Prometheus Revisited

Terrence E. Paupp

Promethus Revisited:

Prometheus Revisited Arthur Mitzman, 2003 The myth of Prometheus has long served as a symbol of the industrialization and individualism of the modern world yet Arthur Mitzman aims to demonstrate an alternative conception emphasizing creativity over productivity and a harmonious union with nature rather than its technocratic conquest **Lacan and**

Psychoanalytic Obsolescence Jean-Michel Rabaté, 2024-09-23 This book explores the importance of Lacan's role as an irritant within psychoanalysis and how Freud and Lacan saw that as key to ensuring that psychoanalysis remained fresh and vital rather than becoming obsolescent Drawing on Freud's thinking as well as Lacan's Rabaté examines how Lacan's unwillingness to allow psychoanalytic thinking to become stale or pigeonholed into one part of life was key in his thinking By constantly returning to psychoanalytic ideas in new and evolving ways Lacan kept psychoanalysis moving and changing much as Socrates did for philosophical thinking in classical Athens This gadfly or irritant role gave him free reign to explore all aspects of psychoanalytic thinking and treatment and how it can permeate all aspects of life both in the consulting room and beyond Drawing on a deep understanding of Lacan's work as well as Freud's this book is key reading for all those seeking to understand why Lacan's work remains so important and so challenging for contemporary psychoanalysis **Promethean**

Love Timothy Madigan, 2008-12-18 The myth of Prometheus has inspired countless generations of humanists throughout the ages Prometheus who stole fire from the gods and gave it to humans to help them survive remains a symbol for those who reject theistic orthodoxies and who fearlessly challenge accepted beliefs Artists such as Byron Goethe Beethoven and Wagner have been influenced by this story Most importantly Prometheus is a symbol for selfless love In this collection of essays the Promethean myth and its relationship to the philosophy of love is explored from its origins in Ancient Greece to its similarities and contrasts with the figure of Christ Special emphasis is given to the work and writings of Paul Kurtz the foremost contemporary defender of humanism as a worldview who has made the figure of Prometheus a special part of his own philosophy **The Spiritual Dimension of Business Ethics and Sustainability Management** László

Zsolnai, 2014-12-01 This book discloses the spiritual dimension in business ethics and sustainability management Spirituality is understood as a multiform search for meaning which connects people with all living beings and God or Ultimate Reality In this sense spirituality is a vital source in social and economic life The volume examines the spiritual orientations to nature and business in different cultural traditions Christianity Judaism Islam Sufism Hinduism Buddhism and Taoism It studies how spirituality and ecology can contribute to transforming contemporary management theory and praxis It discusses new leadership roles and business models that emerge for sustainability in business and shows how entrepreneurship can be inspired by nature and spirituality in a meaningful way **Exodus From Empire** Terrence E. Paupp, 2006-11-20 This book

lays out a comprehensive vision for a new world order based on cooperation between the developing world and leading Left countries in Latin America Arguing that the ravages of corporate capitalism are unsustainable Terrence E Paupp presents an

energetic critique of the problems of empire and looks ahead to a global countermovement against the IMF and US hegemony

