## **Property Rights And Managerial Decisions Comparative Theory And Policy:**

*Property Rights and Managerial Decisions in For-profit, Non-profit and Public Organizations* K. Carroll, 2003-12-11 The author describes the property rights that exist in different organizational forms and explains how these establish incentives for managerial decision behaviour She compares the rights incentives and corresponding decision behaviour in for profit nonprofit and public organizations under conditions of unbounded rationality She shows that managerial responses to regulation tax and industrial organization policies may differ from the usual predictions when property rights are considered She also shows how property rights link economic and organization theory *The Road to Privatization of Higher Education in China* Li Wang, 2013-11-29 This book makes both empirical and conceptual contributions to the debate on privatization of higher education in China Empirically it aims to fill a gap in our knowledge of privatization of higher education in North China To this end Beijing was chosen as a case for analysis and nine local higher educational institutions were visited The case study strategy is also complemented by an extensive review of national policies to reveal problems beyond the specific case of Beijing and of national concern The effects of the cultural and socioeconomic background and the unique state party controlling system on higher education management are stressed Conceptually most existing studies on privatization of higher education in China adopt a policy analysis approach while research on privatization of other public sectors or in other countries is frequently guided by economic theories This book thus seeks to combine both social policy and econometric approaches to provide a systematic and detailed investigation of the privatization process in the context of higher education It also improves examines the applicability of western theories in the Chinese context **Commercial Trusts in European Private Law** Michele Graziadei, Ugo Mattei, Lionel Smith, 2005-11-03 In European legal systems a variety of approaches to trust and relationships of trust meet the universal professionalisation of asset management services This book explores that interface in order to seek a better understanding of the legal regulation of the entrustment of wealth Within the methodology of the Common Core of European Private Law the book sets out cases on the establishment and termination of management relationships obligations of loyalty and of professionalism and the choice of law More specialized cases address collective investment collective secured lending pension funds and securitisation Reports on these cases from fifteen jurisdictions of the European Union tackle fundamental problems of trust law and show which legal techniques are deployed to solve them across Europe In addition to a much needed comparative treatment of the subject the book discusses the scholarly setting for the issues and gives guidance on the terminology in the evolving European scene *American Book Publishing Record*, 2003 *Strategic Management* Irene M. Duhaime, Michael A. Hitt, Marjorie A. Lyles, 2021-06-17 An authoritative overview of the prior development current state and future opportunities in strategic management The strategic management field now a vibrant arena that offers valuable knowledge for managerial practice has experienced significant growth in the more than forty years since its inception And until now there has not been a book that captured the rich breadth and depth of

A.

Bouckaert,2020-03-02 The discipline of law and economics has earned a reputation for developing plausible and empirically testable theories on the social functions and the impact of legal institutions Property rights are a field in which this has been very successful In this book economic property rights theories are applied to case law in order to examine the practice and solution of real life conflicts The author examines the economic problems which are dealt with in these cases and evaluate the courts decisions from an economic angle Cases are examined from across the UK the US Germany Belgium and Canada to allow international comparisons to be made These comparisons reveal that regardless of the legal system many legal issues have similar economic roots and therefore similar models of economic analysis can be applied The analysis of these cases also shows that the discipline of law and economics is not only successful in developing explanatory models but also useful to generate better considerations and solutions for legal conflicts in individual cases This book aims to bridge the gap between the academic and professional literature and demonstrate the benefits of the economic analysis of property rights cases to all those who are interested in law and economics      *Property Rights and the Environment* Susan Hanna,Mohan

Munasinghe,1995 The collection of papers in this book and its companion volume Property Rights in Social and Ecological Context Case Studies and Design Applications 6 examine the relationships between people the environment and property rights and the ways in which a given social and ecological context affects those relationships The papers are products of a research program at the Royal Swedish Academy of Sciences Stockholm The main objective of the program was to convene social scientists and natural scientists to address research questions in their full social and ecological dimensions The program s participants addressed five general issues related to property rights and the environment 1 the design of governance systems for sustainability 2 the relationship between equity stewardship and environmental resilience 3 the use of traditional knowledge in resource management 4 the mechanisms that link people to their environments and 5 the role played by population and poverty The companion volume presents case studies that address questions of design application in those five areas 6 Also available Property Rights in a Social and Ecological Context Case Studies and Design Applications ISBN 0 8213 3416 6 Stock No 13416      **The Economics of Groundwater Management in Arid Countries** Manuel
