Rivers North Of The Future The Testament Of Ivan Illich:

The Rivers North of the Future David Cayley, 2005-02-26 In *The Rivers North of the Future* David Cayley has compiled Ivan Illich's moving and insightful thoughts concerning the fate of the Christian Gospel. Illich's view, which could be summed up as "the corruption of the best is the worst," is that Jesus' call to love more abundantly became the basis for new forms of power in the hands of those who organized and administered this New Testament. Illich also explores the invention of technology, the road from hospitality to the hospital, the criminalization of sin, the church as the template of the modern state, and the death of nature. Illich's analysis of contemporary society as a congealed and corrupted Christianity is both a bold historical hypothesis and a call to believers to reinvent the Christian church. With a foreword by Charles Taylor, Ivan Illich (1926-2002) was a brilliant polymath, an iconoclastic thinker, and a prolific writer. He was a priest, vice rector of a university, founder of the Centre for Intercultural Documentation in Cuernavaca, Mexico, and author of numerous books, including *Deschooling Society*, *Tools for Conviviality*, *Energy and Equity*, and *Medical Nemesis*.

Beyond Secular Order John Milbank, 2014-01-28 *Beyond Secular Order* is the first of a two-volume work that expands upon renowned theologian John Milbank's innovative attempt to understand both theology and modern thought begun in his previously published classic text *Theology and Social Theory*. *Continues Milbank's innovative attempt to understand both theology and modern thought begun in Theology and Social Theory*, considered a classic work in the development of systematic theology. Authored by one of the world's most influential and highly regarded contemporary theologians, it draws on a sweep of ideas and thinkers to argue that modern secularism is a form of Christian heresy that developed from the Middle Ages and can only be overcome by a renewed account of Christendom. Shows how this heresy can be transformed into a richer blend of religion, modernity, and politics. Reveals how there is a fundamental homology between modern ideas about ontology and knowledge and modern ideas about political action expressed in both theory and practice.

The Ethics of Grace Paul Martens, Michael Mawson, 2022-09-22 This volume draws together leading theologians and Christian ethicists from across the globe to critically engage with and reflect upon Gerald McKenny, widely acknowledged as one of the most original and important Christian ethicists working today. The essays highlight the significance of McKenny's interventions with a range of important debates in contemporary theological ethics, ranging from analyses of the Protestant conception of grace to bioethics and medicine. Reaching far beyond the work of Gerald McKenny, this multifaceted volume is a high-level resource for students and scholars of theological and philosophical ethics.

The Cambridge Companion to Apocalyptic Literature Colin McAllister, 2020-03-26 Apocalyptic literature has addressed human concerns for over two millennia. This volume surveys the source texts, their reception, and relevance.

Mission Revisited Pieter N. Holtrop, 2010 In the light of the centennial of the World Mission Conference in Edinburgh 1910, 2010 Dutch missiologists reflect on issues on the borderline between missiology and intercultural theology, with some international guests joining the choir. Organized in four parts, their

contributions open up new perspectives on the future of the discipline in terms of foundational theology contextuality gender and methodology Series ContactZone Explorations in Intercultural Theology Vol 10 **Convergence** Daniel J. Fick, Jesse K. Mileo, 2018-01-03 Philosophy and theology are important concepts for Christians This important work identifies how philosophy shapes theology while also addressing various philosophical issues that arise within the Bible and theology The hope is that this book will catapult the reader into critical thinking while creating an appetite and appreciation for these separate yet similar disciplines **Living the Sabbath (The Christian Practice of Everyday Life)** Norman Wirzba, 2006-12-01 Sabbath is one day a week when we should rest from our otherwise harried lives right In Living the Sabbath Norman Wirzba leads us to a much more holistic and rewarding understanding of Sabbath keeping Wirzba shows how Sabbath is ultimately about delight in the goodness that God has made in everything we do every day of the week With practical examples Wirzba unpacks what that means for our daily lives at work in our homes in our economies in school in our treatment of creation and in church This book will appeal to clergy and laypeople alike and to all who are seeking ways to discover the transformative power of Sabbath in their lives today On Soul and Earth Elena Liotta, 2013-12-16 On Soul and Earth offers an original perspective on the relationship between the environment and the human psyche Physical spaces contribute to the building of identity through personal experience and memory Places evoke emotions and carry their own special meanings Elena Liotta and her contributors also explore the neglected topics of migration and travel The author has extensive clinical experience of working with patients from a wide variety of national and cultural backgrounds Globalization is present in the clinical office as well as in the wider world and the transformations currently being wrought in the areas of cultural and national identity also impact on clinical work This book will be of interest to Jungian analysts as well as psychotherapists and mental health professionals especially those who are addressing transcultural and multicultural issues including voluntary or enforced migration It will also appeal to urban planners architects and those interested in environmental issues **The Palgrave Handbook of Mimetic Theory and Religion** James Alison, Wolfgang Palaver, 2017-10-19 The Palgrave Handbook of Mimetic Theory and Religion draws on the expertise of leading scholars and thinkers to explore the violent origins of culture the meaning of ritual and the conjunction of theology and anthropology as well as secularization science and terrorism Authors assess the contributions of Ren Girard s mimetic theory to our understanding of sacrifice ancient tragedy and post modernity and apply its insights to religious cinema and the global economy This handbook serves as introduction and guide to a theory of religion and human behavior that has established itself as fertile terrain for scholarly research and intellectual reflection **Apocalypse & Totalitarianism** John Dik, Oleg Dik, 2025-07-14 In this volume the contributions analyze diverse apocalyptic phenomena religious and secular alike The authors use the category of entanglements in order to demonstrate that the terms religious and secular remain ideal type abstractions which dissolve upon a closer empirical look They converge on the assumption that apocalypse as literature