The Cosmic Viewpoint Gareth D. Williams, 2012-04-05 Seneca's *Natural Questions* is an eight book disquisition on the nature of meteorological phenomena ranging inter alia from rainbows to earthquakes from comets to the winds from the causes of snow and hail to the reasons why the Nile floods in summer Much of this material had been treated in the earlier Greco Roman meteorological tradition but what notoriously sets Seneca's writing apart is his insertion of extended moralizing sections within his technical discourse How if at all are these outbursts against the luxury and vice that are apparently rampant in Seneca's first century CE Rome to be reconciled with his main meteorological agenda In grappling with this familiar question *The Cosmic Viewpoint* argues that Seneca is no blinkered or arid meteorological investigator but a creative explorer into nature's workings who offers a highly idiosyncratic blend of physico moral investigation across his eight books At one level his inquiry into nature impinges on human conduct and morality in its implicit propagation of the familiar Stoic ideal of living in accordance with nature the moral deviants whom Seneca condemns in the course of the work offer egregious examples of living contrary to nature's balanced way At a deeper level however *The Cosmic Viewpoint* stresses the literary qualities and complexities that are essential to Seneca's literary art of science his technical enquiries initiate a form of engagement with nature which distances the reader from the ordinary involvements and fragmentations of everyday life instead centering our existence in the cosmic whole From a figurative standpoint Seneca's meteorological theme raises our gaze from a terrestrial level of existence to a more intuitive plane where literal vision gives way to higher conjecture and intuition in striving to understand meteorological phenomena we progress in an elevating direction a conceptual climb that renders the *Natural Questions* no mere store of technical learning but a work that actively promotes a change of perspective in its readership

Heaven on Earth Richard Landes, 2011-08-04 Millennialists through the ages have looked forward to the apocalyptic moment that will radically transform society into heaven on Earth Here Landes offers a lucid and ground breaking analysis of this widely misunderstood phenomenon

Biotechnology Unzipped A Joseph Henry Press book, Eric S. Grace, 2006-07-26 In this update to the very popular first edition of the same name skilled science popularizer Eric Grace helps readers understand what biotechnology is and what implications it holds for all of us Following on the heels of the success of the first edition this thoroughly updated version offers an in depth and accessible review of the basics of biotechnology Accomplished science communicator Eric Grace focuses on the ethical implications involved the wide range of public opinions both at home and abroad the role of the media in communicating a complicated science topic and the formidable problems associated with patenting life itself With an emphasis on medicine agriculture and the environment Grace explores the promises and realities of biotechnology He deals frankly with the fact that biotechnology is first and foremost a commercial activity often driven by big business and directed by the bottom line And as biotechnology is used more frequently in medical diagnosis and treatment we are witness to significant setbacks and reversals dimming hopes that

were prevalent when the first edition was released But we are also witness to the burgeoning use of the technology in forensic science where DNA analysis has become commonplace in solving crimes Likewise DNA analysis has been a boon to studies of human history and evolution revealing ancient details originally thought lost to us At the same time new uses for genetically altered bacteria are being discovered that help us clean up the environment by breaking down or sequestering toxic chemicals While the public remains concerned about biotechnology there is increasing awareness of the potential benefits This updated edition of *Biotechnology Unzipped* helps put the many issues in perspective and provides answers to the most important questions

Cultural Anxiety Rafael López-Pedraza, Four brilliant essays by the author of *Hermes and His Children* hailing the elemental force of the irrational in a world that is all too often explained and understood *Moon Madness* *Titanic Love* *Cultural Anxiety* *Reflections on the Duende* *Consciousness of Failure* López Pedraza passionately urges us to acknowledge our roots in the soul and our debt to the unknowable

Brill's Companion to Seneca Andreas Heil, Gregor Damschen, 2015-03-20 This new and important introduction to Seneca provides a systematic and concise presentation of this author's philosophical works and his tragedies It provides handbook style surveys of each genuine or attributed work giving dates and brief descriptions and taking into account the most important philosophical and philological issues In addition they provide accounts of the major steps in the history of their later influence The cultural background of the texts and the most important problem areas within the philosophic and tragic corpus of Seneca are dealt with in separate essays

Lacan's Cruelty Meera Lee, 2022-08-29 This collection written by leading Lacanian psychoanalytic theorists and practitioners is a unique exploration of the novel aspects of perversion from the perspective of cruelty a psychoanalytic study that has never been sufficiently undertaken in an English speaking world Instead of reducing the notion of perversion to cultural representations a historical discourse or a clinical diagnosis the authors in this collection draw on Freud Kant Hegel Marquis de Sade Derrida Deleuze and Iek to untie the knot of psychic cruelty intrinsic to perversion and therefore desexualize perverted acts They do so by theorizing perversion in psychoanalytic concepts of the Oedipus complex the Name of the Father and jouissance and furthermore in the perspective of the clinics of neurosis and psychosis in dialogue with a clinical praxis philosophy and literature

