W. Simon**

Prophetic Politics:

Prophetic Politics David S. Gutterman, 2018-07-05 In an era of military conflict and economic hardship religious and political leaders adamantly speak in the language of crisis Whether one attributes this public religious fervor to a response to the attacks of September 11 2001 millennial hopes and fears a sense of moral decay generally based on either growing economic inequality or the breakdown of the American family or a sign of the normal progression of the stages of history the discourse of religious revival is increasingly prominent And as is amply evident in the United States and throughout the world devout declarations of religious belief in the public sphere can bring intractable passions to politics from Chapter 1 What are the relationships among religion politics and narratives What makes prophetic political narratives congenial or hostile to democratic political life David S Gutterman explores the prophetic politics of four twentieth and twenty first century American Christian social movements the Reverend Billy Sunday and his vision of muscular Christianity Dr Martin Luther King Jr and the Civil Rights movement the conservative Christian male organization Promise Keepers and the progressive antipoverty organization Call to Renewal Gutterman develops a theory based on the work of Hannah Arendt and others and employs this framework to analyze expressions of the prophetic impulse in the political narrative of the United States In the process he examines timely issues about the tense and intricate relationship between religion and politics Even prior to George W Bush s faith based initiative debates about abortion family values welfare reform and environmental degradation were informed by religious language and ideas In an interdisciplinary and accessible manner Gutterman translates the narratives employed by American Christian social movements to define both the crises in the land and the path to resolving these crises The book also explores the engagement of these prophetic social movements in contentious political issues concerned with sex gender sexuality race and class as well as broader questions of American identity

Prophetic Politics Philip J. Harold, 2009-09-01 In *Prophetic Politics* Philip J Harold offers an original interpretation of the political dimension of Emmanuel Levinas s thought Harold argues that Levinas s mature position in *Otherwise Than Being* breaks radically with the dialogical inclinations of his earlier *Totality and Infinity* and that transformation manifests itself most clearly in the peculiar nature of Levinas s relationship to politics Levinas s philosophy is concerned not with the ethical per se in either its applied or its transcendent forms but with the source of ethics Once this source is revealed to be an anarchic interruption of our efforts to think the ethical Levinas s political claims cannot be read as straightforward ideological positions or principles for political action They are instead to be understood prophetically a position that Harold finds comparable to the communitarian critique of liberalism offered by such writers as Alasdair MacIntyre and Charles Taylor In developing this interpretation which runs counter to formative influences from the phenomenological tradition Harold traces Levinas s debt to phenomenological descriptions of such experiences as empathy and playfulness *Prophetic Politics* will highlight the relevance of the phenomenological tradition to contemporary ethical and political thought a long standing goal of the series while also

making a significant and original contribution to Levinas scholarship **Prophetic Politics** David S. Gutterman, 2006 What are the relationships among religion politics and narratives What makes prophetic political narratives congenial or hostile to democratic political life David S Gutterman explores the prophetic politics of four twentieth and twenty first century American Christian social movements the Reverend Billy Sunday and his vision of muscular Christianity Dr Martin Luther King Jr and the Civil Rights movement the conservative Christian male organization Promise Keepers and the progressive antipoverty organization Call to Renewal Gutterman develops a theory based on the work of Hannah Arendt and others and employs this framework to analyze expressions of the prophetic impulse in the political narrative of the United States In the process he examines issues about the tense and intricate relationship between religion and politics Jacket *In Washington But Not of it* Daniel J. B. Hofrenning, 1995 Ninety percent of Americans tell pollsters they believe in God 68 percent say they are members of a religious organization Most of these organizations are represented by lobbyists in Washington D C Daniel J B Hofrenning examines the role of these religious lobbyists in American politics and argues that no matter what their ideological stance all share an anti elitist strategy in their campaigns against Washington s policies Hofrenning considers the scope of religious organizations their tactics their international politics and their relationships among leaders and members Through extensive interviews with religious lobbyists he examines both conservative and liberal lobbyists and their distinct methods of wielding power In comparison to their secular counterparts who seek small targeted changes religious lobbyists attempt fundamental change on a wide range of public policies based on a philosophy that something is profoundly wrong with society and government priorities This book not only provides insight into the activities and goals of religious lobbyists but also adds to our understanding of politics at the margins a politics that is increasingly affecting the mainstream political agenda Author note Daniel J B Hofrenning is Assistant Professor of Political Science at St Olaf College **Levinas and the Political** Howard Caygill, 2005-07-05 Howard Caygill systematically explores for the first time the relationship between Levinas thought and the political From Levinas early writings in the face of National Socialism to controversial political statements on Israeli and French politics Caygill analyses themes such as the deconstruction of metaphysics embodiment the face and alterity He also examines Levinas engagement with his contemporaries Heidegger and Bataille and the implications of his rethinking of the political for an understanding of the Holocaust After the Election Ron Scott Sanders, 2018-04-05 The role of Evangelical Christianity in American public life is controversial The mythology of America as a Christian nation and the promissory note of secularism have proved inadequate to cope with the increasing pluralism the resilience of spirituality and the wariness toward formal religion that mark our post secular age Christianity and democracy have a complex history together but is there a future where these two great traditions draw the best out of one another What does that future look like in a heterogeneous society Sanders argues that democracy is stronger when it allows all of its religious citizens to participate fully in the public sphere and Christianity is richer when it demonstrates the wisdom of God from the

