Prominent Visitors To The California Missions:

Prominent Visitors to the California Missions, 1786-1842 Francis J. Weber, 1991 Reports of 24 early visitors to the missions whose writings influenced later chroniclers and historians A Stroll by My Western Bookshelves Gordon J. Van de Water, 2009-04-03 Much experience and action much thought and reminiscence fill the pages of this volume Here are books about explorers frontiersmen mountaineers hunters rangers gold finders cowboys and tenderfeet novels and narratives by pioneer women books by friends and also fighters of Native Americans Often generously quoted they pulse with the life of the old West Albert R Vogeler Professor Emeritus California State University Fullerton You have the mantle of Henry Wagner Carl Wheat and Francis Farquhar on your shoulders You are to be commended for bringing to life so many of the books that are key to our heritage Gary F Kurutz Curator of Special Collections California State Library Women and the Conquest of California, 1542-1840 Virginia M. Bouvier, 2004-08 Studies of the Spanish conquest in the Americas traditionally have explained European Indian encounters in terms of such factors as geography timing and the charisma of individual conquistadores Yet by reconsidering this history from the perspective of gender roles and relations we see that gender ideology was a key ingredient in the glue that held the conquest together and in turn shaped indigenous behavior toward the conquerors This book tells the hidden story of women during the missionization of California It shows what it was like for women to live and work on that frontier and how race religion age and ethnicity shaped female experiences It explores the suppression of women's experiences and cultural resistance to domination and reveals the many codes of silence regarding the use of force at the missions the treatment of women indigenous ceremonies sexuality and dreams Virginia Bouvier has combed a vast array of sources including mission records journals of explorers and missionaries novels of chivalry and oral histories and has discovered that female participation in the colonization of California was greater and earlier than most historians have recognized Viewing the conquest through the prism of gender Bouvier gives new meaning to the settling of new lands and attempts to convert indigenous peoples By analyzing the participation of women both Hispanic and Indian in the maintenance of or resistance to the mission system Bouvier restores them to the narrative of the conquest colonization and evangelization of California And by bringing these voices into the chorus of history she creates new harmonies and dissonances that alter and enhance our understanding of both the experience and meaning of conquest *Historical Dictionary of the Discovery and Exploration of the Northwest Coast of America* Robin Inglis, 2008-04-02 The Northwest Coast of America ranging from northern California through Oregon Washington and British Columbia all the way up to Alaska was the last temperate coastline to be placed on the world map First visited by Russians in 1741 and thought to contain a navigable passage between the Pacific and the Atlantic it was systematically revealed during an intense period of exploratory and commercial activity from the 1770s to the 1790s Subsequently the imperial ambitions of Russia Spain and Britain and an assumption of manifest destiny by the United States led to further exploration and ensured that the region would become

disputed territory before national boundaries were determined in the mid 19th century The Historical Dictionary of the Discovery and Exploration of the Northwest Coast of America tells of the heroic endeavors and remarkable achievements the endless speculation about a northwest passage and the fighting and manipulation for commercial advantage that surrounded this terrain This is done through an introductory essay a detailed chronology an extensive bibliography modern maps and selected historical maps and drawings and over 400 cross referenced dictionary entries Entries cover the native people encountered the scientists and artists who left an invaluable documentary and visual record of people places flora and fauna the numerous voyages taken by men such as Vitus Bering James Cook Juan Francisco de la Bodega y Quadra and George Vancouver overland expeditions like those of Alexander Mackenzie Simon Fraser Meriwether Lewis and William Clark and David Thompson and maritime fur traders including George Dixon Grigorii Shelikhov Robert Gray and William Sturgis No other dictionary exists that is dedicated solely to the coverage of this region

Sites Unseen Dianne Harris,D. Fairchild Ruggles,2007-05-27 Sites Unseen challenges conventions for viewing and interpreting the landscape using visual theory to move beyond traditional practices of describing and classifying objects to explore notions of audience and context While other fields such as art history and geography have engaged poststructuralist theory to consider vision and representation the application of such inquiry to the natural or built environment has lagged behind This book by treating landscape as a spatial psychological and sensory encounter aims to bridge this gap opening a new dialogue for discussing the landscape outside the boundaries of current art criticism and theory As the contributors reveal the landscape is a widely adaptable medium that can be employed literally or metaphorically to convey personal or institutional ideologies Walls gates churchyards and arches become framing devices for a staged aesthetic experience or to suit a sociopolitical agenda The optic stimulation of signs symbols bodies and objects combines with physical acts of climbing and walking and sensory acts of touching smelling and hearing to evoke an overall vision of landscape Sites Unseen considers a variety of different perspectives including ancient Roman visions of landscape the framing techniques of a Moghul palace and a contemporary case study of Christo s The Gates as examples of human attempts to shape our sensory cognitive and emotional experiences in the landscape

Beyond the Devil's Road Jeremy Beer,2024-09-17 The explorations of Francisco Garce s an intrepid Franciscan friar of the eighteenth century led to the opening of the first overland route from Mexico to California produced new knowledge of unmapped terrain and unknown peoples and revived dreams of Spanish imperial expansion Beyond the Devil s Road tells for the first time the full story of this extraordinary man s epic life and journey and his critical place in the history of the American Southwest From the moment he took up residence at the lonely mission of San Xavier del Bac in 1768 Garce s stood out among his fellow Spaniards for both the affection he showed the region s Native peoples and his bravery Traveling thousands of miles through modern Arizona California and Nevada to gather information for his superiors and preach to the unbaptized he engaged the Indians of the Southwest with a respect for their ways and customs unprecedented

among his peers presaging a new and better model for cultural encounters Along the way he contacted more Indigenous groups than any other missionary of his time often as the first European to do so Garce s also paved the way and served as a guide for the famous expeditions of Juan Bautista de Anza in 1774 and 1775-76 bringing the first Spanish settlers to California before the road he d helped to open led to his death in the Quechan uprising of 1781 Consulting archives on three continents including previously untapped sources and Garce s s extensive diaries and letters long obscured by unyielding language and handwriting Beer crafts a nuanced and thoroughly engaging account of this incomparable explorer groundbreaking missionary and central actor in New Spain s final sustained effort to expand its dominion into the lands that would become the American Southwest
