## **Road From Paradise Prospects For Democ:**

**The Road from Paradise** Stjepan Gabriel Me\_trovi\_,1993-01-01 The 1989 fall of communism in Eastern Europe occurred in a period when Western intellectuals were involved in a confusing discourse on a number of other dramatic endings the end of modernity the end of the century even the possible end of sociology Against this backdrop the authors focus on continuities based on the habits of the heart of those who threw off communism in Eastern Europe contrasting them with Western modes of thought Their cultural explanation draws on theories of Tocqueville Durkheim and others to examine positive as well as negative aspects of the nations that survived communism While focusing on the Balkans they also make cautious prognoses for the rest of Eastern Europe

**Multiplicity of Nationalism in Contemporary Europe** Ireneusz Paweł Karolewski,Andrzej Marcin Suszycki,2010-01-01 Nationalism remains one of the key political societal and socio psychological phenomena in contemporary Europe The international scholars assembled in this edited collection suggest that the use of three perspectives supranationalism boundary making nationalism and regional nationalism may be promising as an explanatory framework for the analysis of nationalism in Europe The volume distances itself from older dichotomies such as civic and ethnic nationalism and questions the one sided normativity of nationalism in particular regarding the concept of liberal nationalism It argues that a promising approach to contemporary nationalism should reflect the multiplicity of nationalism

*The Balkanization of the West* Stjepan Mestrovic,2004-08-02 This book takes the lid off the confused Western response to the Balkan war The author raises a series of timely and acute questions about the future of postmodernism and postcommunism

*The SAGE Handbook of the Sociology of Religion* James A Beckford,Jay Demerath,2007-10-29 In their introduction to this Handbook the editors affirm Many sociologists have come to realise that it makes no sense now to omit religion from the repertoire of social scientific explanations of social life I wholeheartedly agree I also suggest that this wide ranging set of essays should become a starting point for such enquiries Each chapter is clear comprehensive and well structured making the Handbook a real asset for all those engaged in the field Grace Davie University of Exeter Serious social scientists who care about making sense of the world can no longer ignore the fact that religious beliefs and practices are an important part of this world This Handbook is a valuable resource for specialists and amateurs alike The editors have done an exceptionally fine job of incorporating topics that illuminate the range and diversity of religion and its continuing significance throughout the world Robert Wuthnow Princeton University At a time when religions are increasingly affecting and affected by life beyond the narrowly sacred sphere religion everywhere seems to be caught up in change and conflict In the midst of this contention and confusion the sociology of religion provides a rich source of understanding and explanation This Handbook presents an unprecedentedly comprehensive assessment of the field both where it has been and where it is headed Like its many distinguished contributors its topics and their coverage are truly global in their reach The Handbook s 35 chapters are organized into eight sections basic theories and debates methods of studying religion social forms and

experiences of religion issues of power and control in religious organizations religion and politics individual religious behaviour in social context religion self identity and the life course and case studies of China Eastern Europe Israel Japan and Mexico Each chapter establishes benchmarks for the state of sociological thinking about religion in the 21st century and provides a rich bibliography for pursuing its subject further Overall the Handbook stretches the field conceptually methodologically comparatively and historically An indispensable source of guidance and insight for both students and scholars Choice Outstanding Academic Title 2009 *The American Bibliography of Slavic and East European Studies* Patt Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology For East is East Wojciech Skalmowski, 2003 The *liber amicorum* is a collection of 40 articles written by Polish Russian Belgian and French philologists about the themes of the jubilarian s interests and academic research general linguistics comparatism and etymology relations between Poland and the World modern Polish literature Russian literature and culture 18 20th century The contributions are representative for the varied horizon of historical linguistic literary and cultural interests of Prof Skalmowski Balkan holocausts? David Bruce MacDonald, 2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license Comparing and contrasting propaganda in Serbia and Croatia from 1986 to 1999 this book analyses each group s contemporary interpretations of history and current events It offers a detailed discussion of Holocaust imagery and the history of victim centred writing in nationalist theory including the links between the comparative genocide debate the so called Holocaust industry and Serbian and Croatian nationalism There is a detailed analysis of Serbian and Croatian propaganda over the Internet detailing how and why the Internet war was as important as the ground wars in Kosovo Croatia and Bosnia Hercegovina and a theme by theme analysis of Serbian and Croatian propaganda using contemporary media sources novels academic works and journals *Uncertain Path* Rudolf Martin Rizman, 2006-06-07 In this case study of the politics of transition in Eastern Europe Rudolf Martin Rizman provides a careful detailed sociological explanation and narrative on the emergence of independent statehood and democracy in Slovenia a small state whose experience is of interest to policy makers scholars and serious students of Eastern Europe In his focus on the transition from an authoritarian to a democratic regime Rizman analyzes social processes and political issues in the context of the Third Wave of democratization identifying zones of certainty and uncertainty Challenging many generally accepted ideas about small states and their transitions to democracy this book places Slovenia s pattern of democratization in the wider regional context of eastern and central European post communist transitions Rizman shows for example that a country s size is merely one factor out of many and while Slovenes considered the influence of larger states their choices were not particularly circumscribed by them Opening with a discussion of the relevant theoretical environment in sociology and political science

