Haak, 2006-02-28 Essays examine the work of prophets in Second Temple Judaism *Prophets and Prophecy* Hibbard, J. Todd, This volume introduces readers to the prophets of ancient Israel by focusing on the variety of roles they played in ancient Israelite society Starting from the basic definition of prophets as mediators between God and the community the author explores the activities and messages of prophets in their various social historical political economic and religious contexts The basic question always before us is What did prophets do in ancient Israel To answer this Hibbard offers a close critical analysis of the biblical literature by and about prophets The result is an analysis of prophets as royal advisors political pundits religious specialists social critics miracle workers poets and scribes

Stead, 2009-06-15 Zechariah 1 8 is a deeply intertextual work which takes up formerly disparate streams of tradition especially various elements of what it calls the former prophets and creatively combines these traditions in applying them to a post exilic context This fact means that Zechariah 1 8 is situated in a dual context the literary context of the former prophets and the historical context of the early post exilic period This work seeks to understand Zechariah 1 8 in the light of its dual context When Zechariah 1 8 is read in this way a number of otherwise perplexing passages are made clearer and the message of the work as a whole is better understood This book offers a critique of and refinement to the approaches of intertextuality inner biblical allusion tradition history in understanding the effect of texts re using texts Against a recent trend which seeks to limit this phenomenon to verbal repetition it demonstrates that Zechariah 1 8 involves the use of a wide variety of literary devices including thematic allusions ungrammaticalities and sustained allusions to make connections with other texts The kind of intertextual approach followed in this study demonstrates that intertextuality does not necessarily lead to radical indeterminacy as claimed by some and instead actually aids in the limiting the possible ranges of meaning The manner in which Zechariah 1 8 invokes re activates re applies the words of the former prophets raises important issues related to prophecy and fulfilment history and eschatology and the development of apocalyptic which are addressed in the course of this enquiry
