Bryer, 1989 Praise for the earlier edition Students of modern American literature have for some years turned to *Fifteen Modern American Authors* 1969 as an indispensable guide to significant scholarship and criticism about twentieth century American writers In its new form *Sixteenth Modern American Authors* it will continue to be indispensable If it is not a desk book for all Americanists it is a book to be kept in the forefront of the bibliographical compartment of their brains American Studies **Critical Companion to Robert Frost** Deirdre J. Robert Frost Harold Bloom, 2003 A collection of critical essays discuss the works of the American poet *Robert Frost and the Politics of Poetry* Tyler Hoffman, 2001 A powerful and persuasive new reading of Frost as a poet deeply engaged with both the literary and public politics of his day The Cambridge Companion to Robert Frost Robert Faggen, 2001-06-14 This collection of specially commissioned essays by experts in the field explores key dimensions of Robert Frost's poetry and life Frost remains one of the most memorable and beguiling of modern poets Writing in the tradition of Virgil Milton and Wordsworth he transformed pastoral and georgic poetry both in subject matter and form Mastering the rhythms of ordinary speech Frost made country life the point from which to view the world and the complexities of human psychology The essays in this volume enable readers to explore Frost's art and thought from the controversies of his biography to his subtle reinvention of poetic and metric traditions and the conflicts in his thought about politics gender science and religion This volume will bring fresh perspectives to the lyric narrative and dramatic poetry of an American master and its chronology and guide to further reading will prove valuable to scholars and students alike Critical Essays on Robert Frost Philip L. Zak, 2022-01-26 In Robert Frost's Visionary Gift Mining and Minding the Wonder of Unexpected Supply William F Zak provides groundbreaking analysis of well over one hundred of Frost's lyrics considering each poem as an interrelated portion of the poet's overarching constellation of intention Beyond biography this book offers extended close readings of Frost's oeuvre building its case incrementally from deftly examined particulars Zak discusses how the pastoral mode Frost adopts is no depleted homespun idiom retreating from modernism's complexities but a self-conscious determination to assume the

prophetic mantle from his predecessors Shakespeare Milton Wordsworth Emerson and Thoreau Frost's version of pastoral represents no escape from life's stresses but the most constructive and life sustaining means to address life's struggles head on in both sense of that last phrase This book makes a case for Frost as America's preeminent philosophical poet The unfortunate effect of Frost's early detractors claim that he was merely an ironic and equivocal anecdotalist has for too long relegated his work to the second tier of the modernist poetic pantheon This study by contrast supports Robert Graves' claim for Frost as the first American poet who could be honestly reckoned a master poet by world standards **The Art of**
