山口, 1999-12 This volume of essays by seven Japanese economists and political scientists examines the long term prospects of the ASEAN 10 economies and their relations with major trading partners **Southeast Asia Transformed** Chia Lin Sien, 2003 Southeast Asia with a total population of 520 million remains a region characterized by fragmentation diversity and considerable internal conflict despite the unifying influence of the Association of Southeast Asian Nations ASEAN formed some thirty five years ago In the new millennium it has lost the distinction of being one of the worlds faster growing group of economies since the 1997 financial crisis While it has benefited from the winds of globalization it has now to cope with the painful adjustments to problems that stem from the inadequacies of good governance and structural changes Asian Regionalism, Canadian and Indian Perspectives Charan D. Wadhwa, Yuen Pau Woo, 2005 Canada and India are in many ways natural partners two middle powers sharing a common political and legal tradition derived from the British Commonwealth as well as a commitment to multiculturalism democracy and international institutions India's founding Prime Minister Jawaharlal Nehru had a personal friendship with Canadian Prime Ministers Trudeau and Pearson Despite this promising start bilateral relations never took flight a function of Cold War politics India's relative isolation through much of the post independence period the enormous distance between the two countries and deep disagreements over India's testing of nuclear weapons in 1974 and 1998 By the start of the new millennium India and Canada were ready to embark on a new phase in bilateral relations one defined not only by trade and investment interests but also by a contemporary understanding of their standing in the world and the potential contribution that both countries can make to issues of regional and global significance **The 2nd ASEAN Reader** Sharon Siddique, Sree Kumar, 2003-10-17 A sequel to the first ASEAN Reader Some of the classic readings from the original ASEAN reader have been incorporated into this new compilation but the majority of the readings cover events of the past decade 1993-2003 During this decade ASEAN as an organization was revamped and its membership increased from six to ten

山口, 山口, 1999-12 This volume of essays by seven Japanese economists and political scientists examines the long term prospects of the ASEAN 10 economies and their relations with major trading partners **The Dimensions of Regional Trade Integration in Southeast Asia** Zakir Hafez, 2021-10-01 This is the first comprehensive work on the free trade area of the Association of Southeast Asian Nations ASEAN Free Trade Area AFTA The author argues that in practice the free trade area of ASEAN is a failure and that unless AFTA leaders take serious measures to improve it it will change from being not that useful into being completely useless Published under the Transnational Publishers imprint Indonesia and the ASEAN Free Trade Agreement Alexander C. Chandra, 2008-01-01 Chandra provides a political economic analysis of the dynamic relationship between ASEAN economic integration and Indonesian nationalism This book is suitable for those interested in contemporary

Southeast Asian affairs *European and East Asian Regionalism* Jens-Uwe Wunderlich, 2020-10-15 Embedded in the evolving comparative regionalism literature this book offers a systematic analysis of the factors positively and negatively influencing regional institution building The ruptures caused by the Eurozone crises the coronavirus pandemic and by Brexit have renewed the interest in the impact of crises and critical junctures on regionalism here defined as regional institution building Drawing from critical juncture research and historical comparative analysis this volume uses the cases of European and East Asian regional institution building to systematically analyse institutional transformations during specific historical turning points and critical juncture moments Wunderlich s research offers an in depth analysis of the interrelated drivers spoilers and dissolvers of regional institution building processes in Europe and East Asia and addresses key questions including Under what conditions does regionalism take hold What is influencing the initial institutional design choices What is the impact of historical experiences and well entrenched norms and ideas What are the roles of regional leaders How do external factors influence regional institution building What turns a crisis into a critical juncture and are such junctures threats or opportunities What accounts for variations in institutional responses to crisis events across different regional settings This book will be a valuable resource for scholars of regionalism region building regional governance and international relations of Europe and East Asia **Regionalism in the New Asia-Pacific Order** Joseph A.

Camilleri, 2003-01-01 Regionalism in the Asia Pacific is a complex and rapidly evolving phenomenon This volume explores the relationship between globalization and regionalization between states markets and civil society and between US hegemony and Asian aspirations *A Selective Approach to Establishing a Human Rights Mechanism in Southeast Asia* Hao Duy Phan, 2012-02-03 This book proposes a selective approach for states with more advanced human rights protection to establish a human rights court for Southeast Asia It argues the inclusive approach currently employed by ASEAN to set up a human rights body covering all member states cannot produce a strong regional human rights mechanism The mosaic of Southeast Asia reveals great diversity and high complexity in political regimes human rights practice and participation by regional states in the global legal human rights framework Cooperation among ASEAN members to protect and promote human rights remains limited The time honored principle of non interference and the ASEAN Way still predominate in relations within ASEAN These factors combine to explain why the ASEAN Intergovernmental Commission on Human Rights is unlikely to be strong and effective in changing and promoting regional human rights protection
