Promoting Health In Old Age Critical Issues In Self Health Care:

Promoting Health in Old Age Miriam Bernard,2000 Self care is crucial to the maintenance of well being yet it has often been neglected when considering later life This book explores the theory extent and practice of self health care in later life

Critical Issues in Social Work With Older People Mo G. Ray,Miriam Bernard,Judith Phillips,2018-06-26 This timely text highlights the importance of informed and critical practice in social work with older people With an emphasis on reflection throughout it argues for the need to rethink how social workers support some of the most vulnerable people in society The text begins with an exploration of the relationship between gerontology the study of aging and social work and demonstrates that a gerontological approach has long been missing from social work practice The central chapters consider key issues affecting older people and social work practice such as Risk of poverty Memory loss and dementia Palliative and end of life care Loss and bereavement Moving into a care home Bringing together theoretical and research insights this agenda setting text provides a sound base for creative practice with older people All those looking to make a positive and discernible difference to older people will find this text rewarding reading

[Social Work and Health Care in an Aging Society](#) Barbara Berkman,Linda Harootyan,2003-06-01 This book places significant issues related to the health mental health and well being of older adults and their caregivers within the context of social work service delivery By presenting the research of social work scholars all experts in specific research areas the editors clarify the value that social work brings to the larger realm of health care for older adults and their families Special consideration is given to such issues as case management urban African American elders grandmothers raising grandchildren aging persons with developmental disabilities home health care and more For Further Information on Dr Berkman Please Click Here

EBOOK: Older People And Community Care Beverly Hughes,1995-09-16 Older People and Community Care sets social and health care practice with older people firmly in the context of the new community care arrangements and the consequent organizational trends towards a market culture However it also questions the relative lack of attention given by professionals to issues of structural inequality in old age compared for example to race and gender Thus the book tackles a double agenda How can community care practice be suffused with anti ageist values and principles Addressing this question the book sets out the foundation knowledge and values which must underpin the development of anti discriminatory community care practice and examines the implications for practitioners in terms of the essential skills and inherent dilemmas which arise Older People and Community Care is essential reading for all those working with and managing services to older people and who aspire to make empowerment for older people a reality

International Encyclopedia of Adult Education L. English,2016-04-30 The Encyclopedia of Adult Education is the first comprehensive reference work in this important and fast growing field and is an invaluable resource for adult educators who research and teach in the fields of higher education work in community based settings or practise in public or private organizations Its 170 articles written by an international team of contributors from

over 17 countries detail the research and practice of the field from its emergence as a separate discipline to the present day covering key concepts issues and individuals and providing a cutting edge summary of ongoing debates across a wide range of perspectives from self directed learning to human resource development Entries are arranged A Z and extensive cross referenced with detailed bibliographies for each topic to facilitate further research **The Complete Guide to Teaching Exercise to Special Populations** Morc Coulson,2011-12-06 In the tried and trusted Complete Guide format this book is a vital resource for fitness professionals who prescribe exercise to people categorised as belonging to a special group Covers the condition diagnosis treatment and practical tips for designing activity programmes around their needs **Women Ageing** Miriam Bernard,Val Harding Davies,Linda Machin,Judith Phillips,2005-06-22 Women Ageing provides a better understanding of what ageing is like for women and challenges the myths which have grown up around the ageing process Blending the scholarly the personal and the political it reveals the range of strategies and identities women adopt to manage the transitions of the second half of the life course In doing so it uncovers not only the commonalities and the similarities between mid life and older women but also some of the variation and diversity relating to ethnicity and race class disability and sexual orientation Women Ageing makes the ordinary lives of ordinary women as in this instance they grow older more visible Its findings have important implications for policy and practice All those studying or working with older people will find it an illuminating text **Health Care Ethics** Eileen E. Morrison,Rachel Ellison,2025-01-21 Health Care Ethics Critical Issues for the 21st Century is built around the four central themes of healthcare ethics theoretical foundations issues for individuals issues for organizations and issues for society The text brings together the insights of a diverse panel of leading experts from the fields of bioethics long term care and health administration among others and a comprehensive update of the ethics of pandemics **Social Work Practice for Promoting Health and Wellbeing** Liz Beddoe,Jane Maidment,2013-12-17 Promoting health and wellbeing is an essential part of all effective social work not just for practice in healthcare settings In fact the IFSW holds that social workers in all settings are engaged in health work and physical and mental resilience can make a major difference to all service users lives Drawing on international literature and research the authors collected here encourage thinking about the social political cultural emotional spiritual economic and spatial aspects of health and wellbeing and how they impact on the unique strengths and challenges of working with particular populations and communities Divided into three parts the first section outlines the major theoretical paradigms and critical debates around social work and ideas of wellbeing globalisation risk and vulnerability and the natural environment The second part goes on to explore how diverse understandings of culture identity spirituality and health require different strategies for meeting health and wellbeing needs The final part presents a variety of examples of social work research in relation to health and wellbeing with specific populations including mental health Exploring how structural inequality oppression and stigma can impact upon people and drawing upon a social model of health this book is an important read for all practitioners and