ground up rather than legislating it from the top down In this reality the Evangelical church must return to Christianity's prophetic roots and see itself as a community in exile where participation in the political is important but not ultimate where the substantive work of the church happens after the election

God's Politics Jim Wallis, 2006-08-29 New York Times
 bestseller *God's Politics* struck a chord with Americans disenchanted with how the Right had co-opted all talk about integrating religious values into our politics and with the Left who were mute on the subject Jim Wallis argues that America's separation of church and state does not require banishing moral and religious values from the public square *God's Politics* offers a vision for how to convert spiritual values into real social change and has started a grassroots movement to hold our political leaders accountable by incorporating our deepest convictions about war poverty racism abortion capital punishment and other moral issues into our nation's public life Who can change the political wind Only we can

Preaching Prophetic Care Phillis Isabella Sheppard, Dawn Ottoni-Wilhelm, Ronald J. Allen, 2018-06-25 Preachers often think of prophetic preaching in the caricature of the prophet as the lonely outsider confronting the congregation often angrily with the congregation's complicity in social injustice and with a bracing call for repentance The twenty seven essays and sermons in this book offer a different perspective by viewing prophetic preaching specifically and ministry practical theology and theological education more broadly as pastoral care for the community in prophetic perspective Such preaching does indeed bring a critical theological analysis of justice concerns to the center of the sermon but in such a way as to invite the congregation to consider how the move toward justice is a pastoral move that is a move that seeks to build up community Rather than contributing to the polarization so rampant in today's social world the preacher seeks to help the congregation build bridges along which concern for justice can travel The contributions honor the work of the late Dale Andrews a scholar of preaching and practical theology at the Divinity School Vanderbilt University whose seminal work inspires the notions of prophetic care and building bridges to justice With contributions from Donna Allen L Susan Bond Teresa Fry Brown Gennifer Brooks Teresa Eisenlohr Anna Carter Florence Kenyatta Gilbert R Mark Giuliano David Schnasa Jacobsen John McClure Mary Elizabeth Moore Mary Alice Mulligan Debra Mumford Peter Paris Luke Powery Shelly Rambo Lee Ramsey Robert London Smith Amy Steele Frank A Thomas Lisa Thompson Scott Williamson Sunggu Yang Ted A Smith William B McClain

Religious Leaders and Faith-based Politics Jo Renee Formicola, Hubert Morken, 2001 *Religious Leaders and Faith Based Politics Ten Profiles* offers a powerful and timely analysis of the dynamic relationship between religious leaders of all faiths and political activism in the United States By examining the lives and works of such prominent leaders as Reverend Floyd Flake Bishop T D Jakes Reverend Al Sharpton Elder Dallin H Oakes Rabbi Daniel Lapin Reverend Benjamin Chavis Muhammed and Sister Maureen Fiedler this volume reveals an American tradition of religious influence on public policy that continues to be an important hallmark of our democracy From the colonial era to the present religious leaders have raised Americans' moral and political awareness of countless issues including revolution slavery temperance civil rights and most recently the culture wars This