Rizman illuminates the complex processes of democratic transition and consolidation. From there the book analyzes the internal and external processes and factors relevant for Slovenia's successful trajectory from existence as an ethnically defined sub nation to an internationally recognized nation state. After careful consideration of religious, political, military, intellectual, and other socio-political stakeholders in the region, including the somewhat disturbing evidence of the salience of a new radical Right, Rizman concludes that Slovenia is irreversibly set on the course of democratization, with indications of having reached the early stages of consolidation.

Holy Nations and Global Identities, 2009-09-28

Along with the processes of globalisation and the end of the cold war, we have seen an upsurge in religious nationalism and an increasing focus on the role of religion as a legitimising force in democratic secular states. Holy Nations Global Identities draws on the combined theoretical and historical insight of historians, political scientists, and social scientists on the question of nationalism and globalisation, with the methodological knowledge of religion presented by sociologists of religion. The book brings genuine theoretical explorations and original case studies on civil religion, nationalism, and globalization. It also provides an introduction to the research history of the fields and aims to develop and elaborate on the theories and methodology of the investigated subjects.

**Cultural Politics** Marcy Darnovsky, 2010-06-10

Bridging the worlds of activism and academia, this volume combines social movement theory with the real experiences of activists.

**Siena, Civil Religion and the Sieneese** Gerald Parsons, 2017-05-15

Siena is often referred to as the City of the Virgin and the City of the Palio. The special devotion of the Sieneese to the Virgin began in the thirteenth century, and in times of danger, the Sieneese have regularly rededicated their city to the Madonna, who is also celebrated in the twice yearly festival of the Palio. Siena Civil Religion and the Sieneese examines Sieneese devotion to the Virgin from the medieval period until the present day. Exploring how the Palio has become the principal means of sustaining and celebrating Sieneese culture, values, and identity, including popular devotion to the Virgin, Parsons shows how this festival stands in continuity with the earlier civil religion of medieval and renaissance Siena. Drawing on insights from recent discussion of the role of civil religion in medieval and renaissance Italy, the USA, and modern Britain, this book explores how civil religion sustains the Sieneese sense of their history, identity, and uniqueness through a variety of beliefs, rituals, ceremonies, and symbols. Highly illustrated and including a full bibliography, this book breaks new ground in interpreting Sieneese devotion to the Virgin and to the Palio in terms of civil religion.

**Living Under Water** Kevin J. Adams, 2022-01-25

Our truest identity isn't something we create or build ourselves. It's a gift we receive. We live under water. What does baptism mean? And what do we do with it? Kevin Adams, an experienced pastor and church planter who has baptized people of all ages and spiritual origins, makes the case that baptism isn't merely a one-time ceremony but something to be lived and affirmed throughout one's life. In Living Under Water, Adams shares stories that illustrate how baptism shapes one's identity and enters us into an alternate narrative, one ongoing since the dawn of creation, through which we understand our truest selves with all

our joy and trauma and by which we are united with a group of people unbound by race or language continent or generation Foregrounding baptism in the lives of Christians means foregrounding baptism in the life of the church Anchored in both theology and real world experience Adams shows how that can happen while engaging honestly with the history and ongoing reality of baptism s corruptions and abuses This book is for pastors and parishioners of any Christian tradition who long for baptism to be bigger than a set of doctrinal bullet points nothing less than the gospel story enacted with water Revolution And Transition In East-central Europe David Mason,2018-10-08 Eastern and Western Europe continue to change in their relationship to one another and in their ongoing dynamic with the post Soviet states Economic development electoral upheaval and the Bosnian crisis all color the transition from communism to democracy and from a Cold War outlook to a new global order still taking shape In this fully revised and updated edition of his popular and critically acclaimed text David Mason brings the revolutionary events of 1989 into context with the transitional yet turbulent 1990s We see new parties new politics new constitutions and new opportunities in light of economic shock therapies left turns in recent elections and dissolving sovereignties and alliances Despite savage ethnic conflict economic scarcity and political insecurity Mason shows us that East Central Europe is consolidating and reemerging as a region to be reckoned with on the global stage

