## **Promoting Risk:**

Promoting Risk Robert A. Stallings, 1995-01-01 According to Stallings the earthquake threat has failed to achieve the status of a fully constructed social problem owing to the nature of the resources available to risk promoters and the strategy and tactics they have used to promote the risk of earthquakes The results of his examination of a partially constructed social problem will prove useful not only to those exploring the dynamics of the social problems process but also to those who study risk public policy making and environmental issues where risk is involved **Promoting Health** Institute of Medicine, Division of Health Promotion and Disease Prevention, Committee on Capitalizing on Social Science and Behavioral Research to Improve the Public's Health, 2000-02-01 At the dawn of the twenty first century Americans enjoyed better overall health than at any other time in the nation's history Rapid advancements in medical technologies breakthroughs in understanding the genetic underpinnings of health and ill health improvements in the effectiveness and variety of pharmaceuticals and other developments in biomedical research have helped develop cures for many illnesses and improve the lives of those with chronic diseases By itself however biomedical research cannot address the most significant challenges to improving public health Approximately half of all causes of mortality in the United States are linked to social and behavioral factors such as smoking diet alcohol use sedentary lifestyle and accidents Yet less than five percent of the money spent annually on U S health care is devoted to reducing the risks of these preventable conditions Behavioral and social interventions offer great promise but as yet their potential has been relatively poorly tapped Promoting Health identifies those promising areas of social science and behavioral research that may address public health needs It includes 12 papers commissioned from some of the nation's leading experts that review these issues in detail and serves to assess whether the knowledge base of social and behavioral interventions has been useful or could be useful in the development of broader public health interventions *Risk and Reason* Cass R. Sunstein, 2002 Publisher Description Enterprise Risk Management James Lam, 2003-05-30 Enterprise risk management is a complex yet critical issue that all companies must deal with as they head into the twenty first century It empowers you to balance risks with rewards as well as people with processes But to master the numerous aspects of enterprise risk management you must first realize that this approach is not only driven by sound theory but also by sound practice No one knows this better than risk management expert James Lam In *Enterprise Risk Management From Incentives to Controls* Lam distills twenty years worth of experience in this field to give you a clear understanding of both the art and science of enterprise risk management Organized into four comprehensive sections Enterprise Risk Management offers in depth insights practical advice and real world case studies that explore every aspect of this important field Section I Risk Management in Context lays a solid foundation for understanding the role of enterprise risk management in today's business environment Section II The Enterprise Risk Management Framework offers an executive education on the business rationale for integrating risk management processes Section III Risk Management

Applications discusses the applications of risk management in two dimensions functions and industries Section IV A Look to the Future rounds out this comprehensive discussion of enterprise risk management by examining emerging topics in risk management with respect to people and technology JAMES LAM is President of James Lam Associates an independent risk advisory firm Before starting his own firm Lam was founder and president of ERisk and partner of Oliver Wyman Company In 1997 as chief risk officer at Fidelity Investments he was named the first ever Financial Risk Manager of the Year by the Global Association of Risk Professionals Prior to Fidelity he was chief risk officer of Capital Markets Services Inc a GE Capital Company Lam graduated with honors from Baruch College and received his MBA from UCLA He is also currently an Adjunct Professor of Finance at Babson College

**The Unseen Risk: Government as the Guarantor of Stability** Pasquale De Marco, 2025-07-14 In an era of unprecedented uncertainty governments are called upon to play an increasingly critical role as risk managers This book provides a comprehensive exploration of the strategies tools and challenges involved in government risk management offering valuable insights for policymakers practitioners and citizens alike Drawing on a wealth of historical and contemporary examples the book delves into the complexities of government risk management examining how governments have responded to crises ranging from economic downturns to natural disasters It analyzes the unique tools at the disposal of governments from taxation and regulation to public goods and services and explores the challenges they face in predicting and measuring risks addressing moral hazard and navigating political constraints Through a series of in depth case studies the book dissects government responses to major crises extracting valuable lessons from successes and failures It examines the aftermath of Hurricane Katrina the Global Financial Crisis and the COVID 19 pandemic among others providing a nuanced understanding of how governments can better prepare for and respond to future threats Looking ahead the book explores the emerging risks and challenges that governments will face in the years to come from climate change to technological disruptions It emphasizes the importance of embracing technological advancements fostering public engagement and strengthening international cooperation to effectively manage these risks Ultimately this book serves as a call to action for governments to recognize and embrace their vital role in safeguarding societies from a wide range of threats It argues that investing in preparedness promoting resilience and fostering collaboration are essential for building a more secure and prosperous future If you like this book write a review

