Prometheus Rebounds A Fable Of Hope:

Prometheus Rebound Joseph C. McLelland, 1989-01-13 Modern atheism is a further act in the ancient drama of Prometheus vs Zeus This book argues that the antagonism is false as proved by the irony in which atheism turns into antitheism transferring divine qualities to Humanity The drama is framed by the classic dilemma a conflict of wills Tyrant and Rebel The Unbinding of Prometheus is traced through Western history to the Enlightenment death of God both speculative Hegel and practical Marx Finally four types of idols are examined in which Prometheus is rebound Freud's Oedipus Nietzsche's Dionysus Camus Sisyphus and Sartre's Orestes The revision of both theism and atheism demands recasting Zeus and Prometheus breaking the impasse of heteronomy autonomy and omnipotence free will Only thus may we affirm Humanity without denying God *A Catalog of Books Represented by Library of Congress Printed Cards Issued to July 31, 1942*, 1942 **University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Authors & titles** University of California (System). Akers, 2013-10 About *Prometheus Rebound* In the not so distant past a lone UFO crash lands in rural England in the dead of night Its pilot the enigmatic KLINE brings a gift of advanced technology and a dire warning of things to come In the less distant future the first in a series of devastating attacks wipes out a major U S city Preparations could have been made to meet the threat but a certain visitor's warnings were not taken seriously Now a frightened nation races against the clock to prepare for the next assault But its greatest hope for survival will come from an unexpected direction A whole new class of warrior will arise from within the populace mechanics and stock brokers and waitresses and students average Americans who share a very specific and underappreciated talent Leading them in the fight will be Kara Dunn a pragmatic young woman with no idea of the destiny she alone can fulfill About the *Gryphens Duology* You've seen the big budget summer action flicks You've read the books maybe played the video games You've heard all the conspiracy theories But this is the real world the present day If the unthinkable happened if we faced an actual verifiable threat from outside our planet What would we do The *Gryphens Duology* tells that tale Blending military thriller and science fiction with an emphasis on the science new author R L Akers produces a well crafted story peopled by characters you'll grow to love and hate When the threat from outer space becomes known the U S government is caught unprepared With time running out the military must adapt to an entirely new variety of warfare Pilots and soldiers must be recruited trained and deployed to defensive installations in orbit above North America and technology must take a giant leap forward with considerable assistance from a surprising source But there are those who would halt these preparations mercenaries and even traitors within the ranks What motivates them to betray their world is unknown but they will stop at nothing to prevent the newest branch of United States military from fulfilling its mandate From the shadows of rural England to the bowels of Area 51's Groom Lake installation from the most remote corner of our planet to geosynchronous orbit
