## **Promise The:**

*The Theme of Promise in the Epistle to the Hebrews* Daniel Stevens,2025-04-24 Daniel Stevens analyses the use of the language of divine commitment in the Epistle to the Hebrews arguing that the author distinguishes promise from the cultic language of covenant to sketch a unique mixture of continuity and discontinuity among the people of God across time Stevens stresses through an exegesis of relevant passages that rest is not the primary content of promise nor is it the primary lens through which the other instances of promise language should be understood suggesting instead that the promise is most closely associated with the benefits promised to Abraham and then mediated through the various subsequent covenants He further explores how the divine promise relates to both the Old and New Covenants arguing that Hebrews develops a view of salvation history in which covenants are founded upon promises and then bring those promises to fruition By demonstrating the ways in which this understanding of promise sheds light on the author s hermeneutic and on his method of achieving his hortatory purposes for the epistle Stevens concludes in a reassertion of the consistency of the author s thought regarding promise

Lightfoot,2009-08-01      **The Unity of the Common Law** Alan Brudner,2013-10-03 In this classic study Alan Brudner investigates the basic structure of the common law of transactions For decades that structure has been the subject of intense debate between formalists who say that transactional law is a private law for interacting parties and functionalists who say that it is a public law serving the collective ends of society Against both camps Brudner proposes a synthesis of formalism and functionalism in which private law is modified by a common good without being subservient to it Drawing on Hegel s legal philosophy the author exhibits this synthesis in each of transactional law s main divisions property contract unjust enrichment and tort Each is a whole composed of private law and public law parts that complement each other and the idea connecting the parts to each other is also latently present in each Moreover Brudner argues a single narrative thread connects the divisions of transactional law to each other Not a row of disconnected fields transactional law is rather a story about the realization in law of the agent s claim to be a dignified end master of its body its acquisitions and the shape of its life Transactional law s divisions are stages in the progress toward that goal each generating a potential developed by the next Thus contract law fulfils what is incompletely realized in property law negligence law what is germinal in contract law public insurance what is seminal in negligence law and transactional law as a whole what is underdeveloped in public insurance The end point is the limit of what a transactional law can contribute to a life sufficient for dignity Reconfigured and expanded with a contribution by Jennifer Nadler *The Unity of the Common Law* stands out among contemporary theories of private law in that it depicts private law as purposive without being instrumental and as autonomous without being emptily formal

*Reports of Cases Determined in the Circuit Court of the United States, for the Third Circuit, Comprising the Districts of Pennsylvania and New Jersey, Commencing at April Term, 1803* ,1852 The Pedagogical Contract Yun Lee Too,2000-07-13 The Pedagogical Contract explores the relationship between teacher and student and argues for ways of reconceiving pedagogy It discloses this relationship as one that since antiquity has been regarded as a scene of give and take where the teacher exchanges knowledge for some sort of payment by the student and where pedagogy always runs the risk of becoming a broken contract The book seeks to liberate teaching and learning from this historical scene and the anxieties that it engenders arguing that there are alternative ways of conceiving the economy underlying pedagogical activities Reading ancient material together with contemporary representations of teaching and learning Yun Lee Too shows that apart from being conceived as a scene of self interest in which a professional teacher or sophist is the charlatan who cheats his pupil pedagogy might also purport to be a disinterested process of socialization or a scene in which lack and neediness are redeemed through the realization that they are required precisely to stimulate the desire to learn The author also argues that pedagogy ideally ignores the imperative of the conventional marketplace for relevance utility and productivity inasmuch as teaching and learning most enrich a community when they disregard the immediate material concerns of the community The book will appeal to all those who understand scholarship as having an important social and or political role to play it will also be of interest to literary scholars literary and cultural theorists philosophers historians legal theorists feminists scholars of education sociologists and political theorists Yun Lee Too is Assistant Professor of Classics Columbia University She is the author of *Rethinking Sexual Harassment The Rhetoric of Identity in Socrates Text Power Pedagogy and The Idea of Ancient Literary Criticism* forthcoming and coeditor with Niall Livingstone of *Pedagogy and Power Rhetorics of Classical Learning*

**The Calvinistic Magazine** ,1849 *The Perspective of the Acting Person* Martin Rhonheimer,2008-02 The Perspective of the Acting Person introduces readers to one of the most important and provocative thinkers in contemporary moral philosophy In this collection of essays Martin Rhonheimer examines the central themes of natural law moral action and virtue

emphasized by John Paul II's 1993 encyclical *Veritatis Splendor*. Rhonheimer's work follows the general direction taken by the encyclical through an almost unprecedented rigor of philosophical argumentation and level of engagement with both European and American scholarship. Rhonheimer argues extensively from the texts of Aquinas against aspects of more traditional interpretations of the Angelic Doctor. He maintains that their deficiencies helped precipitate both the postconciliar crisis in moral theology and the rise of revisionist approaches. He addresses not only the central topics of natural law and moral action but also the reasonableness of Christian morality, the relation between nature and reason, and that between metaphysics and ethics. All are considered from the distinctively moral perspective of the agent. Rhonheimer also responds to critics of both *Veritatis Splendor* and his own work and critiques works by revisionist moral theologians. The collection focuses on Rhonheimer's fundamental ethical theory, establishing the theoretical bases for his more applied works in areas such as sexual ethics, political philosophy, social ethics, and medical ethics. A detailed introduction by William F. Murphy Jr. sketches Rhonheimer's intellectual biography and the development of his thought and summarizes key content from the essays. Finally, a detailed bibliography of Rhonheimer's work is included, which further enhances the volume's value to moral philosophers and theologians.

Martin Rhonheimer is professor of ethics and political philosophy at the Pontifical University of the Holy Cross in Rome. His publications include a dozen books, several of which have been translated into multiple languages. His *Natural Law and Practical Reason* was the first of his books to be made available in English. William F. Murphy Jr. is associate professor of moral theology at the Pontifical College Josephinum and editor of the *Josephinum Journal of Theology*.

**PRAISE FOR THE BOOK** The recent rediscovery of the perspective of the acting person is one of the most decisive advances for moral theology, which allows the resolution of many aporias of modern ethics. We should be thankful to William Murphy for this collection. Rhonheimer is a master and a necessary point of reference for rereading in this fresh and comprehensive perspective the Common Doctor of Catholic theology, St. Thomas Aquinas. Msgr. Livio Melina, President and Professor of Moral Theology, Pontifical John Paul II Institute for Studies on Marriage and Family, Rome. Murphy introduces Rhonheimer to Anglo-American ethicists by way of judicious samples of his work, astutely contextualized for ethicists of all persuasions. The key to the work lies in articulating a virtue-centered conception of morality from the first-person perspective of the acting person who perceives goods to be pursued and acts freely through reason and will. By reading Aristotle and Aquinas in critical engagement with prevailing ethical stances, underlying conundrums of ethics, classical and modern, emerge into clearer light. David B. Burrell, C.S.C., Hesburgh Professor Emeritus of Philosophy and Theology, University of Notre Dame. Rhonheimer has taken his place as one of the more significant moralists writing in the post-conciliar period. His reasoning, reflecting closely the rationale of the decisive paragraph 78 of *Veritatis Splendor*, avoids weaknesses that characterize both the neo-Thomistic manualists of the first half of the 20th century and more recent revisionists. Murphy has done a great service.