genre and lens of interpretation either leads towards emancipation or totalitarian control The role of apocalypse in the advance of modernity is analyzed and how the once religious concept changes through secularization and adaptation by various movements on the political spectrum The main goal is to achieve mutual appreciation by both religious and secular actors alike who seek to enhance the common good Both the church and secular society must humbly recognize that each needs the other The church must recover its apocalyptic roots and the secular society admit its limitations

Postphenomenology and Technologies within Educational Settings Markus Bohlmann, Patrizia Breil, 2024-12-20 Technologies such as tablets plagiarism software and learning videos are now an important part of teaching and learning around the world The underlying human technology relations that shape modern educational settings have a decisive influence on what education is and will be in the future This volume applies the analytical tools of postphenomenology to the context of education In three sections the contributors present empirical evidence on the use of technology in schools show conceptual convergences with current theories relevant to education and training and challenge and reframe the technologically situated subject as the goal of education in relation to technology This collection edited by Markus Bohlmann and Patrizia Breil opens up the research field of postphenomenology to the broad field of educational technologies Postphenomenology and Technologies Within Educational Settings extends the scope of the philosophy of technology and further expands its repertoire of theories and analytical tools

Sex, Moral Teaching, and the Unity of the Church Timothy F. Sedgwick, 2014-10 Respected Episcopal ethicist Timothy F Sedgwick provides an alternative viewpoint on the homosexuality debate on the proposed Anglican Covenant and on mission and ministry He deals insightfully with what he thinks is a mistaken assumption in the Church and advances a cogent argument that the church needs to be clear in forming its moral teaching whether liberal or conservative The right question Sedgwick maintains is how do we teach morals and order our life accordingly This book evolved from his work over the last decade addressing same sex issues in the national church Chapters include Homosexuality Teaching and Governance in the Episcopal Church The Anglican Covenant What are Bishops for Anglican Roman Catholic Dialogue The Unity We Seek Moral Teaching Formation and the Mission of the Church A timely and lucid treatment of the single most controversial topic in the Episcopal Church Written by a preeminent Episcopal ethicist

State of Affairs Richard J. Coleman, 2014-10-24 The last sixty years have witnessed a virtual explosion of interest in how modern science and traditional Christianity intersect This new rapprochement with science has irrevocably altered how we think of God It constitutes a foundation from which we cannot retreat but from which we also cannot move forward until we examine the presumptions on which it is based For the first time Richard Coleman interprets in a clear and meaningful way the themes and practitioners that make this rapprochement different and what it has achieved But this book is more than description it is an inquiry into whether Christian theology has lost its authentic voice by its singular focus on accommodating modern science

Teachers and Teaching Kaustuv Roy, 2019-07-10 Against the backdrop of a historical

debate between science and philosophy with regard to the nature of time this book argues that our commonsense understanding of time is inadequate especially for education Teachers work is heavily imbued with the effects of clock time and yet there is another time duration which remains out of sight precisely because our sights are filled with temporal things and projections of futurity The book rests primarily on Henri Bergson s work on time and works toward intuition as phenomenological method for the discovery of a creative time in experience

