Road Movie:

The Road Movie Neil Archer, 2016-01-12 Though often seen as one of America's native cinematic genres the road movie has lent itself to diverse international contexts and inspired a host of filmmakers As analyzed in this study from its most familiar origins in Hollywood the road movie has become a global film practice whether as a vehicle for exploring the relationship between various national contexts and American cinema as a means of narrating different national and continental histories or as a form of individual filmmaking expression Beginning with key films from Depression era Hollywood and the New Hollywood of the late 1960s and then considering its wider effect on world cinemas this volume maps the development and adaptability of an enduring genre studying iconic films along the way **The Road Movie Book** Steven Cohan, Ina Rae Hark, 2002-01-04 The Road Movie Book is the first comprehensive study of an enduring but ever changing Hollywood genre its place in American culture and its legacy to world cinema The road and the cinema both flourished in the twentieth century as technological advances brought motion pictures to a mass audience and the mass produced automobile opened up the road to the ordinary American When Jean Baudrillard equated modern American culture with space speed cinema technology he could just as easily have added that the road movie is its supreme emblem The contributors explore how the road movie has confronted and represented issues of nationhood sexuality gender class and race They map the generic terrain of the road movie trace its evolution on American television as well as on the big screen from the 1930s through the 1980s and finally consider road movies that go off the road departing from the US landscape or travelling on the margins of contemporary American culture Movies discussed include Road classics such as It Happened One Night The Grapes of Wrath The Wizard of Oz and the Bob Hope Bing Crosby Road to films 1960's reworkings of the road movie in Easy Rider and Bonnie and Clyde Russ Meyer's road movies from Motorpsycho to Faster Pussycat Kill Kill Contemporary hits such as Paris Texas Rain Man Natural Born Killers and Thelma and Louise The road movie Australian style from Mad Max to the Adventures of Priscilla Queen of the Desert **Road Movies** Devin Orgeron, 2008-04-09 Road Movies engages with two foundational twentieth century technologies cinematic and automotive It is a book about road movies a genre burdened by its own seductiveness It is also however a book about images of human mobility more generally and the social function those images have served From Eadweard Muybridge's pre cinematic experiments through contemporary films by David Lynch and Abbas Kiarostami road movies are part of a larger imagistic tradition focused on the social costs of modernity and the consequences of a culture moving often quite rapidly away from the stabilizing structures of community and communication Road Movies D. Orgeron, 2007-12-09 Road Movies engages with two foundational twentieth century technologies cinematic and automotive It is a book about road movies a genre burdened by its own seductiveness It is also however a book about images of human mobility more generally and the social function those images have served *The French Road Movie* Neil Archer, 2012 The traditionally American genre of the road movie has been

explored and reconfigured in the French context since the later 1960s Comparative in its approach this book studies the inter relationship between American and French culture and cinemas and in the process considers and challenges histories of the road movie It combines film history with film theory methodologies analysing transformations in social political and film industrial contexts alongside changing perspectives on the meaning and possibilities of film At once chronological and thematic in structure *The French Road Movie* provides in each chapter a comprehensive introduction to key themes emerging from the genre in the French context liberty identity and citizenship masculinity femininity border crossing followed by detailed innovative and often revisionist readings of the chosen films Through these readings the author justifies the place of the road genre within French cinema histories and reinvigorates this often neglected and misunderstood area of study

The Latin American Road Movie Verónica Garibotto, Jorge Pérez, 2016-07-28 This volume explores the ways films made by Latin American directors and or co produced in Latin American countries have employed the road movie genre to address the reconfiguration of the geographical sociopolitical economic and cultural landscape of Latin America

Lost Highways, Embodied Travels: The Road Movie in American Experimental Film and Video Kornelia Boczkowska, 2023-02-06 Often identified as one of the most genuine and enduring American film genres the road movie has never been explored in the context of experimental filmmaking To fill this gap *Lost Highways Embodied Travels* provides the first book length study of over eighty unique and often obscure films and videos and situates them within the corporeal turn in American avant garde cinema so far mostly associated with body genres and sexually explicit films Drawing on unpublished archival materials the book offers a fresh take on both past and current practices of the experimental film community for scholars students makers and film buffs

The Latin American (Counter-) Road Movie and Ambivalent Modernity Nadia Lie, 2017-02-09 This book offers a comprehensive and systematic overview of the flourishing genre of the contemporary Latin American road movie of which *Diarios de motocicleta* and *Y tu mamá también* are only the best known examples It offers the first systematic survey of the genre and explains why the road movie is key to contemporary Latin American cinema and society Proposing the new category of counter road movie and paying special attention to the genre's intricate relationship to modernity Nadia Lie charts the variety of the road movie through films by both renowned and emerging filmmakers *The Latin American Counter Road Movie and Ambivalent Modernity* engages with ongoing debates on transnationalism and takes the reader along a wide range of topics from exile to undocumented migration from tourism to internally displaced people

The Figure of the Road Christopher D. Morris, 2007 *The Figure of the Road* examines the metaphor of the road way or path in works of representative humanities disciplines literature religion philosophy visual art popular culture to show how writers and artists anticipated the dilemma known to contemporary deconstruction as the aporia or pathless place This tradition exposes the solution advocated in Derrida's late thought the search for the tout autre as a negative theology and suppression of writing's freedom to allegorize these insoluble problems *The Figure of the Road* concludes by tracing the

bleak Beckett like implications of this freedom for curriculum and ethics in a world understood as wholly figural *The Motorcycle Diaries* Nadia Lie, 2022-09-02 The first monograph to examine Walter Salles *The Motorcycle Diaries* this book explains the significance of Salles film with respect to the specific category of youth culture as a historically and culturally situated concept *The Motorcycle Diaries* looks at the film's engagement with emerging adulthood the importance of travel as a source of self discovery and the film's impact on the iconicity of Che Guevara the international emblem of a restless rebellious youth Combining insights from transnational film studies tourism studies and affect theory as well as drawing on extensive historical materials this book provides not only a necessary addition to existing scholarship on this popular movie but also an inspiring model for the analysis of film in relation to youth culture a burgeoning field of interest in Latin American scholarship It will interest any scholar in film studies specifically transnational cinemas global cinema Latin American cinema Latin American history postcolonial studies cultural studies tourism studies and global politics The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