Futures in Action Carine Dartiguepeyrou, Michel Saloff-Coste, 2024-11-20 In order to think about the future and bring it to life *Futures in Action* emphasizes the practical and pragmatic dimensions of foresight This book makes it possible to develop a vision of the future to anticipate significant changes and pinpoint the weak areas Foresight helps to rally players around a common vision influence strategic decisions and inspire innovation and organizational transformation *Futures in Action* brings together the expertise of contributors from a wide range of public and private organizations The diversity of their contributions puts into perspective the implementation of foresight both in France and worldwide Exploring the major lessons and questions to come this book is for all those who are convinced of the need to anticipate and build the future by taking action today

Born Again Bodies R. Marie Griffith, 2004-10-04 This is a wonderful

book well conceptualized written with style and wit and impressive for its ambition reach and achievement R Marie Griffith brings to the scene learning theoretical subtlety critical acumen historical skill and humane sensibility She has emerged as one of the most sophisticated and insightful scholars of the Christian body in any period of Christian history Robert Orsi Harvard University *Born Again Bodies* is extraordinary It uncovers an arena of knowledge never before looked at with this level of critical attention when examining American religious culture Griffith's strength is that she looks across the evangelical denominations Her work is elegant and truly original Sander L Gilman author of *Difference and Pathology* and *Jewish Frontiers* **Ziggurat** Peter Balakian, 2011-12 In his first book of poems since his highly acclaimed *June tree* Peter Balakian continues to define himself as one of the most distinctive voices of his generation Exploring history self and imagination as well as his ongoing concerns with catastrophe and trauma many of Balakian's new poems wrestle with the aftermath and reverberations of 9 11 Whether reliving the building of the World Trade Towers in the inventive forty three section poem that anchors the book walking the ruins of the Bosnian National Library in Sarajevo meditating on Andy Warhol's silk screens or considering the confluence of music language and memory Balakian continues his meditations on history as well as on the harshness and beauty of contemporary life that his readers have enjoyed over the years In sensual layered and sometimes elliptical language Balakian in *Ziggurat* explores absence war love and art in a new age of American uncertainty

The Evolution of Strategic Foresight Tuomo Kuosa, 2016-03-16 Embracing the theory and practice of strategic foresight and illuminating how different schools of thought regard its role in policy making Tuomo Kuosa describes how something not traditionally considered an independent discipline is steadily becoming one In *The Evolution of Strategic Foresight* he explains how the practice of strategic foresight has long been closely associated with the military and politics Linking strategic thinking more broadly to futurology however it is quite new Since strategic foresight refers to the practice of generating analyses of alternative futures and strategies based on available intelligence and foreknowledge the practice can and should be applied to companies business sectors national and trans national agencies of all descriptions and to all aspects of public policy making The author explains its practice in terms of structure process and knowledge domains and examines its methodologies and systems along with how strategic foresight can be used to produce better knowledge and be more effectively linked to policy making Using examples from 30 different countries and with access to interviews and workshops involving key experts *The Evolution of Strategic Foresight* will be valuable to scholars educators students engaged in strategy and future studies long range public policy and urban planners analysts risk assessment experts and consultants managers and decision makers in many organisations public and private **The Last Horizon** Floyd M. Orr, 2002-08 Everyone knows that women have always been the gatekeepers of sex in our society *The Last Horizon* presents the history psychological descriptions and sociological mores of this phenomenon from a perspective never before analyzed Introduce yourself to the controversial psychosocial theory of *The Class System* Consider yourself classified For women This

book will help you weed out the jerks jackasses gays and narcissists from the more desirable men you can see on your horizon Just use The Man Test to order one up to your specifications Your prescription man is waiting for you to find him For men Get a better understanding of the difficult modern culture in which you are expected to survive with little help from the current state of American leadership Learn what women really want in a man and how to speak and understand the exotic language of the modern American woman The Last Horizon offers you a new way to face the rest of your life The Class System offers a description of American society that you have encountered every day of your life but the explanation has remained invisible to your eyes until now You are being offered a detailed analysis of those elements of your personality and those of everyone around you These issues may have been affecting every decision you have made throughout your life Now you have the opportunity to better understand those choices