book is the first to explore the renewed and intense commitment of evangelicals Catholics Muslims and Jews to preach teach and participate in politics today Among the questions answered in this book are religious leaders today as active and vocal as the radicals of the turbulent 1960s Are these activists still involved in civil rights or have other contentious topics such as abortion and traditional family values preempted such issues In the wake of the 2000 election and at the start of a new administration committed to elevating the role of religion in politics Jo Renee Formicola Hubert Morken and this prominent collection of contributors ask might we expect greater American religious involvement in the years ahead This is essential reading for anyone interested in religious and political activism or the evolving relationship between church and state in America

The Politics of Values Jo Renee Formicola,2008 The Politics of Values shows how Evangelical moral influence morphed into public policy and partisan political support for the Republican Party It will show how the politics of values were used as a means to gain and hold political power and articulate how those who tried to implement the politics of values in campaigns and public policy began to fall into disrepute Due to their own arrogance and scandalous behavior many were voted out of elective office losing significant races in the 2006 mid term elections and leaving the Republican Party severely compromised for the 2008 Presidential election This book argues that the ensuing erosion of the Evangelical Republican symbiosis will soon become more visible and powerful as growing demands for an emphasis on new spiritual values and adjusted political priorities In short the nexus of conservative ideology religion and politics is imploding In its place progressive alternatives are developing in fact some are already being presented to the voter by candidates who are motivated by new challenges and cultural directions

The New World of Politics Neal Riemer,Douglas Simon,Douglas W. Simon,1997-03 In this fourth edition Neal Riemer and Douglas W Simon again seek to introduce students to the challenging discipline of political science by highlighting six cardinal features The editors strongly believe that their unique and comprehensive approach employing those six features can best equip students of political science to stay abreast of the ever changing and ever challenging world of politics First and most important Riemer and Simon affirm the importance of addressing the three main concerns of political science political and philosophy and ethics empirical behavioral political science and public policy Secon the authors reaffirm their normative preference for politics as a civilizing enterprise one that enables people in the political community live better to grow robustly in mind and spirit and to find creative fulfillment The fourth cardinal feature requires to recognize realistically the ever chaning nature of politics and the tasks of assessing and responding to changing values The sixth cardinal feature of The New World of Politics is understanding the importance of keeping the future in mind not only the immediate future but the long range future This book seeks to introduce students to political science as a discipline intimately involved with ethics emprical social scientific inquiry and public policy Neal Riemer and Douglas W Simon are endeavoring to help students respond to those future problems with understanding and wisdom A Collegiate Press book

Modern Jewish Thought on Crisis Ghilad H. Shenhav,Cedric Cohen-Skalli,Gilad Sharvit,2024-01-29

This volume brings together scholars from a range of disciplines to explore the intersections between crisis scholarship and action. The aim of this book is to think about the moment of crisis through the concepts, writings and methodologies awarded to us by Jewish thinkers in modernity. This book offers a broad gallery of accounts on the notion of crisis in Jewish modernity while emphasizing three terms: interpretation, heresy and messianism. The main thesis of the volume is that the diasporic and exilic experience of the Jewish people turned their philosophers and theologians into experts in crisis management who had to find resources within their own religion, culture and traditions in order to react, endure and overcome short and long term historical crises. The underlining assumption of this book is therefore that Jewish thought obtains resources for conceptualizing and reacting to the current forms of crisis in the global European and Israeli spheres. The volume addresses a large readership in humanities, social and political sciences and religious studies taking as its assumption that scholars in modern Jewish thought have an extended responsibility to engage in contemporary debates.

