Promise Of Rest Price Reynolds Great Circle:

The Promise of Rest Reynolds Price, 2010-06-15 In this stunning and fully independent conclusion to *A Great Circle* Reynolds Price tells the complex moving story of a man's return home to die of AIDS and of the unexpected effect that his arrival and his death has on his family Wade Mayfield's parents are separated but for the remaining months of his life they and their friends come together to care for Wade with the love they can muster They are unprepared however for the astonishing mystery Wade has prepared to reveal once he is gone a mystery that initiates the possible reunion of his parents and promises to continue the proud traditions of a complex multiracial family *A Great Circle* Reynolds Price, 2001-10-02 Here in a single volume for the first time is the trilogy of novels in which Reynolds Price traces the paths of two families the Mayfields and the Kendals through nearly two centuries of American history the oldest character is born in 1815 the youngest in 1985 Though their aims and wanderings carry some of them to distant states and as far afield as Europe both families are rooted in North Carolina and Virginia and their eventually joined lives are enhanced and deeply shadowed by the racial complexities of their world No other narrative has portrayed that entanglement nor the gifts and ravages of sexual hunger and family life more honestly and compellingly than *A Great Circle* The narrative energy of the trilogy arises however simply from the dozens of men women and children whose memorable contentments failures and sacrifices weave a story that is as persuasive as any human drama It is also the secret history of a nation in crisis from the becalmed aftermath of the Civil War through the Great Depression and the wars of the twentieth century to the struggles for racial and sexual equality the devastations of the AIDS plague the poised hopes of the third millennium and a great deal more In the final richness of its texture it offers the joy implicit in all steady views of the world The critic Michael Kreyling has said Trilogies produced by American novelists in the twentieth century can scarcely match *A Great Circle*'s sweep and finesse Any reader in search of the ancient pleasures of wit and laughter tragedy and recompense and the healing surprises of pattern and harmony inherent in the broader reaches of narrative will find plentiful reward in a story which literally answers to all the meanings of the old word saga This combined edition contains a new preface by the author a family tree and an annotated list of major characters

Intellectual in Twentieth-Century Southern Literature Tara Powell, 2012-01-09 Never in its long history has the South provided an entirely comfortable home for the intellectual In this thought provoking contribution to the field of southern studies Tara Powell considers the evolving ways that major post World War II southern writers have portrayed intellectuals from Flannery O'Connor's ironic view of interlochers to Gail Godwin's southerners striving to feel at home in the academic world Although Walker Percy like his fellow Catholic writer O'Connor explicitly rejected the intellectual label for himself he nonetheless introduced the modern novel of ideas to southern letters Powell shows by placing sympathetic non-caricatured intellectuals at the center of his influential works North Carolinians Doris Betts and her student Tim McLaurin made their living teaching literature and creative writing in academia and Betts's fiction often includes dislocated academics while McLaurin's superb memoirs often funny frequently point up the limitations of the mind as opposed to the heart and the spirit Examining works by Ernest Gaines Alice Walker and Randall Kenan Powell traces the evolution of the black American literacy narrative from a stress on the post Emancipation conviction which saw formal education as an essential means of resisting oppression to the growing suspicion in the post civil rights era of literacy acts that may estrange educated blacks from the larger black community Powell concludes with Godwin who embraces university life in her fiction as she explores what it means to be a southern female intellectual in the modern world a world in which all those markers inscribe isolation

A Whole New Life Reynolds Price, 2000 Reynolds Price has long been one of America's most acclaimed and accomplished men of letters the author of novels stories poems essays plays and a memoir In *A Whole New Life* however he steps from behind that roster of achievements to present us with a more personal story a narrative as intimate and compelling as any work of the imagination In 1984 a large cancer was discovered in his spinal cord The tumor was pencil thick and gray colored ten inches long from my neck hair downward Here for the first time Price recounts without self-pity what became a long struggle to withstand and recover from this appalling if all too common affliction one American in three will experience some form of cancer He charts the first puzzling symptoms the urgent surgery that fails to remove the growth and the radiation

that temporarily arrests it but hurries his loss of control of his lower body the occasionally comic trials of rehab the steady rise of severe pain and reliance on drugs two further radical surgeries the sustaining force of a certain religious vision an eventual discovery of help from biofeedback and hypnosis and the miraculous return of his powers as a writer in a new active life Beyond the particulars of pain and mortal illness larger concerns surface here a determination to get on with the human interaction that is so much a part of this writer's much loved work the gratitude he feels toward kin and friends and some though by no means all doctors the return to his prolific work and the now appalling now astonishing grace of God A Whole New Life offers more than the portrait of one brave person in tribulation it offers honest insight realistic encouragement and inspiration to others who suffer the bafflement of catastrophic illness or who know someone who does or will

necessary to the ideal life has been a distinguishing feature of the state's literature. In this first full-length study of North Carolina's contemporary fiction, Hovis examines the work of six representative writers from the state's three geographic regions: Lee Smith and Fred Chappell from the mountains; Doris Betts and Clyde Edgerton from the Piedmont; and Reynolds Price and Randall Kenan from the coastal plain. The work of these six writers is explored within the broader southern literary tradition with attention to how they have revised such modes as pastoral, family saga, and southwestern humor in order to portray their own regional experiences. Although these writers celebrate the egalitarianism at the heart of the yeoman ideal, they also expose the forms of racism, sexism, and classism that have also marked the state's history. *American Novelists Since World War II*. James Richard Giles, Wanda H. Giles, 2003. Contains biographical sketches of writers who either began writing novels after 1945 or have done their most important work since then. *Gay Men in Modern Southern Literature*. William Mark Poteet, 2006. The concept of masculinity has had a profound influence on modern gay-written and gay-themed American Southern literature. Much of the fiction and drama of three important contemporary writers, Tennessee Williams, Charles Nelson, and Reynolds Price, has been shaped by the cultural dynamics of the Southern tradition of codified definitions and parameters of masculinity. This regional approach to literature also serves as critically protective, maintaining its focus in an effort to avoid essentializing experience and identity. *Gay Men in Modern Southern Literature* will be a valuable asset in the study of gender construction, literary theory, and modern American Southern writing. Publisher's website. **The Cambridge History of American Literature: Volume 7, Prose Writing, 1940-1990**. Sacvan Bercovitch, Cyrus R. K. Patell, 1994. Volume VII of the *Cambridge History of American Literature* examines a broad range of American literature of the past half century, revealing complex relations to changes in society. Christopher Bigsby discusses American dramatists from Tennessee Williams to August Wilson, showing how innovations in theatre anticipated a world of emerging countercultures and provided America with an alternative view of contemporary life. Morris Dickstein describes the condition of rebellion in fiction from 1940 to 1970, linking writers as diverse as James Baldwin and John Updike. John Burt examines writers of the American South, describing the tensions between modernization and continued entanglements with the past. Wendy Steiner examines the postmodern fictions since 1970 and shows how the questioning of artistic assumptions has broadened the canon of American literature. Finally, Cyrus Patell highlights the voices of Native American, Asian American, Chicano, gay, and lesbian writers, often marginalized but here discussed within and against a broad set of national traditions.
