

The background of the entire page is a painting. It depicts a group of boys in a room. In the background, there is a large, ornate red fireplace. In the foreground, several boys are gathered. One boy in a dark suit is kneeling or sitting low to the ground, looking towards the left. To his right, another boy in a yellow shirt and dark shorts is standing. Other boys are visible in the background, some sitting and some standing. The overall style is that of a classic oil painting.

Staging the Blazon in Early Modern English Theater Sara Morrison, 2016-04-01 Offering the first sustained and comprehensive scholarly consideration of the dramatic potential of the blazon this volume complicates what has become a standard reading of the Petrarchan convention of dismembering the beloved through poetic description At the same time it contributes to a growing understanding of the relationship between the material conditions of theater and interpretations of plays by Shakespeare and his contemporaries The chapters in this collection are organized into five thematic parts emphasizing the conventions of theater that compel us to consider bodies as both literally present and figuratively represented through language The first part addresses the dramatic blazon as used within the conventions of courtly love Examining the classical roots of the Petrarchan blazon the next part explores the violent eroticism of a poetic technique rooted in Ovidian notions of metamorphosis With similar attention paid to brutality the third part analyzes the representation of blazonic dismemberment on stage and screen Figurative battles become real in the fourth part which addresses the frequent blazons surfacing in historical and political plays The final part moves to the role of audience analyzing the role of the observer in containing the identity of the blazoned woman as well as her attempts to resist becoming an objectified spectacle **Jacobean Drama** Pascale Aebischer, 2010-07-30 The plays of Shakespeare's contemporaries are increasingly popular thanks to a spate of recent stage and screen productions and to courses that set Shakespeare's plays in context This Reader's Guide introduces students to the criticism and debates that are specific to the drama of playwrights such as Jonson Middleton Dekker and Webster Pascale Aebischer explores recent critical developments in key areas including How the plays were staged and printed Innovative editions of plays How the plays represent and contest the dominant ideologies of the Jacobean period Dramatic genres The representation of the human body and of social gender and race relations Modern productions on stage and screen Featuring suggestions for further research and reading and a filmography of commercially available film versions of non-Shakespearean drama this is an invaluable resource for anyone with an interest in the diverse plays of the Jacobean age Thomas Middleton: The Collected Works Thomas Middleton, 2010-03-25 Thomas Middleton is one of the few playwrights in English whose range and brilliance comes close to Shakespeare's This handsome edition makes all Middleton's work accessible in a single volume for the first time It will generate excitement and controversy among all