researchers interested in social work public health and social inclusion Citizenship: Feminist Perspectives Ruth Lister, 2017-03-14 The second edition of this classic text substantially revises and extends the original so as to take account of theoretical and policy developments and to enhance its international scope Drawing on a range of disciplines and literatures the book provides an unusually broad account of citizenship It recasts traditional thinking about the concept so as to pinpoint important theoretical issues and their political and policy implications for women in their diversity Themes of inclusion and exclusion at national and international level rights and participation inequality and difference are thus all brought to the fore in the development of a woman friendly gender inclusive theory and praxis of citizenship Health Promotion For People With Intellectual And Developmental Disabilities Taggart, Laurence, Cousins, Wendy, 2014-01-01 This book offers a wide range of health and social care professionals the knowledge and strategies to address key issues enabling and empowering individuals with intellectual disabilities to enjoy healthier lives Twenty Years of China's Ageing Society: Achievements, Challenges, and Prospects Peng Du, Journal of Human Services Abstracts , 1984 **Critical Issues for the Development of Sustainable E-health Solutions** Nilmini Wickramasinghe, Rajeev Bali, Reima Suomi, Stefan Kirn, 2011-11-23 Pervasive healthcare is an emerging research discipline focusing on the development and application of pervasive and ubiquitous computing technology for healthcare and wellness Pervasive healthcare seeks to respond to a variety of pressures on healthcare systems including the increased incidence of life style related and chronic diseases emerging consumerism in healthcare need for empowering patients and relatives for self care and management of their health and need to provide seamless access for healthcare services independent of time and place Pervasive healthcare may be defined from two perspectives First it is the development and application of pervasive computing or ubiquitous computing ambient intelligence technologies for healthcare health and wellness management Second it seeks to make healthcare available to anyone anytime and anywhere by removing locational time and other restraints while increasing both the coverage and quality of healthcare This book proposes to define the emerging area of pervasive health and introduce key management principles most especially knowledge management its tools techniques and technologies In addition the book takes a socio technical patient centric approach which serves to emphasize the importance of a key triumvirate in healthcare management namely the focus on people process and technology Last but not least the book discusses in detail a specific example of pervasive health namely the potential use of a wireless technology solution in the monitoring of diabetic patients

Public Health in the Context of Life-Limiting Illnesses: Patient-Centered Care in Advanced and Life-Limiting Illnesses Mevhibe Hocaoglu, Richard John Siegert, Rebecca Jarden, Margaret Sandham, Irene Higginson, 2024-08-01 It is estimated that at least 60% of persons dying have a prolonged advanced illness The need for palliative and end of life care will increase due to the rapidly aging world population and the increase of multiple long term conditions For these reasons palliative care is an integral part of public health and public health strategies Palliative care as holistic person centered care

and has played a critical role in the recent public health emergency of the COVID 19 pandemic There is a close association between public health health promotion and palliative care and this research topic will highlight this association Through a series of multi disciplinary articles we will explore public health in the context of life limiting illnesses contributing to shaping person centered care including palliative end of life and rehabilitation This research topic will discuss advanced and life limiting illness as a public health challenge and explore the role of palliative and end of life care including rehabilitation in shaping person centered care *Psychiatric and Mental Health Nursing* Ruth Elder,Katie Evans,Debra

