Prophets Of Violence Prophets Of Peace Understanding The Why Of Contemporary Political Violence:

Prophets of Violence, Prophets of Peace Khalid Sohail, 2005 Dr K Sohail's newest book opens the issue of war and peace occupying a central place on the global stage. The leaders he presents have not only shaped the history of their own countries and communities but have transcended local boundaries to influence the course of the 20th century. In this new millennium their political thoughts, strategies and general philosophy must be studied as they will continue to influence our decisions. The strength of this book is that it features Martin Luther King for those interested in the civil rights movement in America, Nelson Mandela for those seeking news of South Africa, Che Guevara and Ho Chi Minh for the leftist movements and the history of tiny Tibet through the personality of the Dalai Lama, Kamel Atatürk for Turkey, Frantz Fanon for France and Algeria, Leon Tolstoy for Russia and internationally Mahatma Gandhi and lesser known in western circles Rabindranath Tagore, Mohammad Iqbal and Mohammad Ali Jinnah explore the Indian subcontinent. Dr Sohail has built a solid, easily managed bridge for all to comprehend the thoughts and actions of leaders from around the world. Written in simple language, it enables every layman to access a 20th century human treasure of information. Dr Sohail's insights as a psychotherapist enable him to present these history makers not as mere distant political figures but as human beings with all of their strengths and weaknesses.

Prophets of Violence, Prophets of Peace Khalid Suhail, 2005 Can human beings live according to moral values yet kill to achieve freedom? Can peaceful non-violent protest actually bring sought-after freedoms? Dr Sohail examines the philosophies and lives of twelve revolutionary political and social figures including Martin Luther King Jr, the Dalai Lama, Gandhi, Nelson Mandela, Che Guevara, Franz Fanon and Ho Chi Minh. In thoughtful, well-organized essays, he looks at a wide spectrum of cultures and their struggles against repressive governments in both developing and developed societies. Dr Sohail distills the global rivalries and the impact of imperialism and colonialism. He explains the dynamics of the ongoing struggle for peace and non-violent means of dramatic change. Dr Sohail reads the works of all these revolutionaries and here details what sets them apart and makes them different from other prominent leaders. **Prophets of Violence** **Prophets of Peace** successfully dissects the personalities of these great leaders, providing insights into history and the social perspective of each man. This is not a condemnation of armed struggle but rather an exploration of the contradictions and ambiguities of the inner lives of these twelve men and of the factors which led each one to choose either violent or peaceful strategies and approaches.

Nationalism in a Transnational Age Frank Jacob, Carsten Schapkow, 2021-11-22 Nationalism was declared to be dead too early. A postnational age was announced and liberalism claimed to have been victorious by the end of the Cold War. At the same time, postnational order was proclaimed in which transnational alliances like the European Union were supposed to become more important in international relations. But we witnessed the rise of a strong nationalism during the early 21st century instead, and right-wing parties are able to gain more and more votes in elections that are often characterized by nationalist agendas. This volume shows how nationalist dreams and fears alike

