versions previously known Also included are previously unpublished remarks by Wordsworth Along with a bibliography of earlier editions of Table Talk and other useful appendixes Carl Woodring s edition reprints the second edition 1836 which differs from the manuscripts more extensively than the edition of 1835 This is the first fully annotated edition of a work that long remained more popular in the United Kingdom than any of the works in prose published by Coleridge himself The two volumes make a convenient encyclopedia of his ideas and interests Carl Woodring is George Edward Woodberry Professor of Literature Emeritus at Columbia University Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **"Proper**