Nizette,2008-11-07 This new edition focuses on practice in mental health and psychiatric care integrating theory and the realities of practice Mental wellness is featured as a concept and the consideration of a range of psychosocial factors helps students contextualise mental illness and psychiatric disorders *Nursing for Public Health: Promotion, Principles and Practice* Paul Linsley,Roslyn Kane,Sara Owen,2011-02-17 Nursing for Public Health reflects the growing need for all nurses to promote the health of patients as well as treating illnesses This textbook examines core policies theories and models of public health alongside nursing skills and interventions for health issues such as obesity smoking and sexual health **The**

Collective Spirit of Aging Across Cultures Halaevalu F.Ofahengaue Vakalahi,Gaynell M. Simpson,Nancy Giunta,2014-01-28 The collective inclusive and intersectional framework used in this book speaks to the significance of understanding aging across diverse cultures from multiple perspectives but still as a shared human experience The underlying message of the book is that although we are unique and different in our aging processes we are ultimately connected through this physical mental and spiritual experience of aging Thus regardless of whether we are service providers service recipients educators or merely fellow human beings it is important that we approach the aging experience through a collective lens for discovering and sharing resources as we age honoring the past while simultaneously accepting that the future is here A few select examples of key findings from this collaborative work are as follows First despite progress in the field certain issues remain to be addressed including the challenges of racism and sexism mistreatment the digital divide poverty and other social and economic crises in urban and rural communities as they relate to our aging population Second the need for sustaining a sense of independence among the aged and interdependence among supportive systems is warranted Third our elders continue to benefit from culturally competent services community based health interventions and social services that addresses normative and emerging challenges for them Fourth spirituality in both indigenous and contemporary perspectives remains important for our elders development and quality of life Aging Harry R.

Moody,Jennifer R. Sasser,2017-01-12 Presenting current research in an innovative text reader format *Aging Concepts and Controversies* Ninth Edition encourages students to become involved and take an informed stand on the major aging issues we face as a society Not simply a summary of research literature Harry R Moody and Jennifer R Sasser s text focuses on controversies and questions rather than on assimilating facts or arriving at a single correct view about aging and older

people Drawing on their extensive expertise the authors first provide an overview of aging in three domains aging over the life course health care and the socioeconomic aspects of aging Each section is followed by a series of edited readings offering different perspectives from experts and specialists on that subject New readings focus on whether current federal spending on the elderly is sustainable and fair to other groups how older consumers are reshaping the business landscape and the challenges of marketing and selling to customers 60 and over More emphasis is placed on how social class and inequality earlier in life can shape our final years and the number of older Americans living in poverty The section on Aging and Health Care has been thoroughly updated to reflect the latest data about chronic diseases that affect the elderly government spending on health care and policy changes to programs like Medicaid and Medicare The section on the Social and Economic Outlook for an Aging Society gives the most current picture of the racial and ethnic diversity of older Americans their participation in the labor force and their income and wealth

Exercise Medicine for the Frailty Syndrome Tommy Boone, 2022-09-30 Frailty is a clinical syndrome caused by multiple chronic conditions that makes it difficult to maintain homeostasis In part it is the result of the body's inability to regulate normal inflammatory responses that lead to muscle loss decrease in strength and independence Regular exercise helps to optimize physiological performance It is a profound influence especially in the presence of physical inactivity where the lack of exercise leads to poor health and decreased longevity Unfortunately a high percentage of Americans fail to engage in daily exercise with the older population becoming increasingly frail which is a syndrome characterized by declines in musculoskeletal and physiologic reserve and function It has been documented that exercise is medicine and can be better than the effects induced by drugs Exercise physiologists are healthcare professionals They are key professionals in developing and applying an exercise medicine prescription for frail adults Exercise Medicine for the Frailty Syndrome speaks to the benefits of exercise medicine as the best therapy to prevent or reverse the age related muscle loss and functional deficits that are predictive of an increase in falls hospitalization institutionalization and mortality This book is a proactive step to help increase the functional independence of older frail adults It highlights Board Certification by the American Society of Exercise Physiologists as the professional qualification to improve society's understanding of the biological treatment and complexity of the frailty syndrome and is key reading for Exercise Physiologists

Promoting Health In Old Age Critical Issues In Self Health Care Book Review: Unveiling the Magic of Language

In a digital era where connections and knowledge reign supreme, the enchanting power of language has been apparent than ever.
