

The background of the book cover is a painting of a river landscape. The sky is filled with soft, white and grey clouds. In the distance, a small town or village is visible on the riverbank. The river flows from the background towards the foreground, where the banks are covered in lush green grass and vegetation. The overall style is impressionistic, with visible brushstrokes and a vibrant color palette.

Prophetic Waters The River In Early American Life:

Early American Nature Writers Daniel Patterson, 2007-11-30 At a time when the environment is of growing concern to students and general readers nature writing is especially meaningful This book profiles the literary careers of 52 early American nature writers such as John James Audubon Ralph Waldo Emerson Caroline Stansbury Kirkland Thomas Jefferson Henry David Thoreau and Mabel Osgood Wright Each entry is written by an expert contributor and discusses the writer's life and works Entries close with primary and secondary bibliographies and the encyclopedia ends with suggestions for further reading Global warming pollution and other issues have made the environment a topic of constant discussion these days Many environmental concerns were treated by early American nature writers who recognized the beauty of the natural world in an age of commercial expansion Some of the most famous writers of the 18th and 19th centuries wrote about nature and their works are stylistic masterpieces At a time when students are being encouraged to read and write about nonfiction these masterworks of early American nature writing are all the more important This book gives students and general readers a welcome introduction to early American nature writers

Rivers and the Power of Ancient Rome J. B. Campbell, 2012 Figuring in myth religion law the military commerce and transportation rivers were at the heart of Rome's increasing exploitation of the environment of the Mediterranean world In *Rivers and the Power of Ancient Rome* Brian Campbell explores

Patriotism and Profit Susan Nagel, 2021-10-05 The untold story of how America's beloved first president George Washington borrowed leveraged and coerced his way into masterminding the key land purchase of the American era the creation of the nation's capital city Contrary to the popular historical record Thomas Jefferson was not even a minor player at The Dinner Table Bargain now known as The Compromise of 1790 The real protagonists of the Dinner Table Bargain were President George Washington and New York Senator Philip Schuyler who engaged in the battle that would separate our financial capital from our political seat of power Washington and Schuyler's dueling ambitions provoked an intense decades long rivalry and a protracted crusade for the location of the new empire city Alexander Hamilton son in law to Schuyler and surrogate son to George Washington was helplessly caught in the middle This invigorating narrative vividly depicts New York City when it was the nation's seat of government Susan Nagel captures the spirit speech and sensibility of the era in full and entertaining form and readers will get to know the city's eighteenth century movers shakers and power brokers who are as colorful and fascinating as their counterparts today Delicious political intrigue and scandalous gossip between the three competing alpha personalities George Washington Philip Schuyler and Alexander Hamilton make this a powerful and resonant history reminding us that our Founding Fathers were brilliant but often flawed human beings They were avaricious passionate and visionary They loved hated sacrificed and aspired Even their most vicious qualities are part of the reason why for better or worse the United States became the premier modern empire born from figures carving their legacies into history Not only the dramatic story of how America's beloved first president George Washington created the nation's capital

city Patriotism Profit serves as timely expos on issues facing America today revealing the origins behind some of our nation's most pressing problems *The Land Before Her* Annette Kolodny, 2014-07-01 To discover how women constructed their own mythology of the West Kolodny examines the evidence of three generations of women's writing about the frontier She finds that although the American frontiersman imagined the wilderness as virgin land an unspoiled Eve to be taken the pioneer woman at his side dreamed more modestly of a garden to be cultivated Both intellectual and cultural history this volume continues Kolodny's study of frontier mythology begun in *The Lay of the Land* *Inventing Americans in the Age of Discovery* Michael Householder, 2016-05-06 *Inventing Americans in the Age of Discovery* traces the linguistic rhetorical and literary innovations that emerged out of the first encounters between Europeans and indigenous peoples of the Americas Through analysis of six texts Michael Householder demonstrates the role of language in forming the identities or characters that permitted Europeans English speakers primarily to adapt to the unusual circumstances of encounter Arranged chronologically the texts examined include John Mandeville's *Travels* Richard Eden's English language translations of the accounts of Spanish and Portuguese discovery and conquest George Best's account of Martin Frobisher's voyages to northern Canada Ralph Lane's account of the abandonment of Roanoke John Smith's writings about Virginia and John Underhill's account of the Pequot War Through his analysis Householder reveals that English colonists did not share a universal homogenous view of indigenous Americans as savages but that the writers confronted by unfamiliar peoples and situations resorted to a mixed array of cultural beliefs myths and theories to put together workable explanations of their experiences which then became the basis for how Europeans in the colonies began transforming themselves into Americans

