A British Enterprise in Brazil Marshall C. Eakin,2013-07-12 Marshall Eakin presents what may be the most detailed study ever written about the operations of a foreign business in Latin America and the first scholarly book length study of any foreign business enterprise in Brazil Between 1830 and 1970 the British owned St John d el Rey Mining Company Ltd constructed a diverse business conglomerate around Minas Gerais South America s largest gold mine in Nova Lima Until the 1950s the company was the largest industrial firm and the largest taxpayer in Brazil s most populous state Utilizing company and local archives Eakin shows that the company was surprisingly ineffective in translating economic success into political influence in Brazil The most impressive impact of the British operation was at the local level transforming a small agrarian community into a sizable industrial city Virtually a company town Nova Lima experienced a small scale industrial revolution as the community made the transition from the largest industrial slave complex in Brazil to a working class city torn by labor strife and violence between communists and their opponents A princesa do oeste e o mito da decadência de Minas Gerais

de São João del-Rei Sebastião de Oliveira Cintra,1982 **Territories of Social Responsibility** Patricia Almeida Ashley,2016-03-09 CSR is a fragile concept if conceived only at the organizational level or driven only by leadership will Many writers deal with aspects of social responsibility but most deal with it as this kind of organizational and voluntary initiative Few address the wider policy agenda The contributors to Territories of Social Responsibility researchers and

practitioners from four continents all participated in an international workshop co-ordinated by Patricia Almeida Ashley as part of her role as Chair in Development and Equity at the International Institute of Social Studies. They form a policy network contributing to studies on the concept of a multi-actor, multi-level and territorial approach to social responsibility and governance oriented towards global, regional or local development and equity goals. This book introduces a new conceptual framework and promotes a research and policy agenda relating to it. A new model sees CSR embedded in institutional and legal frameworks, communicated and understood through a vector of communication and knowledge influencing situated culture and social values and classified into three levels of ethical challenges. All of this can be expressed into the social processes of education, governance, the development of civil society and policy making, a renovation of the existing perspectives on the concept of social responsibility. This ground-breaking book integrates conceptual and empirical contributions and opens a research and policy agenda for the future. It will appeal to academics, higher-level students, policy makers and to leaders of and advisors to organizations affected by social responsibility issues. **Blacks of the Rosary**

Elizabeth W. Kiddy, 2007-03-30 **Blacks of the Rosary** tells the story of the Afro-Brazilian communities that developed within lay religious brotherhoods dedicated to Our Lady of the Rosary in Minas Gerais. It shows how these brotherhoods functioned as a social space in which Africans and their descendants could rebuild a communal identity based on a shared history of an African past and an ongoing devotional practice, thereby giving rise to enduring transnational cultures that have survived to the present day. In exploring this intersection of community identity and memory, the book probes the Portuguese and African contributions to the brotherhoods. In Part One, Part Two traces the changes and continuities within the organizations from the early eighteenth century to the end of the Brazilian Empire, and the book concludes in Part Three with discussion of the twentieth-century brotherhoods and narratives of the participants in brotherhood festivals in the 1990s. In a larger sense, the book serves as a case study through which readers can examine the strategies that Afro-Brazilians used to create viable communities in order to confront the asymmetry of power inherent in the slave societies of the Americas and their economic and social marginalization in the twentieth century. Emerging Perspectives on Teaching Architecture and Urbanism David

Leite Viana, Emílio da Cruz Brandão, Franklim Moraes, Isabel Cristina Carvalho, José P. Duarte, Nicolau Brandão, 2023-11-17 This book contains a set of essays on the teaching of Architecture and Urbanism written by university professors and researchers from several countries. It argues that the teaching of architecture and urbanism is in a state of crisis; architecture seems unable to respond to current problems and urbanism seems incapable of fulfilling the needs of a more balanced society and its built environment, including the human right to housing. The book comprises historical analyses, systematization of concepts, manifestos and social evaluations, and above all, an alignment of new objectives, curricular plans and pedagogical methodologies. The World of Bereavement Joanne Cacciatore, John DeFrain, 2015-04-15 This visionary work explores the sensitive balance between the personal and private aspects of grief, the social and cultural variables that

unite communities in bereavement and the universal experience of loss Its global journey takes readers into the processes of coping ritual and belief across established and emerging nations indigenous cultures and countries undergoing major upheavals richly detailed by native scholars and practitioners In these pages culture itself is recognized as formed through many lenses from the ancestral to the experiential The human capacity to mourn endure and make meaning is examined in papers such as Death grief and culture in Kenya experiential strengths based research Death and grief in Korea the continuum of life and death To live with death loss in Romanian culture The Brazilian ways of living dying and grieving Death and bereavement in Israel Jewish Muslim and Christian perspectives Completing the circle of life death and grief among Native Americans It is always normal to remember death grief and culture in Australia The World of Bereavement will fascinate and inspire clinicians providers and researchers in the field of death studies as well as privately held professional training programs and the bereavement community in general *Kingdoms Come* Rowan Ireland, 2010-11-23 As scholars continue to explore the political implications of grass roots religions around the world *Kingdoms Come* examines the three main popular religions in Brazil folk Catholicism Protestant Pentecostalism and Afro Brazilian spiritism to trace the contrasting patterns of acceptance or rejection of political paradigms within these three groups In spite of these differences Ireland s close analysis of these movements leads him to the conclusion that all three embrace traditions that foster a deepening of Brazil s nascent democracy
