Personalised Medicine, Individual Choice and the Common Good Britta van Beers, Sigrid Sterckx, Donna Dickenson, 2018-11-22 Hippocrates famously advised doctors it is far more important to know what person the disease has than what disease the person has Yet 2 500 years later personalised medicine based on individual genetic profiling and the achievements of genomic research claims to be revolutionary In this book experts from a wide range of disciplines critically examine this claim They expand the discussion of personalised medicine beyond its usual scope to include many other highly topical issues including human nuclear genome transfer three parent IVF stem cell derived gametes private umbilical cord blood banking international trade in human organs biobanks such as the US Precision Medicine Initiative direct to consumer genetic testing health and fitness self monitoring Although these technologies often prioritise individual choice the original ideal of genomic research saw the human genome as the common heritage of humanity The authors question whether personalised medicine actually threatens this conception of the common good Local and National Poets of America Thomas William Herringshaw, 1890 **Carroll County, Maryland** ADC (Firm), 2000 **The Library of Choice Literature and Encyclopædia of Universal Authorship** Charles Gibbon, Ainsworth Rand Spofford, 1890 **The Library of Choice Literature and Encyclopedia of Universal Authorship** Ainsworth Rand Spofford, 1894 Our Unknown, Undeserved, Preplanned Journey Jan Gingrich, 2020-01-30 Life is often referred to as a journey Without a doubt every person who uses that analogy does so from at least a different perspective and likely a different reason Sometimes it is because they have found life hard and the term journey represents the struggle and its length they have experienced There is some of that factor in our so titling the book Other times it is used to express finding life delivering beyond their expectations and the experience took them where they never imagined going There is that factor in our so titling the book also Sometimes it is because life seems mundane repetitious and they feel caught in its cycle There is nothing of that in our book There is a poem called Footprints in the Sand by Mary Fishback Powers that illustrates the caring hand of God she experienced in hard times of life when she saw only one set of prints Too often that is all we look for help in the parts of life s journey we think we need help with True we should look for that but the promise of God to his children is I will never leave nor forsake you good or hard times This book was written to demonstrate the truth and reality of that promise made over 200 times in various wordings of the Bible This book was written no had to be written so every child of God is alertly looking for what God is doing for them every day in ways they have not considered before Then experience the amazement of realizing their Journey has
