Promises And Lies:

Promises and Lies, Ub40 (cd). Ub40*, Revelations of a Human Space Navigator. Second Edition Victor Senchenko, 2011 Revelations of a Human Space Navigator provides explanations of who and what humans actually are and why they behave as they do as well as explaining from what everything is physically made of and why the physical behavior of all this physical existence makes it impossible for time and gods to physically exist **Lies and Liars** Gini Graham Scott, 2016-03-01 Approximately 12 million Americans or one in twenty five are sociopaths But what does this statistic mean What exactly is a sociopath What do they do to be labeled as such And how many people are affected by them While everyday lying has become acceptable and even socially necessary it is often difficult to discover when someone is manipulating you through lies or other actions Since a sociopath has no conscience he or she feels no remorse about piling lie on top of lie until eventually the facade comes crashing down and he or she is exposed When Dr Scott was warned about a film producer she had hired she confronted the woman only to be fed explanations and excuses Eventually Scott found that she had been the victim of this sociopath for five years along with many others In this book she delves into medical research on sociopaths as well as interviews with sociopaths and victims alike to provide a comprehensive picture of this mental disorder Lies and Liars also includes information about The types of lies told by sociopaths in different situations The relationships between sociopaths and victims Recognizing when someone is lying How to deal with a suspected or discovered sociopathic liar The odds are very high that you know a sociopath already so figure out what signs to look for to prevent yourself or your loved ones being manipulated or harmed *Existence: what it is and what we think it is* Victor Senchenko, 2017-01-31 Existence what it is and what we think it is engages logic and rational to expose and explain the defects of human opinions and beliefs that came into existence from human imagination rather than any precise irrefutable knowledge including that of knowing exactly what makes humans human and knowing why everything that physically surrounds them on Earth and beyond always behaves within the states of physical reality and never any unreality Yet despite the seemingly overall human acceptance that physical existence on Earth and beyond constitutes physical reality even the slightest examination of human notions and beliefs including those accepted by science shows just how much these notions and beliefs endorse and uphold physical unreality The reason for such widespread acceptance of unreality amongst humans is due to their preference to believe the lies of those who advocate for their own selfish reasons that everything is possible and that the security of all humanity can be assured by means of belief in intangible entities of gods multi dimensions and time It may appear improbable that the intentions of Existence what it is and what we think it is to dismantle any of the erroneous notions and self deceptions has much chance of success considering how ingrained these beliefs are in human self awareness Still it is possible that the disclosures and explanations provided in the book may lead some readers to realize that the future of mankind depends not on the usual attitudes of selfish wants and desires but on unrestricted understanding of physical reality with all its limitations

which can teach humanity to carefully manage not just its future existence but that of all other inhabitants on Earth in its care Essays on the Principles of Morality, and on the Private and Political Rights and Obligations of Mankind Jonathan Dymond,1880 **The Westminster Review** ,1835 *Essays on the Principles of Morality & on the Private & Political Rights & Obligations of Mankind* Jonathan Dymond,1854 **Essays on the principles of morality, and on the private and political rights and obligations of mankind ...