Rethinking Curriculum in Times of Shifting Educational Context Kaustuv Roy, 2017-07-25 This book engages with the dynamic intersection of several domains such as philosophy psychology sociology and pedagogy in order to critically analyze and reinvent our understanding of curriculum The chapters raise important questions such as what are the conditions of possibility for a living curriculum in which Eros and intellect or reason and intuition are not separated How is it possible to escape ideology that keeps us bound to defunct categories What are the ingredients of an inquiry that is able to grasp curriculum as an expanding interpersonal movement How do the teacher learner ensemble get creatively constituted beyond obstructive dualities How can we reinvent meaning in curriculum without totalization Which indigenous understandings can be recovered in order to reinvent curriculum with greater relevance for diverse peoples This volume addresses elements of reason nonreason becoming dissipation violence uncertainty transcendence love and death in order to come to a critical understanding of the relationship between knowledge and knower from these multiple perspectives

The Development Dictionary @25 Aram Ziai, 2020-05-21 Few books in the history of Development Studies have had an impact like The Development Dictionary A Guide to Knowledge as Power which was edited by Wolfgang Sachs and published by Zed Books in 1992 The Development Dictionary was crucial in establishing what has become known as the Post Development PD school This volume is devoted to the legacy of The Development Dictionary and to discussing Post Development This book originally published as a special issue of Third World Quarterly

Limits of the Secular Kaustuv Roy, 2016-12-09 This book facilitates a missing dialogue between the secular and the transsecular dimensions of human existence It explores two kinds of limits of the secular the inadequacies of its assumptions with respect to the total being of the human and how it curbs the ontological sensibilities of the human Kaustuv Roy argues that since secular reason of modernity can only represent the empirical dimension of existence humans are forced to privatize the non empirical dimension of being It is therefore absent from the social imaginary as well as public discourse This one sidedness is the root cause of many of the ills facing modernity Roy contends that a bridge consciousness that praxeologically relates the secular and the non secular domains of experience is the need of the hour

Conviviality in Contexts of Religious Plurality Andrea Bieler, Claudia Hoffmann, Lisa Ketges, 2025-02-27 How do religious individuals communities and political institutions navigate diversity and how do they foster social cohesion This volume focuses on convivial practices in religiously diverse settings and includes theoretical empirical and practice oriented approaches Through an interdisciplinary lens the contributors examine conceptual reflections boundary work rituals

multilingualism and spatial dynamics This volume represents an important milestone in conviviality research and provides valuable insights for further research in the fields of theology religious studies and sociology

Messianic Political Theology and Diaspora Ethics P. Travis Kroeker, 2017-11-09 Political theology as a normative discourse has been controversial not only for secular political philosophers who are especially suspicious of messianic claims but also for Jewish and Christian thinkers who differ widely on its meaning These essays mount an argument for a Messianic Political Theology rooted in an interpretation of biblical especially Pauline Augustinian and Radical Reformation readings of messianism as a thoroughly political and theological vision that gives rise to what the author calls Diaspora Ethics In conversation also with Platonic Jewish and Continental thinkers Kroeker argues for an exilic practice of political ethics in which the secular is built up theologically from below in the form of public service that flows from messianic political worship Such a weak messianic power practiced by the messianic body inhabits an apocalyptic political economy in which the mystery of love and the mystery of evil are agonistically unveiled together in the power of the cross not as an instrument of domination but in the form of the servant This is not simply a matter of pacifism but of a messianic posture rooted in the renunciation of possessive desire that pertains to all aspects of everyday human life in the household *oikos* the academy and the polis

The Political Samaritan Nick Spencer, 2017-11-16 Nick Spencer sets out to rescue an innocent parable mugged for political ends ignored by passers by and then left for half dead at the edge of the English language The parable of the Good Samaritan has been used by almost every major British politician over recent years from Theresa May and Tony Blair to Margaret Thatcher and Jeremy Corbyn But they don't all use it to say the same thing Discussing the various figures who've politicised the Samaritan Spencer described by the Economist as like a prophet crying in the post modern wilderness explains why and how Jesus' famous parable got mixed up in politics From abolitionists to warmongers prime ministers to activists such as Dr Martin Luther King he uncovers the reasons for the parable's popularity and then asks the killer question who gets it right If the Good Samaritan has been dragged on to the political stage whose side is he on