**Perspectives on Civil Religion** Gerald Parsons,2017-10-23 This title was first published in 2002 Perspectives on Civil Religion introduces the concept of civil religion examines the use of the concept in recent scholarship and investigates examples of civil religion in the contemporary world The book sets out to explore tensions and complexities in the relationship between the sacred and the secular and draws on two major case studies for in depth illustration of key issues It looks first at the development of rituals of remembrance from the American civil war British and American responses to the two world wars and the controversial Vietnam Veterans Memorial in Washington It then considers civil religion in the Italian city of Siena especially in relation to the Palio of Siena and Sienese devotion to the Virgin The five textbooks and Reader that make up the Religion Today Open University Ashgate series are From Sacred Text to Internet Religion and Social Transformations Perspectives on Civil Religion Global Religious Movements in Regional Context Belief Beyond Boundaries Religion Today A Reader **Anthony Giddens** Stjepan Mestrovic,2005-08-31 Anthony Giddens is arguably the world s leading sociologist In this controversial contribution to the Giddens debate Stjepan Mestrovic takes up and criticizes the major themes of his work particularly the concept of high modernity as opposed to postmodernity and his attempted construction of a synthetic tradition based on human agency and structure Testing Giddens theories against what is happening in the real world from genocide in Africa to near secession in Quebec Mestrovic discerns in the construction of synthetic traditions not the promise of freedom held out by Giddens but rather the ominous potential for new forms of totalitarian control The Puritan Culture of America's Military Ronald Lorenzo,2016-02-24 This book explores Puritanism and its continuing influence on U S and military law in the Global War on Terror exploring connections between Puritanism

and notions of responsibility in relation to military crimes superstitious practices within the military and urges for revenge Engaging with the work of figures such as Durkheim Fauconnet and Weber it draws on primary data gathered through participation and observation at the U S Army courts martial following events at Abu Ghraib Operation Iron Triangle the Baghdad canal killings and a war crimes case in Afghanistan to show how Puritan cultural habits color and shape both American military actions and the ways in which these actions are perceived by the American public A theoretically sophisticated examination of the cultural tendencies that shape military conduct and justice in the context of a contemporary global conflict *The Puritan Culture of America's Military* will appeal to scholars across the social sciences with interests in social theory and sociology cultural studies politics and international relations and military studies Notes from Underground Thomas Cushman,1995-07-06 *Notes From Underground* offers the first Western sociological study of rock music and counterculture in Russian society Based on participant observation in depth interviews and life history analysis the author provides a detailed ethnographic examination of the origins and local meanings of rock music and the countercultural way of life of rock musicians in St Petersburg during the socialist period of Russian history Rock music served as the basis for alternative forms of individual and collective identity which stood as beacons of difference and resistance in the bleak cultural environment of socialist industrial society Cushman explores the experiences of members of the St Petersburg musical community after the dissolution of the Soviet Union in order to shed light on the following questions What happens to oppositional underground culture when it comes up from the underground What is the fate of Russian rock music and those who make it under new conditions of the rapid capitalist rationalization of post Soviet Russian society The book traces the experiences of musicians in new capitalist culture markets both in Russia and in Western societies to illustrate the more general process of commercialization of dissent which is taking place in post communist societies Russia's entrance into the path of Western capitalist modernity is viewed not so much as a path to freedom and cultural autonomy but as the intersection of two trajectories of modernity that has given rise to new and unique cultural dilemmas It concludes with an examination of important theoretical issues about the problematic relationship between capitalism cultural freedom and democracy in contemporary Russian society *The Cult of Saint Catherine of Siena* Gerald Parsons,2017-03-02 This book examines the origins development and history of the cult of Saint Catherine of Siena Gerald Parsons argues that the cult of Catherine of Siena constitutes a remarkable example of the cult of a particular saint which across more than six centuries has been the vehicle for an evolving sequence of civil religious rituals and meanings He shows how the cult of this particular saint developed firstly as an expression of Sieneese civil religion secondly as a focus for Italian civil religion and finally into an expression of European civil religion Instead of the predominantly devotional and frequently essentially hagiographical approach of much of the literature on Catherine of Siena Parsons examines the significance of her cult from the perspective of civil religion and the social history of religion Explaining Yugoslavia John B. Allcock,2000 Traversing the politics

economics demography and culture of the former Yugoslavia John B Allcock examines and makes sense of the region s troubled past and troubling present Though many think of the Balkans as a uniquely troubled region the author asserts that the continuities in Balkan history constitute the same processes of development that have occurred in other societies and are part of the ongoing process of global modernization
