Friedland, 2010-02-22 Jonathan Geller an ambitious young academic is struggling to build a new life for himself in the US An American born Jew who had immigrated to Israel with his family as a child Geller fled the Jewish State after a deadly incident that occurred during his service in the Israeli army Ten years into his self imposed exile Geller's younger brother is killed in the line of duty so he reluctantly returns to Israel to attend the funeral Once back Geller is forced to confront his broken family and a life and country he thought he had left behind for good Colored by his own military experiences he begins to question the circumstances of his brother's death Aided by a mysterious source a childhood friend an old flame and his brother's girlfriend a fiery young redhead he slowly uncovers the truth a path that embroils him in a deadly clandestine chess game between two opposing forces each fighting for what they believe is the very soul of the Jewish state A fast paced character driven thriller A House Divided provides an authentic first hand look into Israeli society and its legendary military Unlike many other books in this genre which have focused on the Arab Israeli conflict this work examines the long term effects of almost one hundred years of conflict on a nation deeply divided on how best to define its future It also explores how a wounded family whose bonds have been weakened by distance and time copes with adversity and loss Hadassah Magazine Friedland has written a good story that shows an intimate knowledge of the military the landscape of Israel and the effect of the ongoing conflict on the country's citizens **Archive Collection of The Other Israel, Newsletter of the Israeli Council for**

Israeli-Palestinian Peace, 1983 **Invariance, Markedness and Distinctive Feature Analysis** Yishai Tobin, 1994-12-15 This volume provides a new kind of contrastive analysis of two unrelated languages English and Hebrew based on the semiotic concepts of invariance markedness and distinctive feature theory It concentrates on linguistic forms and constructions which are remarkably different in each language despite the fact that they share the same familiar classifications and labels Tobin demonstrates how and why traditional and modern syntactic categories such as grammatical number verb tense aspect mood and voice conditionals and interrogatives etc are not equivalent across languages It is argued that these so called universal concepts function differently in each language system because they belong to distinct language specific semantic domains which are marked by different sets of semantic features The data used in this volume have been taken from a wide range of both spoken and written discourse and texts reflecting people's actual use of language presented in their relevant linguistic and situational contexts **Israel** Anita Shapira, 2014-08-05 A history of Israel in the context of the modern Jewish experience and the history of the Middle East **Out of This World** Rachel S.

present day output Cordasco then breaks down each chapter by subgenre including science fiction fantasy and horror to guide readers toward the kinds of works that most interest them Her discussion of available SFT stands alongside an analysis of how various subgenres emerged and developed in a given language She also examines the reasons a given subgenre has been translated into English An informative and one of a kind guide Out of This World offers readers and scholars alike a tour of speculative fiction s new globalized era Israelis in Conflict Adriana Kemp,Uri Ram,David Newman,Oren

Yifta,2014-06-01 Globalisation and increased cultural heterogeneity have had a major impact on states whose identity has been defined in terms of a single often socially constructed allegiance to the state and a single hegemonic ideology Nowhere are changing notions of identity more prevalent than in Israel a country whose dominant Western Jewish society has been subject to understanding their past and present in terms of a single ideology of state formation Zionism This book challenges some of the traditional analytical paradigms prevalent in Israeli social science for the past fifty years Philosophy and Geography III Andrew Light,Jonathan M. Smith,1998 Places are today subject to contrary tendencies They lose some functions which may scale up to fewer more centralized places or down to numerous more dispersed places and they gain other functions which are scaling up and down from other places This prompts premature prophecies of the abolition of space and the obsolescence of place At the same time a growing literature testifies to the persistence of place as an incorrigible aspect of human experience identity and morality Place is a common ground for thought and action a community of experienced particulars that avoids solipsism and universalism It draws us into the philosophy of the ordinary into familiarity as a form of knowledge into the wisdom of proximity Each of these essays offers a philosophy of place and reminds us that such philosophies ultimately decide how we make use and understand places whether as accidents instruments or fields of care
