Property Rights In A Social And Ecological Context:

Property Rights in a Social and Ecological Context Susan Hanna, Mohan Munasinghe, 1995-01-01 The collection of papers in the book *Property Rights and the Environment Social and Ecological Issues 6* and this companion volume examine the relationships between people the environment and property rights and the ways in which a given social and ecological context affects those relationships The papers are products of a research program at the Royal Swedish Academy of Sciences Stockholm The main objective of the program was to convene social scientists and natural scientists to address research questions in their full social and ecological dimensions The program s participants addressed five general issues related to property rights and the environment 1 the design of governance systems for sustainability 2 the relationship between equity stewardship and environmental resilience 3 the use of traditional knowledge in resource management 4 the mechanisms that link people to their environments and 5 the role played by population and poverty This volume presents case studies that address questions of design application in those five areas 6 Also available *Property Rights and the Environment Social and Ecological Issues* ISBN 0 8213 3415 8 Stock No 13415 *Property Rights and the Environment* Susan Hanna, Mohan Munasinghe, 1995 The collection of papers in this book and its companion volume *Property Rights in Social and Ecological Context Case Studies and Design Applications 6* examine the relationships between people the environment and property rights and the ways in which a given social and ecological context affects those relationships The papers are products of a research program at the Royal Swedish Academy of Sciences Stockholm The main objective of the program was to convene social scientists and natural scientists to address research questions in their full social and ecological dimensions The program s participants addressed five general issues related to property rights and the environment 1 the design of governance systems for sustainability 2 the relationship between equity stewardship and environmental resilience 3 the use of traditional knowledge in resource management 4 the mechanisms that link people to their environments and 5 the role played by population and poverty The companion volume presents case studies that address questions of design application in those five areas 6 Also available *Property Rights in a Social and Ecological Context Case Studies and Design Applications* ISBN 0 8213 3416 6 Stock No 13416 *Property rights in a social and ecological context* Susan Hanna, Mohan Munasinghe, 1995 *Property Rights, Economics and the Environment* Michael D. Kaplowitz, 2004-08-02 This book explores how discussions of environmental policy increasingly require scholars and practitioners to integrate legal economic analyses of property rights issues An excellent array of contributors have come together for the first time to produce this magnificent book *Land Rights, Ethno-nationality and Sovereignty in History* Stanley Engerman, Jacob Metzger, 2004-08-02 The complex relationships between ethno nationality rights to land and territorial sovereignty have long fed disputes over territorial control and landed rights between different nations ethnicities and religions These disputes raise a number of interesting issues related to the nature of land regimes and to their economic and political implications The studies drawn together in

this key volume explore these and related issues for a broad variety of countries and times They illuminate the diverse causes of ethno national land disputes and the different forms of adjustment and accommodation to the power differences between the contesting groups This is done within a framework outlined by the editors in their analytical overview which offers contours for comparative examinations of such disputes past and present Providing conceptual and factual analyses of comparative nature and wealth of empirical material both historical and contemporary this book will appeal to economic historians economists political scientists sociologists anthropologists and all scholars interested in issues concerning ethno nationality and land rights in historical perspective *Elinor Ostrom and the Bloomington School of Political Economy* Daniel H. Cole, Michael D. McGinnis, 2015-09-04 In addition to winning the 2009 Nobel Prize in Economic Sciences for her path breaking research on economic governance especially the commons Elinor Lin Ostrom also made important contributions to other fields of political economy and public policy This four volume compendium of papers written by Lin often with coauthors most notably her husband Vincent along with papers by others expanding on her work brings together the strands of her entire empirical analytical theoretical and methodological research program Together with Vincent s important theoretical contributions they defined a distinctive Bloomington School of political economic thought Volume 2 examines Lin s work on the commons in which she demonstrated that in many cases local resource users can solve collective action problems through common property management regimes It comprises papers including some that are not well known related to and building on the findings of *Governing the Commons* 1990 Part I focuses on key attributes of biophysical resources and the institutions human communities have designed to govern them Part II shows how in various social and ecological circumstances different sets of institutions facilitate or impede the long run sustainability of resources Part III highlights Ostrom s first major research project on water resources in Southern California It was a topic she and her students returned to with the specific intention of gathering data more than 50 years worth for longitudinal analyses of combined institutional and ecological change In sum this volume contextualizes what is at present thought to be Lin s greatest legacy to social science the conditions under which resources can be sustainably managed over very long periods of time by the collective action of ordinary people beyond markets and states *Linking Social and Ecological Systems* Fikret Berkes, Carl Folke, Johan Colding, 2000-04-13 It is usually the case that scientists examine either ecological systems or social systems yet the need for an interdisciplinary approach to the problems of environmental management and sustainable development is becoming increasingly obvious Developed under the auspices of the Beijer Institute in Stockholm this new book analyses social and ecological linkages in selected ecosystems using an international and interdisciplinary case study approach The chapters provide detailed information on a variety of management practices for dealing with environmental change Taken as a whole the book will contribute to the greater understanding of essential social responses to changes in ecosystems including the generation accumulation and transmission of ecological knowledge structure and dynamics of institutions and

the cultural values underlying these responses A set of new or rediscovered principles for sustainable ecosystem management is also presented Linking Social and Ecological Systems will be of value to natural and social scientists interested in sustainability Sustaining Large Marine Ecosystems: The Human Dimension Timothy M. Hennessey,Jon G. Sutinen,2005-05-06 The shift away from the management of individual resources to the broader perspective of ecosystems is no longer confined to academia and think tanks where it first began the ecosystem paradigm also is beginning to take root in government policy and programs This volume provides innovative and timely approaches for improving and sustaining socioeconomic benefits from LMEs The authors describe methodologies and actions for moving forward in halting the downward resource sustainability spiral and advancing toward the recovery of depleted fish stocks restoration of degraded habitats and reduction and control of pollution within the framework of an ecosystem based approach for the governance of LMEs First book to ever publish that focuses on the human dimension of large marine ecosystem management Offers set of guidelines for possible interrelationship management programs Addresses taxing issues and problems pertaining to the world s marine ecosystems Provides a matrix of the interdependence of economic social cultural and governance elements

