Race and Public Administration Amanda Rutherford, Kenneth Meier, 2020-02-24 Issues of race permeate virtually every corner of policy creation and implementation in the United States yet theoretically driven research on interactions of policy race and ethnicity rarely offers practical tools that can be readily applied by current and future civil servants private contractors or nonprofit boards Arguing that scholarship can and should inform practice to address issues of

equity in public affairs rather than overlook ignore or deny them Race and Public Administration offers a much needed and accessible exploration of current and cutting edge research on race and policy This book evaluates what contradictions unanswered questions and best or worst practices exist in conducting and understanding research that can provide evidence based policy and management guidance to practitioners in the field Individual chapters are written by established and emerging scholars and explore a wide range of policy areas including public education policing health and access to healthcare digital governance nonprofit diversity and international contexts Together the chapters serve as a link between theoretically informed research in public administration and those students and professionals trained to work in the trenches of public administration This book is ideally suited as a text for courses in schools of public administration public policy or nonprofit management and is required reading for those actively involved in policy analysis creation or evaluation Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Representative Bureaucracy and Performance Sergio Fernandez, 2019-11-22

Representative Bureaucracy and Performance Public Service Transformation in South Africa is a first rate blend of quantitative and qualitative analysis of one of the major transitions in modern governance Fernandez makes a major theoretical contribution to the literature on representative bureaucracy in demonstrating how descriptive representation translates into both active representation and better performance His discussion of the crucial role of language and communication brings new insight to the literature on public administration and democracy Kenneth Meier Distinguished Scholar in Residence American University This study of public sector transformation goes beyond the descriptive qualitative research largely found in South African public administration historiography by undertaking sophisticated quantitative analysis to show that representation of previously historically disadvantaged groups under certain circumstances can improve the performance of public organizations This is an excellent contribution not only to public administration scholarship in South Africa but also to the sparse literature on public organizations in developing countries The book should be of great value to scholars and practitioners of public administration as well as to students of political science and organizational studies Robert Cameron Professor University of Cape Town This book provides an excellent analysis of the theory of representative bureaucracy in the context of South African post apartheid government South Africa is an important and fascinating case The work adds substantially to the literature on representative bureaucracy and will be of interest to all who are concerned with the effectiveness of government organizations J Edward Kellough Professor University of Georgia

Governments throughout the world seek to promote employment equity and ensure that bureaucracies are representative of the citizenry South Africa offers a rare and fascinating case for exploring what happens to bureaucracies as they undergo demographic transformation Grounded in the theory of representative bureaucracy and using a mixed methods approach this book explores how major changes in the demographics of the South African public service have affected the performance of the institution The empirical analysis offers compelling evidence that representative bureaucracies perform better As public organizations become increasingly representative by hiring historically disadvantaged persons especially Africans their performance improves controlling for a range of factors Evidence indicates representative bureaucracies perform better because they empathize with and advocate for historically disadvantaged communities are equipped with linguistic and cultural competencies to serve a diverse citizenry and can induce compliance cooperation and coproduction *The American Experiment with Government Corporations* Jerry Mitchell, 2015-06-01 This assessment of government corporations examines their records and identifies advantages and failures The author challenges the reader to think creatively about the government corporate form and ways to reinvent it capitalizing on its strengths and compensating for its shortcomings

Downsizing the Federal Government Vernon D Jones, 2016-07-01 The main focus of downsizing has shifted from the private to the public sector The cutbacks began in the Department of Defense Now the goal is a federal civilian workforce reduction of 12 percent by the year 2000 This pioneering study looks at the management of workforce reductions in the public sector both in theory and in practice Three case studies of the Defense Logistics Agency the Bureau of Reclamation and the Food and Drug Administration illustrate the organizational managerial and human dimensions of attempting to improve performance with reduced resources The author draws on extensive interviews with senior executives and middle managers in the three agencies at the General Accounting Office the Office of Personnel Management and the National Performance Review the Senior Executives Association and the Federal Managers Association and scholars and researchers In a larger sense this work pushes the boundaries of knowledge concerning organizational change and makes a significant contribution to organization theory It offers important new insights not only for public sector managers but for organization theorists and management specialists whose work on downsizing has been presumed but not shown to be applicable to the public sector
