Proletarians and Parties Leslie Benson, 1978-01-01 **Structure, Agency and Theory** Ib Gram-Jensen, 2021-04-20

Structure Agency and Theory challenges common readings of Marx and Engels historical materialism and argues the necessity of abandoning their conception of the dialectic of forces and relations of production as the motive power of historical development and transformations because of its doubtful validity and deterministic implications Instead another fundamental conception in historical materialism the interaction between social circumstances and agency as the motive power of history is accentuated with an emphasis on agents experiences as a causal factor arguing its potential in terms of historical explanation and attempting to spell out some of its strategic implications for revolutionary socialism **The Conundrum of Class** Martin J. Burke, 1995-09 Martin Burke traces the surprisingly complicated history of the idea of class in America from the forming of a new nation to the heart of the Gilded Age Surveying American political social and intellectual life from the late 17th to the end of the 19th century Burke examines in detail the contested discourse about equality the way Americans thought and wrote about class class relations and their meaning in society Burke explores a remarkable range of thought to establish the boundaries of class and the language used to describe it in the works of leading political figures social reformers and moral philosophers He traces a shift from class as a legal category of ranks and orders to socio economic divisions based on occupations and income Throughout the century he finds no permanent consensus about the meaning of class in America and instead describes a culture of conflicting ideas and opinions Power, Norms, and Inflation Michael R. Smith, 2017-09-29 Explanations for inflation had for a long time been ceded to the purview of economists The acceleration in rates of inflation within advanced economies during the 1960s and 1970s however prompted sociologists and political scientists to attempt their own accounts for this phenomenon There are two major competing explanations of the postwar inflation One most commonly held by economists is that inflation has been produced by governments through a combination of policy errors and cynical manipulation of policy for electoral purposes The other often advanced by sociologists and political scientists as an alternative is that inflation has been an outcome of class conflict In his study that ranges widely over the literature in the relevant disciplines Smith examines the strengths and weaknesses of each account with particular attention to the evidence presented in support of class conflict explanations He concludes that on balance the policy error cynical manipulation explanation is better supported than its class conflict rival The clarity with which Smith presents these rival accounts and the critical rigor of his scrutiny make this a work of interest to advanced students in macroeconomic theory and to policy makers **A London Bibliography of the Social Sciences** ,1931 Vols 1 4 include material to June 1 1929 **Australian Journal of Political Science** ,1979 **Sociological Abstracts** Leo P. Chall, 1982 **National Union Catalog** ,1980 Includes entries for maps and atlases **Class: Image and Reality** A. Marwick, 1990-08-28 An historical and cultural study of class both as a media perceived image and as it existed in reality in

Britain the USA and France from 1930 to the end of the 1970s The author focuses on the changes which have evolved in social attitudes and the present perception of class distinction **Class** Arthur Marwick,1980 A provocative and wide ranging historical overview of this vital social subject of class distinctions The author compares American French and British society since the Depression and concludes that in all three class is still an important factor **National Union Catalog, 1980** ,1981 **The Formation of the Chinese Communist Party** Yoshihiro Ishikawa,2012-11-13 Official Chinese narratives recounting the rise of the Chinese Communist Party CCP tend to minimize the movement s international associations Conducting careful readings and translations of recently released documents in Russian Japanese and Chinese Ishikawa Yoshihiro builds a portrait of the party s multifaceted character revealing the provocative influences that shaped the movement and the ideologies of its competitors Making use of public and private documents and research Ishikawa begins the story in 1919 with Chinese intellectuals who wrote extensively under pen names and in fact plagiarized or translated many iconic texts of early Chinese Marxism Chinese Marxists initially drew intellectual sustenance from their Japanese counterparts until Japan clamped down on leftist activities The Chinese then turned to American and British sources Ishikawa traces these networks through an exhaustive survey of journals newspapers and other intellectual and popular publications He reports on numerous early meetings involving a range of groups only some of which were later funneled into CCP membership and he follows the developments at Soviet Russian gatherings attended by a number of Chinese representatives who claimed to speak for a nascent CCP Concluding his narrative in 1922 one year after the party s official founding Ishikawa clarifies a traditionally opaque period in Chinese history and sheds new light on the subsequent behavior and attitude of the party *New Society* ,1978 **Books in Print Supplement** ,1982 Paperbound Books in Print ,1984 Books in Print ,1987 Directions ,1980 **Aesthetic Thinking: Essays on Intention, Painting, Action, and Ideology** Fred Orton,2021-12-13 Fred Orton s teaching and writing has always combined theoretical and formal which is to say structural analysis with historical research and reflection This collection of essays rewritten studies of Paul C zanne Jasper Johns the American cultural critic Harold Rosenberg and a new essay on Marx and Engels notion of ideology brings together some of his most decisive contributions to thinking about fine art practice and rethinking the theory and methods of the social history of art More than an anthology it offers a vivid demonstration of how theory can work to generate new interpretations and unsettle old ones New Zealand National Bibliography ,1979 **Sociological Abstracts** ,1981
