Roaring Silence John Cage A Life:

The Roaring Silence David Revill, 2014-06-03 John Cage has been described as the most important composer of our time. He combined classical European training with Eastern spirituality to produce an American amalgam of such vitality and originality that it continues to define what we mean by avant garde. His influence has touched generations of artists including Philip Glass, David Byrne, and his longtime collaborator Merce Cunningham. His work and ideas have influenced not only the world of music but also dance, painting, printmaking, video art, and poetry. *The Roaring Silence* documents his life in unrivaled detail, interweaving a close account of the evolution of his work with an exploration of his aesthetic and philosophical ideas while placing these in the greater perspective of American life and letters. Paying due attention to Cage's inventions such as the prepared piano and his pioneering use of indeterminate notation and chance operations in composition, utilizing the *I Ching*, David Revill also illuminates Cage the performer, printmaker, watercolorist, expert, amateur mycologist, game show celebrity, political anarchist, and social activist. Arnold Schoenberg once called Cage not a composer but an inventor of genius. This revised edition presents never before seen correspondence between Cage and other luminaries of his day as well as new analysis into his legacy. *The Roaring Silence* celebrates the life and work of this true American original. **John Cage** Rob Haskins, 2013-02-15 American writer, composer, artist, and philosopher John Cage (1912-92) is best known for his experimental composition *4 33*, a musical score in which the performer does not play an instrument during the duration of the piece. The purpose, Cage said, was for the audience to listen to the sounds of the environment around them while the piece was performed. Groundbreaking pieces such as *4 33* as well as *Sonatas and Interludes* not only established Cage as a leading figure in the postwar avant garde movement but also cemented the enduring controversy surrounding his work. In this new biography, Rob Haskins explores Cage's radical approach to art and aesthetics and his belief that everyday life and art are one and the same. Scrutinizing Cage's emphasis on chance over intention, which rejected traditional artistic methods and caused an uproar among his peers, Haskins elucidates the ideas that lay behind these pillars of Cage's work. Haskins also demystifies the influence of Eastern cultures, particularly Zen Buddhism, on Cage, including his use of the Chinese text *I Ching* as his standard composition tool in all his work after 1951. Adding to our understanding of the art, music, and ideas of the twentieth century, this book provides an engaging look at a man who continues to challenge and inspire artists worldwide.

Triple Entendre Herve Vanel, 2013-11-15 Triple Entendre discusses the rise and spread of background music in contexts as diverse as office workplaces shopping malls and musical performance Herv Vanel examines background music in several guises beginning with Erik Satie's Furniture Music of the late 1910s and early 1920s which first demonstrated the idea of a music not meant to be listened to and was later considered a precedent to modern functional background music Vanel argues that when the Muzak Corporation's commercialized ambient music became a predominant feature of modern life in the 1940s both as a brand and a genre of background music it also became a powerful instrument of social engineering in an advanced capitalist society Different kinds of music were developed to encourage or incite greater productivity in the workplace more energetic shopping or more animated socializing Vanel's discussion culminates in the creative response of the composer John Cage to the pervasiveness and power of background music in contemporary society Cage neither opposed nor rejected Muzak but literally answered its challenge by formulating a parallel concept that he called Muzak Plus Forty years after Satie presented his work to general critical puzzlement Cage saw how background music could be combined with mid century technology and theories of art and performance to create a participatory soundscape on a scale that Satie could not have envisioned again reconfiguring the listener's stance to music By examining the subterranean connections existing between these three formulations of a singular idea Triple Entendre analyzes and challenges the crucial boundary that separates an artistic concept from its actual implementation in life