Inside Science Fiction James Gunn,2006-03-21 James Gunn has had a long and distinguished career in science fiction In addition to his stories and novels he has written extensively about the reading writing and criticism of science fiction Many of these essays were published in The Science of Science Fiction Writing Scarecrow 2002 A second collection of essays Inside Science Fiction was originally published in 1992 and is now available in this revised updated and expanded edition With the addition of five new articles written since 1992 Inside Science Fiction represents Gunn s latest thoughts about the genre The book is divided into four major sections that tackle various aspects of the genre Getting Inside Science Fiction in which Gunn discusses his relationship with the genre Science Fiction and the Teacher illustrates various approaches to teaching science fiction Science Fiction on Film and Television deals with the film industry s approaches to science fiction in particular Gunn s experiences of seeing his novel The Immortals turned into a made for television movie and subsequent series Science Fiction and the Real World examines the impact of science fiction on the world and what the future holds for the genre Inside Science Fiction offers a complete overview of science fiction for readers and viewers from an author reader and teacher who has seen it from all sides for more than seventy years

The Land Is Mine Andrew D. Berns,2022-04-12 After their expulsion from Spain in 1492 Sephardi Jews such as Isaac Abravanel Abraham Saba and Isaac Arama wrote biblical commentaries that stressed the significance of land They interpreted Judaism as a tradition whose best expression and ultimate fulfillment took place away from cities and in rural settings Iberian Jewish authors rooted their moral teachings in an ethical treatment of the natural world elucidating ancient agricultural laws and scrutinizing the physical context and built environments of Bible stories The Land Is Mine asks what inspired this and suggests that the answer lies not in timeless exegetical or theological trends but in the material realities of late medieval and early modern Iberia during a period of drastic changes in land use The book uses a highly traditional source base in a decidedly untraditional way In Jewish Studies Andrew D Berns observes biblical commentary is typically studied as an intramural activity Though scholars have conceded that Jewish scriptural exegesis welcomes material and ideas from other fields and traditions little to no work treats premodern Hebrew Bible commentary as also drawing upon

Classical and Christian sources as well as contemporary writings on land management and political economy Abrahavanel Saba and Arama were engaged with questions that had broad resonance during their lives the proper way to treat the land the best occupations to pursue and the ideal setting for human community Scriptural commentary was the forum in which they addressed these problems and posed solutions to them A work of intellectual history The Land Is Mine demonstrates that it is impossible to understand Jewish culture without considering the physical realities on which it depended **Bio#Futures** Emmanuel Koukios, Anna Sacio-Szymańska, 2021-05-06 This volume presents a timely recognition warning and mapping of the fast approaching wave or bio tsunami of global socio technical transformation built by a much wider spectrum of converging powers including biotechnology new agriculture novel foods health quality of life environment energy sustainability education knowledge management and design of smart applications The book contains eight sections corresponding to different clusters of bioeconomic and socio technical change as identified by the editors Scanning the Horizon foresight research it also offers an integrated view of the future bioeconomy landscape though the convergence of several technologies that affect everyday life The clusters offer methodologies for forecasting the future bioeconomy and how these predictions can affect target setting and the orientation of policies and actions to manage cultural and societal change and achieve sustainable development in less developed areas The book will be of interest to researchers producers logistics experts policy makers regulators business and financial institutions and biotechnologists e g geneticists food experts etc