Landscape and Identity in North America's Southern Colonies from 1660 to 1745 Catherine

Armstrong, 2016-04-22 Through an analysis of textual representations of the American landscape this book looks at how North America appeared in books printed on both sides of the Atlantic between the years 1660 and 1745 A variety of literary genres are examined to discover how authors described the landscape climate flora and fauna of America particularly of the new southern colonies of Carolina and Georgia Chapters are arranged thematically each exploring how the relationship between English and American print changed over the 85 years under consideration Beginning in 1660 with the impact of the Restoration on the colonial relationship the book moves on to show how the expansion of British settlement in this period coincided with a dramatic increase in the production and consumption of the printed word and the further development of religious and scientific explanations of landscape change and climactic events This in turn led to multiple interpretations of the American landscape dependent on factors such as whether the writer had actually visited America or not differing purposes for writing growing imperial considerations and conflict with the French Spanish and Natives The book concludes by bringing together the three key themes how representations of landscape varied depending on the genre of literature in which they appeared that an author's perceived self definition as English resident American visitor or American resident

determined his understanding of the American landscape and finally that the development of a unique American identity by the mid eighteenth century can be seen by the way American residents define the landscape and their relationship to it

The Cultural Geography of Colonial American Literatures Ralph Bauer, 2003-08-14 Ralph Bauer presents a comparative investigation of colonial prose narratives in Spanish and British America from 1542 to 1800 He discusses narratives of shipwreck captivity and travel as well as imperial and natural histories of the New World in the context of transformative early modern scientific ideologies Bauer positions the narrative models promoted by the New Sciences during the sixteenth and seventeenth centuries within the context of the geopolitical question of how knowledge can be centrally controlled in outwardly expanding empires

Remembering the Early Modern Voyage M. Fuller, 2008-05-12 This book investigates the operations of memory over time through three case studies the famous anthology by Richard Hakluyt memorializing the feats of Elizabethan voyagers the eccentric autobiography of Captain John Smith and the little known history of early modern Newfoundland

Disneyland and Culture Kathy Merlock Jackson, Mark I. West, 2011-08-31 The success of Disneyland as the world's first permanent commercially viable theme park sparked the creation of a number of other parks throughout the world from Florida to Japan France and Hong Kong But the impact of Disneyland is not confined to the theme park arena These essays explore a far reaching ideology Among the topics are Disney's role in the creation of children's architecture Frontierland as an allegorical map of the American West the cultural invasion of France in Disneyland Paris the politics of nostalgia and hyperurbanity in the town of Celebration Florida Instructors considering this book for use in a course may request an examination copy here

Authorizing Experience James Egan, 1999-04-05 The emphasis on practical experience over ideology is viewed by many historians as a profoundly American characteristic one that provides a model for exploring the colonial challenge to European belief systems and the creation of a unique culture Here Jim Egan offers an unprecedented look at how early modern American writers helped make this notion of experience so powerful that we now take it as a given rather than as the product of hard fought rhetorical battles waged over ways of imagining one's relationship to a larger social community In order to show how our modern notion of experience emerges from a historical change that experience itself could not have brought about he turns to works by seventeenth century writers in New England and reveals the ways in which they authorized experience ultimately producing a rhetoric distinctive to the colonies and supportive of colonialism Writers such as John Smith William Wood John Winthrop Anne Bradstreet Benjamin Thompson and William Hubbard were sensitive to the challenge experiential authority posed to established social hierarchies Egan argues that they used experience to authorize a supplementary status system that would at once enhance England's economic political and spiritual status and provide a new basis for regulating English and native populations These writers were assuaging fears over how exposure to alien environments threatened actual English bodies and also the imaginary body that authorized English monarchy and allowed English subjects to think of themselves as a nation By reimagining the English