The Problem of Political Foundations in Carl Schmitt and Emmanuel Levinas Gavin Rae, 2016-09-17. In this book Gavin Rae analyses the foundations of political life by undertaking a critical comparative analysis of the political theologies of Carl Schmitt and Emmanuel Levinas. In so doing, Rae contributes to key debates in contemporary political philosophy specifically those relating to the nature of and the relationship between the theological, the political and the ethical as well as those questioning the existence of ahistoric metaphysical, ontological and epistemological foundations. While the theological is often associated with belief in a fixed foundation such as God or the truth of a religion, Rae identifies another sense rooted in epistemology. On this understanding, the ontological limitations of human cognition mean that ultimately human truth is based in faith and so can never be certain. The argument developed suggests that Levinas' conception of the political is grounded in theology in the sense of religion, particularly the revelations of Judaism. For this reason, Levinas claims that the political decision is based on how to implement a prior religiously inspired norm, justice. Schmitt, in contrast, develops a conception of the political rooted in epistemic faith to claim that the political decision is normless. While sympathetic to Schmitt's conception of theology and its relationship to the political, Rae concludes by arguing that the emphasis Levinas places on responsibility is crucial to understanding the implications of this. The continuing relevance of Schmitt's and Levinas' political theologies is that they teach us that while the political decision is ultimately normless, we bear an infinite responsibility for the consequences of this normless decision.

The Oxford Handbook of Religion and American Politics Corwin E. Smidt, Lyman A. Kellstedt, James L. Guth, 2017. Over the past three decades, the study of religion and politics has gone from being ignored by the scholarly community to being a major focus of research. Yet because this important research is not easily accessible to nonspecialists, much of the analysis of religion's role in the political arena that we read in the media is greatly oversimplified. This Handbook seeks to bridge that gap by examining the considerable research that has been conducted to this point and assessing what has been learned, what remains unsettled due to conflicting research findings and what important questions

remain largely unaddressed by current research endeavors The Handbook is unique to the field of religion and American politics and should be of wide interest to scholars students journalists and others interested in the American political scene

Rizal & the Katipunan Pilgrimage for Sacred Prophetic Politics in the Philippines, for the World Consolacion Rustia Alaras,2001 **The Third Sword** James Bernard Murphy,2023-12-07 Prophets are wild cards in the game of politics James Bernard Murphy writes in this startling new book They risk their lives by calling out the abuses of political and religious leaders forcing us to confront evils we would prefer to ignore By setting moral limits on political leaders prophets chasten our political pretensions and remind us there are values that transcend politics They wield a third sword distinct from the familiar swords of state and church power their sword is the word of God The Third Sword offers a new take on political history illustrating a theory of prophetic politics through tales of political crises interspersed with direct dialogue between the prophets and their persecutors With chapters on Socrates Jesus Joan of Arc Thomas More and Martin Luther King Murphy brings these prophets to life with storytelling that blends biography history and political theory Summary: God's Politics BusinessNews Publishing,2017-01-30 The must read summary of Jim Wallis s book God s Politics Why the Right Gets It Wrong and Left Doesn t Get It Right This complete summary of God s Politics by Jim Wallis a renowned Christian writer and political activist outlines the author s vision for political dialogue that embraces true Christian values He argues that America should separate church and state but not banish moral and religious values from public discourse and this is something that both sides of politics have failed to grasp on different levels Added value of this summary Save time Understand the role of faith in American politics Expand your knowledge of American politics and values To learn more read God s Politics and discover Wallis s view of secularism and how it can still incorporate religious values **The Challenge of Politics** Douglas W. Simon,Joseph Romance,Neal Riemer,2019-01-02 This is a textbook that offers students a good introduction to the science of politics while emphasizing the moral empirical and prudential dimensions of politics Prosper Bernard Jr College of Staten Island This updated Sixth Edition of The Challenge of Politics enables students to see how the subfields of political science converge around a set of crucial questions such as Can we as citizens and students articulate and defend a view of the good political life and its guiding political values Can we bring political wisdom to bear on judgments about politics and public issues and Can we develop a science of politics to help us understand significant political phenomena the empirical realities of politics Balancing lessons of classic and contemporary theory with contemporary politics and empirical study the book equips students with the tools they need to explore the impact of philosophy and ideology recognize major forms of government evaluate empirical findings and understand how policy issues directly affect people s lives The updated Sixth Edition includes new material on the 2016 presidential elections the role of social media in politics and an expanded discussion on the rise of populist movements Give your students the SAGE edge SAGE edge offers a robust online environment featuring an impressive array of free tools and resources for review study and further exploration
