

Rivers for the Future

Here at American Rivers, we are driven to make more and more rivers sources of health, prosperity, and joy — for everyone, no matter who you are or where you live. This is what our vision of the future looks like and how we'll get there, together.

Restoring floodplains and wetlands will improve vital wildlife habitat and keep communities safer against flooding.

Protecting 1 million miles of rivers will ensure fish and wildlife can access healthy upstream habitat as their homes grow hotter and drier.

Protecting rivers and nature near where most people live will make our communities more resilient to drought and flooding, and allow people to access the outdoors.

Reversing the damage caused by hydropower dams will dramatically improve aquatic species survival.

Removing 30,000 harmful dams will reverse decline of migratory wildlife and fish, and help keep water sources cleaner.

Cleaning up pollution and ensuring communities have plentiful clean water will improve our cities and the well-being of people who live in them.

Making sure every river has a community of people speaking up for it will make it possible to create a future of abundant, clean water for all of us.

Advocating for laws that keep waters clean for drinking, fishing, and swimming ensures rivers can be a gateway to health and recreation.

Transforming urban rivers into healthy gathering spots for neighborhoods will inspire the next generation of community leaders, artists, and visionaries.

Rivers And People:

The People of the River Oscar de la Torre, 2018-08-17 In this history of the black peasants of Amazonia Oscar de la Torre focuses on the experience of African descended people navigating the transition from slavery to freedom He draws on social and environmental history to connect them intimately to the natural landscape and to Indigenous peoples Relying on this world as a repository for traditions discourses and strategies that they retrieved especially in moments of conflict Afro Brazilians fought for autonomous communities and developed a vibrant ethnic identity that supported their struggles over labor land and citizenship Prior to abolition enslaved and escaped blacks found in the tropical forest a source for tools weapons and trade but it was also a cultural storehouse within which they shaped their stories and records of confrontations with slaveowners and state authorities After abolition the black peasants knowledge of local environments continued to be key to their aspirations allowing them to maintain relationships with powerful patrons and to participate in the protest cycle that led Get lio Vargas to the presidency of Brazil in 1930 In commonly referring to themselves by such names as sons of the river black Amazonians melded their agro ecological traditions with their emergent identity as political stakeholders

Rivers and Resilience Heather Goodall, Allison Cadzow, 2009 We started swimming in the Georges River at Liverpool We were river girls It was our little stamping ground Judy Chester **The River People in Flood Time** Terry Rugeley, 2014-09-10 The River People in Flood Time tells the astonishing story of how the people of nineteenth century Tabasco Mexico overcame impossible odds to expel foreign interventions Tabascans resisted control by Mexico City overcame the grip of a Cuban adventurer who seized the region for two years turned back the United States Navy and defeated the French Intervention of the early 1860s thus remaining free territory while the rest of the nation struggled for four painful years under the imposed monarchy of Maximilian With colorful anecdotes and biographical sketches this deeply researched and masterfully written history reconstructs the lives and culture of the Tabascans as well as their pre Columbian and colonial past Rugeley reveals how over the centuries one colorful character after another sets foot on the Tabascan stage only to be undone by climate disease and more than anything else tenacious Tabascan resistance Virtually the only English language study of this little known province River People in Flood Time explores the ways in which geography climate and social relationships contributed to an extraordinarily successful defense against unwelcome meddling from the outside world River People in Flood Time demonstrates the complex relationship between imperial forces in relation to remote parts of Latin America and the way that resistance to external pressure helped mold the thoughts attitudes and actions of those remote peoples Nineteenth century Mexico was more a land of localities than a unified nation and Rugeley s narrative paints an indelible portrait of one of its least known and most unique provinces *Big Rivers Electric Cooperative Foreclosure* United States.