**Shared Decision-making in Health Care** Glyn Elwyn, Adrian Edwards, Rachel Thompson, 2016 Over the past decade health care systems around the world have placed increasing importance on the relationship between patient choice and clinical decision making In the years since the publication of the second edition of Shared Decision Making in Health Care there have been significant new developments in the field most notably in the US where Obamacare puts shared decision making SDM at the centre of the 2009 Affordable Care Act This new edition explores shared decision making by examining from practical and theoretical perspectives what should comprise an effective decision making process It also looks at the benefits and potential

difficulties that arise when patients and clinicians share health care decisions Written by leading experts from around the world and utilizing high quality evidence the book provides an up to date reference with real word context to the topics discussed and in depth coverage of the practicalities of implementing and teaching SDM The breadth of information in Shared Decision Making in Health Care makes it the definitive source of expert knowledge for healthcare policy makers As health care systems adapt to increasingly collaborative patient clinician care frameworks this will also prove a useful guide to SDM for clinicians of all disciplines

*Social Problems* Donileen R. Loseke, Joel Best, 2017 This collection of focused essays is directed at several levels of students of social problems It is accessible to the uninitiated who are not familiar with the constructionist literature and aimed at those who are not particularly interested in subtle theoretical and empirical issues of concern to academics studying social problems from constructionist perspectives Some readings focus on the construction of problems by scientists and other professionals others examine the work of social activists mass media and social service personnel Among the topics included are studies of social inequalities and individual deviance a comparison of the images of social problems in the United States with those in other countries and an examination of the importance of politics and power in constructing public images of social problems Constructionist perspectives have become the leading theoretical approach for sociology and allied fields in studying social problems Yet constructionists impact on the teaching of social problems has been far less dramatic Undergraduate courses on social problems are often subject to a theoretical barrage of eclectic perspectives Just as the first social problems textbooks did almost a century ago textbooks continue to present a series of unrelated chapters each devoted to a particular social problem *Social Problems* is an effort at systematic analysis rather than random thought on the subject *Social Problems* presents detailed case studies demonstrating how constructionist perspectives can actually be applied to understand particular social problems While these articles can be read alone the editors have organized these selections to correspond with the chapter topics in the second edition of Donileen Loseke's *Thinking about Social Problems* an accessible introduction to constructionist approaches At the same time some instructors who use this edited collection might wish to provide their own mix to the selection process Many of the contributions make multiple points and so reasonably could be used to illustrate other basic texts or classic studies in the field of social problems Donileen R Loseke is professor of sociology at the University of South Florida Joel Best is professor and chair Department of Sociology and Criminal Justice University of Delaware He has also served as an advisory editor for *Aldine* in the area of social problems

**The BBC's management of risk** Great Britain: Parliament: House of Commons: Committee of Public Accounts, 2007-12-06 This Committee of Public Accounts report on The BBC's management of risk sets out a number of recommendations on dealing with risk and what the BBC's Executive Board should implement Risk comes in different forms from the risk of damaging the Corporation's reputation as a public service broadcaster to personal risk staff can experience when reporting from dangerous parts of the world This report follows on from a National Audit Office report of the same title

and is available from the NAO website [http://www.bbcgovernorsarchive.co.uk/docs/reviews/nao\\_riskmanagement.pdf](http://www.bbcgovernorsarchive.co.uk/docs/reviews/nao_riskmanagement.pdf) Among the recommendations are that BBC guidance needs a clearer delineation of responsibilities for risk management that the main themes of risk management are not aligned with corporate objectives that the BBC should update its assessments of the risks of working in hostile environments as the abduction of journalist Alan Johnson showed by failing to comply with its own Broadcasting Code the BBC was fined by Ofcom over the a live phone in competition on Blue Peter and illustrates that some programme makers are ignoring the BBC's own editorial guidelines exposing the corporation to reputational risk the BBC has not related its risk to corporate objectives or assigned all risks to named owners that BBC managers at all levels are not sufficiently engaged in the management of risk there is still no fully satisfactory regime under which the BBC is accountable to Parliament for the value for money with which it spends licence fee payers money