determine politics in an age that was supposed to witness a rather peaceful coexistence by those who consider transnational ideas more valuable than national demands. It will deal with different case studies to show why and how nationalism made its way back to the common consciousness and which elements stimulated the re-establishment of the aggressive nation state. The volume will therefore look at the continuities of empire actual and imagined the role of foreign and otherness for nationalist narratives and try to explain how globalization stimulated the rise of 21st century nationalisms as well. *Truth, Community, and the Prophetic Voice* Christopher J. Libby, 2018-06-18 The central concern of *Truth Community and the Prophetic Voice* asks how it might be possible today to uphold an understanding of the prophetic voice that comports in essential ways with its expression in the biblical vision while attending especially to contemporary judgments regarding the epistemological significance of community and concerns about the nature and function of claims to truth. Ultimately and more specifically Christopher J. Libby hopes to gain some purchase on what an adequate contemporary Christian theological rendering of the prophetic looks like. He argues that it is not only possible to provide a non-foundationalist account of the prophetic voice but that that voice is able to come truly into its own when cast in a non-foundationalist frame. **The Prophet of Peace** Vahīduddīn Khān, 2009 The *Prophet of Peace* deals with the significant issues associated with the life of the Prophet including jihad ijtihad the concept of war and the relationship with other religious communities. Quoting extensively from the Quran and the Hadith Maulana Wahiduddin Khan illuminates the Islamic view of modernity secularism democracy freedom of speech and the relevance of Islam in the modern age clarifying that Islam as revealed in the Quran is not anti-modernity nor does it advocate violence. Persuasive and compelling in its breadth and wisdom this book presents an authentic picture of the life and teachings of the Prophet Muhammad and *A Prophet of Modern Delusions* John P. Moran, 2024-06-10 Throughout his major works Leo Tolstoy argues that the central problem of the modern world is its delusional character. We have become delusional about the utility of science the effects of music the nature of love and the divine and the inescapable reality of death. *A Prophet of Modern Delusions: Tolstoy's Critique of Modernity* explores Tolstoy's arguments regarding these delusions. In so doing it illustrates the continuing relevance of Tolstoy's writings to those who desire to understand the complexities of modernity and who wish to be roused from deeply entrenched ways of thinking that may be delusional. **A Cultural History of Peace in the Modern Age** Ronald Edsforth, 2022-02-24 *A Cultural History of Peace* presents an authoritative survey from ancient times to the present. The Prophet of Islam in History Shahid Ahmad,2016-02-04 It is an irony that despite having a plethora of biographical and historical works on the life of the Prophet of Islam it is difficult to understand his true historical personality He never claimed to possess any superhuman qualities and the Quran also reiterated that he was only a human being Over the course of centuries however the hagiographical writings of Islamic historians almost amounted to his deification And in modern times when Western historians started sketching his historical biography the pendulum swung to the other extreme In complete disregard of his religious personality they viewed his life in purely mundane terms depicting him as a worldly character amenable to the vices of the time As a true historical sketch of his life has therefore become blurred in biographical works of both categories hagiographical accounts by the Muslim writers and motivated historiography by the Orientalists The Prophet of Islam in History evaluates historical writings about the Prophet by both types of writers and it presents a total and unbiased history of his life in a systematic and chronologically acceptable manner With different events of his life integrated in their true historical contexts it presents a gradual evolution of his religious as well as political personality Since the life of Muhammad is the key to understanding Islam amid its current aberrations as well as misrepresentations the subject assumes great importance in the quest to know what the founder of Islam actually preached

Muslims and Global Justice Abdullahi Ahmed An-Na'im, 2011-06-06 Over the course of his distinguished career legal scholar Abdullahi Ahmed An Na im has sought to reconcile his identity as a Muslim with his commitment to universal human rights In *Muslims and Global Justice* he advances the theme of global justice from an Islamic perspective critically examining the role that Muslims must play in the development of a pragmatic rights based framework for justice An Na im opens this collection of essays with a chapter on Islamic ambivalence toward political violence showing how Muslims began grappling with this problem long before the 9 11 attacks Other essays highlight the need to improve the cultural legitimacy of human rights in the Muslim world As An Na im argues in order for a commitment to human rights to become truly universal we must learn to accommodate a range of different reasons for belief in those rights In addition the author contends building an effective human rights framework for global justice requires that we move toward a people centered approach to rights Such an approach would value foremost empowering local actors as a way of negotiating the paradox of a human rights system that relies on self regulation by the state Encompassing over two decades of An Na im s work on these critical issues *Muslims and Global Justice* provides a valuable theoretical approach to the challenge of realizing global justice in a world of profound religious and cultural difference

Peace, Politics, and Religion Jeffrey Haynes, 2020-12-14 Relationships between peace politics and religion are often controversial and sometimes problematic Religion is a core source of identity for billions of people around the world and it is hardly surprising that sometimes it becomes involved in conflicts At the same time we can see religion involved not only in conflict It is also central to conflict resolution peace making and peacebuilding Religious involvement is often necessary to try to end hatred and differences frequently central to political conflicts especially but not only in the Global South Evidence shows that religious leaders and faith based organisations can play constructive roles in helping to end violence and in some cases build peace via early warnings of conflict good offices once conflict has erupted as well as advocacy mediation and reconciliation The chapters of this book highlight that religion can encourage both conflict and
