Prologue To Independence New Jersey In The Coming Of The American Revolution:

New Jersey in the American Revolution Barbara J. Mitnick, 2007-03-12 This remarkably comprehensive anthology brings new life to the rich and turbulent late 18th century period in New Jersey Originally conceived for the state's 225th

Anniversary of the Revolution Celebration Commission **The American Revolution in New Jersey** James J.

Gigantino, 2015-04-01 Winner of the 2016 New Jersey Studies Academic Alliance Authors Award for the Edited Works

Category Battles were fought in many colonies during the American Revolution but New Jersey was home to more sustained and intense fighting over a longer period of time The nine essays in *The American Revolution in New Jersey* depict the many challenges New Jersey residents faced at the intersection of the front lines and the home front Unlike other colonies New Jersey had significant economic power in part because of its location between the major ports of New York and Philadelphia New people and new ideas arriving in the colony fostered tensions between Loyalists and Patriots that were at the core of the Revolution Enlightenment thinking shaped the minds of New Jersey's settlers as they began to question the meaning of freedom in the colony Yeoman farmers demanded ownership of the land they worked on and members of the growing Quaker denomination decried the evils of slavery and spearheaded the abolitionist movement in the state When larger portions of New Jersey were occupied by British forces early in the war the unity of the state was crippled pitting neighbor against neighbor for seven years The essays in this collection identify and explore the interconnections between the events on the battlefield and the daily lives of ordinary colonists during the Revolution Using a wide historical lens the contributors to *The American Revolution in New Jersey* capture the decades before and after the conflict as they interpret the causes of the war and the consequences of New Jersey's reaction to the Revolution **Prologue to Independence** Larry R. William Livingston's American Revolution James J. Gigantino II, 2018-09-11 William Livingston's *American Revolution* explores how New Jersey's first governor experienced the American Revolution and managed a state government on the war's front lines A wartime bureaucrat Livingston played a pivotal role in a pivotal place prosecuting the war on a daily basis for eight years Such second tier founding fathers as Livingston were the ones who actually administered the war and guided the day to day operations of revolutionary era governments serving as the principal conduits between the local wartime situation and the national demands placed on the states In the first biography of Livingston published since the 1830s James J. Gigantino's examination is as much about the position he filled as about the man himself The reluctant patriot and his roles as governor member of the Continental Congress and delegate to the Constitutional Convention quickly became one as Livingston's distinctive personality molded his office's status and reach A tactful politician successful lawyer writer satirist political operative gardener soldier and statesman Livingston became the longest serving patriot governor during a brutal war that he had not originally wanted to fight or believed could be won Through Livingston's life Gigantino examines the complex nature of the conflict and the choice to wage it the wartime bureaucrats charged with administering it the constant

battle over loyalty on the home front the limits of patriot governance under fire and the ways in which wartime experiences affected the creation of the Constitution **William Alexander, Lord Stirling** Paul David Nelson,1987 The biographical account of a man who served 18th century American society as a prominent citizen in peacetime and as a soldier in the Seven Years War and the American Revolution At the beginning of the Revolutionary War Stirling was appointed a colonel in the New Jersey Continental Line and from there rose to the rank of Major General A brave and loyal soldier he greatly impressed General George Washington who made him commander of one of the five divisions of the Continental Army Serving in this capacity Stirling made his reputation as a military man fighting in the battles of Long Island White Plains Trenton Brandywine Germantown and Monmouth He spent the winter of 1777 78 with Washington at Valley Forge From time to time he carried out independent military operations most notably a raid against Staten Island in January 1780 Stirling's buoyant optimism and reckless enthusiasm for any task led one military comrade to state that his high birth and good humor provided him with many more opportunities in life than his skill and intelligence would have permitted He died while in command of the Northern Department on January 15 1783 full of military glory and according to one cynic good liquor **What Can't Brave Americans Endure?** Joseph Lee Boyle,2001 While the six month encampment of the Continental Army at Valley Forge in 1777 1778 has been part of America's folklore for generations most of the men who served there have remained anonymous The names of over 30 000 men of all ranks appear on the surviving monthly muster and payroll records This compilation is the second volume of an effort to recognize some of these heroes of the Revolutionary War Preface **Tea** James R. Fichter,2023-12-15 In Tea James R Fichter reveals that despite the so called Boston Tea Party in 1773 two large shipments of tea from the East India Company survived and were ultimately drunk in North America Their survival shaped the politics of the years ahead impeded efforts to reimburse the company for the tea lost in Boston Harbor and hinted at the enduring potency of consumerism in revolutionary politics Tea protests were widespread in 1774 but so were tea advertisements and tea sales Fichter argues The protests were noisy and sometimes misleading performances not clear signs that tea consumption was unpopular Revolutionaries vilified tea in their propaganda and prohibited the importation and consumption of tea and British goods Yet merchant ledgers reveal these goods were still widely sold and consumed in 1775 Colonists supported Patriots more than they abided by non consumption When Congress ended its prohibition against tea in 1776 it reasoned that the ban was too widely violated to enforce War was a more effective means than boycott for resisting Parliament after all and as rebel arms advanced Patriots seized tea and other goods Britons left behind By 1776 protesters sought tea and objecting to its high price redistributed rather than destroyed it Yet as Fichter demonstrates in Tea by then the commodity was not a symbol of the British state but of American consumerism **Jacob Green's Revolution** S. Scott Rohrer,2014-09-10 Part biography and part microhistory Jacob Green's Revolution focuses on two key figures in New Jersey's revolutionary drama Jacob Green a radical Presbyterian minister who advocated revolution and Thomas Bradbury Chandler a

conservative Anglican minister from Elizabeth Town who was a leading loyalist spokesman in America Both men were towering intellects who were shaped by Puritan culture and the Enlightenment and both became acclaimed writers and leading figures in New Jersey Green for the rebelling colonists Chandler for the king Through their stories this book examines the ways in which religion influenced reform during a pivotal time in American history **Slavery and Freedom in the Rural North** Graham Russell Hodges,1997 Focusing on the development of a single African American community in eastern New Jersey Hodges examines the experience of slavery and freedom in the rural north This unique social history addresses many long held assumptions about the experience of slavery and emancipation outside the south For example by tracing the process by which whites maintained a durable architecture of oppression and a rigid racial hierarchy it challenges the notions that slavery was milder and that racial boundaries were more permeable in the north Monmouth County New Jersey because of its rich African American heritage and equally well preserved historical record provides an outstanding opportunity to study the rural life of an entire community over the course of two centuries Hodges weaves an intricate pattern of life and death work and worship from the earliest settlement to the end of the Civil War

Between Authority and Liberty Marc W. Kruman, 2014-03-24 In a major reinterpretation of American political thought in the revolutionary era Marc Kruman explores the process of constitution making in each of the thirteen original states and shows that the framers created a distinctively American science of politics well before the end of the Confederation era Suspicious of all government power state constitution makers greatly feared arbitrary power and mistrusted legislators ability to represent the people s interests For these reasons they broadened the suffrage and introduced frequent elections as a check against legislative self interest This analysis challenges Gordon Wood s now classic argument that at the beginning of the Revolution the founders placed great faith in legislators as representatives of the people According to Kruman revolutionaries entrusted state constitution making only to members of temporary provincial congresses or constitutional conventions whose task it was to

restrict legislative power At the same time Americans maintained a belief in the existence of a public good that legislators and magistrates when properly curbed by one another and by a politically active citizenry might pursue **The American Revolution 1775-1783** Richard L.
