Promises On Prior Obligations At Common Law:

Promises on Prior Obligations at Common Law Kevin M. Teeven, 1998-08-27 An historical analysis of the development and reform of the law of prior obligations as expressed in preexisting duty rule and past consideration rule Teeven's principal focus is on the judicial rationalization of common law reforms to partially remove the bar to enforcement of promises grounded in the past This study traces American deviations from English common law doctrine over the past two centuries in developing theories to overcome traditional impediments to recovery presented by the law of prior obligations It also explores ideas for further reforms found buried in past case law The growing unease with both the dashing of legitimate consensual expectations and the perceived unfairness to naive ill informed and otherwise disadvantaged parties served as the impetus for liberalization of the exclusive contract bargain test The resultant reforms adhered to the modern realist emphasis on fairness The expansion of contractual liability to include promises looking to the past encompasses some of the most important reforms of the consideration contract since its genesis As a consequence contractual liability can no longer be defined solely in terms of bargain consideration since contract law now includes a broader range of promissory liability

Calculating Promises Roy Kreitner, 2006-12-08 This book is a history of American contract law around the turn of the twentieth century It meticulously details shifts in our conception of contract by juxtaposing scholarly accounts of contract with case law and shows how the cases exhibit conflicts for which scholarship offers just one of many possible answers Breaking with conventional wisdom the author argues that our current understanding of contract is not the outgrowth of gradual refinements of a centuries old idea Rather contract as we now know it was shaped by a revolution in private law undertaken toward the end of the nineteenth century when legal scholars established calculating promisors as the centerpiece of their notion of contract The author maintains that the revolution in contract thinking is best understood in a frame of reference wider than the rules governing the formation and enforcement of contracts That frame of reference is a cultural negotiation over the nature of the individual subject and the role of the individual in a society undergoing transformation Areas of central concern include the enforceability of promises to make gifts the relationship of contracts to speculation and gambling and the problem of incomplete contracts

Contract as Promise Charles Fried, 2015 *Contract as Promise* is a study of the foundations and structure of contract law It has both theoretical and pedagogic purposes It moves from trust to promise to the nuts and bolts of contract law The author shows that contract law has an underlying unifying moral and practical structure This second edition retains the original text and includes a new Preface It also includes a lengthy postscript that takes account of scholarly and practical developments in the field over the last thirty years especially the large and rich law and economics literature

The Enforceability of Promises in European Contract Law James Gordley, 2001-07-12 Civil law and common law systems are held to enforce promises differently civil law in principle will enforce any promise while common law will enforce only those with consideration In that respect modern civil law

supposedly differs from the Roman law from which it descended where a promise was enforced depending on the type of contract the parties had made This 2001 volume is concerned with the extent to which these characterizations are true and how these and other differences affect the enforceability of promises Beginning with a concise history of these distinctions the volume then considers how twelve European legal systems would deal with fifteen concrete situations Finally a comparative section considers why legal systems enforce certain promises and not others and what promises should be enforced This is the second completed project of The Common Core of European Private Law launched at the University of Trento **Lloyd's Maritime and Commercial Law Quarterly** Lloyd's (Firm),2004 The Central Law Journal ,1883 Vols 65 96 include Central law journal s international law list **The Law of Contract 1670-1870** Warren Swain,2015-02-12 This book considers the development of contract law doctrine in England from 1670 to 1870 **Commentaries on American Law** James Kent,1844 **Commentaries on American Law ...