Social Implications of Quota Systems in Fisheries Gísli Pálsson,Nordic Council of Ministers,1997 **Property Law and Economics** Boudewijn Bouckaert,2010-01-01 This book contains illuminating and carefully written literature reviews on the central topics of the economics of property rights and institutions As a bonus it includes two fascinating chapters on topics off the beaten path slavery and new types of property rights in environmental goods This book will be indispensable for students and experienced scholars alike Eric Posner University of Chicago Law School US This study covers property law and property rights providing a full summary and comprehensive bibliography of the existing law together with discussion from an economic perspective on the most important aspects of property law Leading experts have brought together their knowledge and insight on a full range of issues including comparative property law and the history of property law to create a truly autonomous interdisciplinary resource This essential reference work will strongly appeal to scholars and students enrolled in academic programmes of law and economics Academic lawyers involved in research and teaching of private common law practicing lawyers in the field of real estate law as well as economists involved in researching development economics and transition economics will also find this an invaluable resource **A Fishery Manager's Guidebook** K. L. Cochrane,2002-01-01 This publication was prepared to promote and to provide support in the implementation of the Code of Conduct for Responsible Fisheries especially Article 7 Fisheries Management As such it also supplements the FAO Technical Guidelines for Responsible Fisheries NO 4 Fisheries management It is intended primarily for the practising fishery manager and decision maker with particular emphasis on developing countries although it is hoped that the volume will also be of interest to managers in developed countries **The Third Biennial Meeting of the International Society for Ecological Economics. D. Vartanian,1994 Sustainability in the Twenty-First Century Mohan Munasinghe,2019-05-23 Provides a rigorous analysis of sustainable development that includes practical policy relevant global case studies explained concisely and clearly

Social Issues in Sustainable Fisheries Management Julie Urquhart,Tim G. Acott,David Symes,Minghua Zhao,2014-01-20 This volume is an interdisciplinary mix of perspectives and studies on social issues in fisheries from a diverse range of case studies and research disciplines The case is made regarding the dearth of attention to socio cultural considerations which to date have been largely treated as an externality of fisheries policy It will be valuable to researchers and decision makers interested in understanding the social dimension of fisheries and provides a timely and relevant compilation of research and analysis on some of the critical socio cultural issues facing fisheries management and fishing communities today **The Earth Charter, Ecological Integrity and Social Movements** Laura Westra,Mirian Vilela,2014-06-20 The Earth Charter is a declaration of fundamental ethical principles for building a just sustainable and peaceful global society with ecological integrity as a major theme This book provides a series of analyses of ecological integrity as it relates to the Earth Charter social movements and international law for human rights It is shown how the Earth Charter project began as a United Nations initiative but it was carried forward and completed by a global civil society initiative The drafting of the Earth Charter involved the most inclusive and participatory process of its time ever associated with the creation of an international declaration This process is the primary source of its legitimacy as a guiding ethical framework The Earth Charter was finalized and then launched in 2000 and its legitimacy has been further enhanced by its endorsement by over 6 500 organizations including many governments and international organizations In the light of this legitimacy an increasing number of international lawyers recognize that the Earth Charter is acquiring the status of a soft law document The book also shows the strong connection between ecological integrity and social justice particularly in the defence of indigenous people and includes contributions from both the North and the global South specifically from Central and South America

Cochrane,Serge M. Garcia,2009-06-15 Co published with the Food and Agriculture Organization of the United Nations Fisheries management is the process that has evolved to try to ensure that fisheries operate in a manner that provides the immediate benefits in a sustainable manner The widely accepted goal is that the full range of benefits should not only be available for this generation but for generations to come Fisheries management has been successful in some cases but there have also been many many cases of failure This volume is intended to contribute to improving this unsatisfactory state by addressing the widespread need for information and guidance on the broad and often complex task of fisheries management It is an updated and expanded edition of the first version of A fishery manager s guidebook which was published as a FAO Fisheries Technical Paper in 2002 The major part of this new edition is divided into five parts intended to cover the range of concerns tools and

techniques essential to the modern fisheries manager whether that manager is an individual or a formal or informal group Following the Introduction Part I examines the primary dimensions of fisheries biological ecological social and economic Part II looks at the legal and institutional characteristics of fisheries Part III explores the tools that fishery managers have to achieve the objectives expected from a fishery Part IV discusses the role of scientific information of indicators and reference points Part V moves into implementation of fisheries management and includes a chapter on special considerations in small scale fisheries This landmark publication is aimed at fishery managers and scientists All libraries in research establishments and universities where fisheries and aquatic sciences are studied and taught will need copies of this important volume Fisheries around the world make essential contributions to human well being including the provision of basic food supplies employment recreational opportunities foreign currency and others providing benefits to hundreds of millions of people Despite these benefits our record of managing fisheries so that the benefits can be sustained has been poor at best and most fisheries around the world are experiencing serious ecological social or economic problems and usually all three Today there is global concern about the state of fishery resources and aquatic ecosystems their resilience to future stresses such as climate change and their ability to continue to provide benefits Co-creating Knowledge with Fishers: Challenges and Lessons for Integrating Fishers' Knowledge Contributions into Marine Science in Well-Developed Scientific Advisory Systems Nathalie A.
