is interested in the visual arts moreover specialists will find in it a wealth of stimulating ideas for further study Paul Zanker author of *The Mask of Socrates The Image of the Intellectual in Antiquity* [The Melancholy Art](#) Michael Ann

Holly, 2013-02-24 Why the art historian s craft is a uniquely melancholy art Melancholy is not only about sadness despair and loss As Renaissance artists and philosophers acknowledged long ago it can engender a certain kind of creativity born from a deep awareness of the mutability of life and the inevitable cycle of birth and death Drawing on psychoanalysis philosophy and the intellectual history of the history of art *The Melancholy Art* explores the unique connections between melancholy and the art historian s craft Though the objects art historians study are materially present in our world the worlds from which they come are forever lost to time In this eloquent and inspiring book Michael Ann Holly traces how this disjunction courses through the history of art and shows how it can give rise to melancholic sentiments in historians who write about art She confronts pivotal and vexing questions in her discipline Why do art historians write in the first place What kinds of psychic exchanges occur between art objects and those who write about them What institutional and personal needs does art history serve What is lost in historical writing about art *The Melancholy Art* looks at how melancholy suffuses the work of some of the twentieth century s most powerful and poetic writers on the history of art including Alois Riegl Franz Wickhoff Adrian Stokes Michael Baxandall Meyer Schapiro and Jacques Derrida A disarmingly personal meditation by one of our most distinguished art historians this book explains why to write about art is to share in a kind of intertwined pleasure and loss that is the very essence of melancholy

**Panofsky and the Foundations of Art History** Michael Ann Holly, 1984 No one has been more influential in the contemporary practice of art history than Erwin Panofsky yet many of his early seminal papers remain virtually unknown to art historians As a result Michael Ann Holly maintains art historians today do not have access to the full range of methodological considerations and possibilities that Panofsky s thought offers and they often remain unaware of the significant role art history played in the development of modern humanistic thought Placing Panofsky s theoretical work first in the context of the major historical paradigms generated by Hegel Burckhardt and Dilthey Holly

shows how these paradigms themselves became the grounds for creative controversy among Panofsky's predecessors Riegl Wölfflin Warburg and Dvork among others She also discusses how Panofsky's struggle with the terms and concepts of neo-Kantianism produced in his work remarkable parallels with the philosophy of Ernst Cassirer Finally she evaluates Panofsky's better known and later iconological studies by reading them against the earlier essays and by comparing his earlier ideas with the vision that has inspired recent work in the philosophy of history semiotics and the philosophy of science *Virgil's Garden* Frederick Jones, 2013-10-16 Virgil's book of bucolic verse the *Eclogues* defines a green space separate from the outside worlds both of other Roman verse and of the real world of his audience However the boundaries between inside and outside are deliberately porous The bucolic natives are aware of the presence of Rome and Virgil himself is free to enter their world Virgil's bucolic space is in many ways a poetic replication of the public and private gardens of his Roman audience enclosed green spaces which afforded the citizen sheltered social and cultural activities temporary respite from the turbulence of public life and a tamed landscape in which to play out the tensions between the simple ideal and the complexities of reality This book examines the *Eclogues* in terms of the relationship between its contents and its cultural context making connections between the *Eclogues* and the representational modes of Roman art Roman concepts of space and landscape and Roman gardens *Encyclopedia of the History of Classical Archaeology* Nancy Thomson de Grummond, 2015-05-11 With 1 125 entries and 170 contributors this is the first encyclopedia on the history of classical archaeology It focuses on Greek and Roman material but also covers the prehistoric and semi-historical cultures of the Bronze Age Aegean the Etruscans and manifestations of Greek and Roman culture in Europe and Asia Minor The *Encyclopedia of the History of Classical Archaeology* includes entries on individuals whose activities influenced the knowledge of sites and monuments in their own time articles on famous monuments and sites as seen changed and interpreted through time and entries on major works of art excavated from the Renaissance to the present day as well as works known in the Middle Ages As the definitive source on a comparatively new discipline the history of archaeology these finely illustrated volumes will be useful to students and scholars in archaeology the classics history topography and art and architectural history **The Romanization of Britain** Martin Millett, 1992-06-11 This book sets out to provide a new synthesis of recent archaeological work in Roman Britain **Collecting China** Vimalin Rujivacharakul, 2011-02-14 *Collecting China* is a unique collection of essays that brings together theories of materiality and what collecting has meant to various peoples over time *Collecting China* grew out of a simple question how does a thing become Chinese Fifteen essays explore this question from different angles ranging from close examination of world renowned private collections to critical reinterpretations of historical writings **Subtle Bodies** Glenn Peers, 2001-02-14 Explores the strategies used by Byzantine artists to represent the incorporeal forms of angels and the rationalizations in defence of their representations mustered by theologians in the face of iconoclastic opposition These problems of representation provide a window on Late Antique
