Canon Constitution and Canon Change in Children's Literature Bettina Kümmerling-Meibauer, Anja Muller, 2016-12-01 This volume focuses on the de canonization processes in children's literature considering the construction and cultural historical changes of canons in different children's literatures Chapters by international experts in the field explore a wide range of different children's literatures from Great Britain Germany Scandinavia the Low Countries Eastern and Central Europe as well as from Non European countries such as Australia Israel and the United States Situating the inquiry within larger literary and cultural studies conversations about canonicity the contributors assess representative authors and works that have encountered changing fates in the course of canon history Particular emphasis is given to sociological canon theories which have so far been under represented in canon research in children's literature The volume therefore relates historical changes in the canon of children's literature not only to historical changes in concepts of childhood but to more encompassing political social economic cultural and ideological shifts This volume's comparative approach takes cognizance of the fact that if canon formation is an important cultural factor in nation building processes a comparative study is essential to assessing transnational processes in canon formation This book thus renders evident the structural similarities between patterns and strategies of canon formation emerging in different children's literatures

Imperialism and juvenile literature Jeffrey Richards, 2017-03-01 Popular culture is invariably a vehicle for the dominant ideas of its age Never was this truer than in the late nineteenth and early twentieth centuries when it reflected the nationalist and imperialist ideologies current throughout Europe It both reflects popular attitudes ideas and preconceptions and it generates support for selected views and opinions This book examines the various media through which nationalist ideas were conveyed in late Victorian and Edwardian times in the theatre ethnic shows juvenile literature education and the iconography of popular art It seeks to examine in detail the articulation and diffusion of imperialism in the field of juvenile literature by stressing its pervasiveness across boundaries of class nation and gender It analyses the production distribution and marketing of imperially charged juvenile fiction stressing the significance of the Victorians discovery of adolescence technological advance and educational reforms as the context of the great expansion of such literature An overview of the phenomenon of Robinson Crusoe follows tracing the process of its transformation into a classic text of imperialism and imperial masculinity for boys The imperial commitment took to the air in the form of the heroic airmen of inter war fiction The book highlights that athleticism imperialism and militarism become enmeshed at the public schools It also explores the promotion of imperialism and imperialist role models in fiction for girls particularly Girl Guide stories

Serialization, Commercialization and the Children's Classics Amy Webster, 2024-12-12 An exploration of the serialization of children s classics by contemporary publishers this book digs into the impact of the practice and provides new ways of reading the corpus of British children s literature from the 20th century Amy Webster demonstrates how publishers select texts for their series which texts they omit which outliers are sometimes included and how a core group of works from the golden age of children s literature emerged The text also examines how texts are abridged and transformed from publisher to publisher through close readings of *The Wind in the Willows* and *Alice s Adventures in Wonderland* and how the repackaging of works within a series highlight issues and choices tied to key paratextual elements Analysing data through distant reading and close reading of series from Ladybird Longman Puffin and Walker Illustrated editions this book sheds light on how modern classics series are marked by variation and instability but also a reductive homogeneity Through her use of quantitative and text focused research Webster reveals how commercial motivations have created a gulf between the canonical concepts of the classic and how the term functions as a marketing tool in British children s publishing With notions of what counts as a classic compromised and complicated this book leads the call for a critical approach towards both the term classic and to reading children s classics that acknowledges how they are tied to the commercial enterprises of the children s book business

British Children's Literature and the First World War David Budgen, 2018-05-17 Perceptions of the Great War have changed significantly since its outbreak and children s authors have continually attempted to engage with those changes explaining and interpreting the events of 1914 18 for young readers *British Children s Literature and the First World War* examines the role novels textbooks and story papers have played in

shaping and reflecting understandings of the conflict throughout the 20th century David Budgen focuses on representations of the conflict since its onset in 1914 ending with the centenary commemorations of 2014 From the works of Percy F Westerman and Angela Brazil to more recent tales by Michael Morpurgo and Pat Mills Budgen traces developments of understanding and raises important questions about the presentation of history to the young He considers such issues as the motivations of children s authors and whether modern children s books about the past are necessarily more accurate than those written by their forebears Why for example do modern writers tend to ignore the global aspects of the First World War Did detailed narratives of battles written during the war really convey the truth of the conflict Most importantly he considers whether works aimed at children can ever achieve anything more than a partial and skewed response to such complex and tumultuous events

Back in the Spaceship Again Karen Sands-O'Connor, Marietta Frank, 1999-08-30 Much literature for children appears in the form of series in which familiar characters appear in book after book In the late nineteenth and early twentieth century authors began to write science fiction series for children These early series generally had plots that revolved around inventions developed by the protagonist But it was the development and use of rocket and atomic science during World War II that paved the way for interesting and exciting new themes conflicts and plots While much has been written about the early juvenile science fiction series particularly the Tom Swift books comparatively little has been written about children s science fiction series published since 1945 This book provides a broad overview of this previously neglected topic The volume offers a critical look at the history themes characters settings and construction of post 1945 juvenile science fiction series including the A I Gang the Animorphs Commander Toad Danny Dunn Dragonfall Five the Magic School Bus and Space Cat The book begins with an introductory history of juvenile science fiction since 1945 with chapters then devoted to particular topics Some of these topics include the role of aliens and animals attitudes toward humor the absence and presence of science and the characterization of women A special feature is an appendix listing the various series In addition the volume provides extensive bibliographical information