nation these supporters of English colonialism helped create a modern way of imagining national identity and individual subject formation *Indography* J. Harris, 2012-05-07 In the fifteenth and sixteenth centuries Europeans invented Indians and populated the world with them The global history of the term Indian remains largely unwritten and this volume taking its cue from Shakespeare asks us to consider the proximities and distances between various early modern discourses of the Indian Through new analysis of English travel writing medical treatises literature and drama contributors seek not just to recover unexpected counter histories but to put pressure on the ways in which we understand race foreign bodies and identity in a globalizing age that has still not shed deeply ingrained imperialist habits of marking difference **The Industrial Revolution in America** Kevin Hillstrom, Laurie Collier Hillstrom, 2005-04-25 An impressive set of books on the Industrial Revolution these comprehensive volumes cover the history of steam shipping iron and steel production and railroads three interrelated enterprises that helped shift the Industrial Revolution into overdrive The first set of volumes in ABC CLIO's breakthrough Industrial Revolution in America series features separate histories of three closely related industries whose maturation fueled the Industrial Revolution in the United States during the late 19th and 20th centuries fundamentally changing the way Americans lived their lives With this set students will learn how the steamship the first great American contribution to the world's technology helped turn the nation's waterways into a forerunner of our superhighways how the Andrew Carnegie led American steel industry surpassed its British rivals marking a momentous power shift among industrialized nations and how the railroads spurred by some of the United States's most dynamic entrepreneurs Cornelius Vanderbilt John Pierpont Morgan Jay Gould moved from a single transcontinental link to become the most influential and far reaching technological innovation of the Industrial Age extending into virtually every facet of American culture and commerce **Theism in the Discourse of Jonathan Edwards** R. C. De Prospe, 1985 This book proposes that a new semiotic category called theism can more intelligibly classify the discursive pattern that precedes modern humanism in American literature than such standard historicist categories as Puritanism or Calvinism or medievalism and that the writings of Jonathan Edwards exemplify this theist discursive pattern **Journeys in New Worlds** William L. Andrews, Annette Kolodny, Daniel B. Shea, Sargent Bush, Amy Schragger Lang, 1990-11-21 Four early American women tell their own stories Mary Rowlandson on her capture by Indians in 1676 Boston businesswoman Sarah Kemble Knight on her travels in New England Elizabeth Ashbridge on her personal odyssey from indentured servant to Quaker preacher and Elizabeth House Trist correspondent of Thomas Jefferson on her travels from Philadelphia to Natchez Accompanied by introductions and extensive notes The writings of four hearty women who braved considerable privation and suffering in a wild uncultivated 17th and 18th century America Although confined by Old World patriarchy these women through their narratives have endowed the frontier experience with a feminine identity that is generally absent from early American literature Publishers Weekly *Water and People*, 2008 **Water and People** Stephen F. McCool, 2009-05 Water is the

source of life the sustenance for living the resource needed for mfg mining ag the element required to grow our lawns to water our landscaping to shower us with refreshment it is the place where we play it provides the snow for our winter recreation and it provides the habitat for our wildlife Water in Amer society is more than a physical entity its symbolic values and non instrumental uses are growing in significance This book is about the issues associated with these symbolic values and uses of water the challenges they present in our language in our allocation mechanisms in our commun the conflicts raised and the potential for resolving the difficult contentious and complex issues concerning the use of water for various purposes
