Robert Lowell And Ovid:

Robert Lowell and Ovid Jerome Mazzaro, 2001-04-01 In 1951 Robert Lowell published a long poem *The Mills of the Kavanaughs* dealing obliquely with the collapse of his marriage to the novelist Jean Stafford In 1973 he published *The Dolphin* dealing directly with the collapse of his second marriage In between his poetry underwent radical transformations in structure style diction and purpose Robert Lowell and Ovid examines these transformations as they relate not only to the Roman poet whose *Metamorphoses* Ezra Pound called a sacred book and a safe guide in religion but also to Dante and *The Divine Comedy* and Pound and his *Cantos* In addition to *The Mills of the Kavanaughs* and *The Dolphin* the book looks at *Imitations* *Phaedra* *Prometheus Bound* *Notebook 1967-68* and its revisions into *History* and *For Lizzie and Harriet* The result for readers is a clearer understanding of the tensions that Lowell indicates tore apart his marriages and led to the creation of these works as well as his uses of imitation the mythic method and classicism and the tradition that he and they derive from and a generation of poets built upon Foremost among these uses is a confounding of the myth of self with a myth of art so that in the opposition between writer and the State that he takes over from Ovid and Pound he chooses the writer indicating in *The Dolphin* that writers write all possible wrong

Robert Lowell's Imitations and the Cold War Simon van Schalkwyk, 2025-08-07 The first book length study focusing on Robert Lowell's career long preoccupation with the liberal mode of translational adaptation known as imitation Robert Lowell's Imitations and the Cold War argues that Lowell's imitations are simultaneously symptomatic of and critically responsive to familiar nodes of Cold War ideology such as containment and contamination secrecy and security post imperial U S expansion and Empire It departs from studies focused solely on Imitations 1961 Lowell's book length collection of translational adaptations by demonstrating how imitation shadows Lowell's work from his earliest collections Land of Unlikeness 1944 and Lord Weary's Castle 1946 through his celebrated mid career collections Life Studies 1959 and For the Union Dead 1964 and to later works such as Near the Ocean 1969 and his contributions of adaptations from the Russian of Anna Akhmatova and Osip Mandelstam collected in Olga Carlisle's anthology Poets on Street Corners 1967 Simon van Schalkwyk excavates the imitational substrate undergirding and informing Lowell's compositional method and poetic imagination throughout the course of his career In so doing he shows how imitation enacts at the level of form Lowell's restless investment in Cold War geopolitics and literary networks in ways that inform develop and complicate his more conventional canonization as an unquestionably American poet preoccupied solely and simplistically with personal or autobiographical modes of poetic confession As literary sites at which containment's dualities porosities leakages and contaminants are most clearly displayed Lowell's imitations simultaneously challenge and develop our understanding of confession's presumably strict preoccupation with the personal regional and national frameworks through which Lowell has commonly been understood
