## **Promise Of Nature:**

**The Promises of God, Considered in Their Nature, Source ... and Sanctifying Power, Etc** Enoch Cobb WINES,1868     Hope for the Earth Ernst M. Conradie,2005-05-18 Hope for the Earth explores the viability of an eschatological approach to an ecological theology spirituality and praxis in the South African context The basic intuition of such an eschatological approach is that an environmental praxis can only be empowered on the basis of an adequate understanding of Christian hope Despair in the face of environmental destruction will inevitably lead to a spirit of resignation Where then can a vision of hope that includes hope for the earth be found The author proposes a road map for eschatology based on the observation that eschatology has traditionally responded to three aspects of the human predicament namely 1 the evil effects of sin 2 the problem of finitude and transience and 3 the limitations of human power and knowledge in space Part A This analysis is used to fathom the depths of despair as a result of environmental destruction Part B The Biblical roots and subsequent history of Christian eschatology are discussed briefly Part C Recent contributions in Christian eschatology ecological theology cosmology and South African expressions of hope are explored in depth in search of a vision of hope that includes hope for the earth itself Part D The eschatological road map is used to develop a vision of hope for the earth on the basis of a theology of life life amidst death and destruction life beyond death and eternal life in the presence of God Part E Finally the implications of this vision for an ecological ethos spirituality and praxis in the South African context are indicated Part F     The Promise of Nature John F. Haught,2004-10-15 This new thought provoking work justifies the role of religion in shaping an ecological ethic and provides a foundation for discussion among those who are concerned with the state of the natural environment and who wonder how religion can contribute to the renewal of the Earth     The Rights of War and Peace, Including the Law of Nature and of Nations Hugo Grotius,2007-10-01 The Rights of War and Peace establishes a system of international law based on the concept of natural law Natural law as Grotius describes it is law that applies to all people regardless of country or nationality This law establishes concepts like justifiable war and natural justice Grotius discusses situations under which countries should go to war and then further explains the proper way in which wars should be prosecuted There are he says certain rules in warfare that must be observed regardless of whether the parties involved have signed any specific agreement to do so Philosophy and law students as well as those with an interest in international politics will be amazed at how modern many of Grotius s ideas seem and intrigued by this foray into international law that still has repercussions in the world today HUGO GROTIUS 1583 1645 was born in the city of Delft in the Dutch Republic Astoundingly intelligent he entered the University of Leiden at age eleven and graduated at age fifteen He was a philosopher and Christian apologist now remembered for his work in establishing a philosophical basis for international law     **Nature's Whispers: Celtic Poems for the Soul** Pasquale De Marco,2025-07-24 Nature s Whispers Celtic Poems for the Soul is a captivating journey through the beauty wisdom and enchantment of the natural world Inspired by the ancient Celtic tradition
