Elayi offers both an evaluation of this royal figure and an assessment of the Assyrian Empire by interpreting the historical information surrounding the decisive events of his reign Features Exploration of why Sennacherib did not seize Jerusalem or remove Hezekiah from the throne An extensive investigation of annals royal inscriptions letters palace reliefs clay tablets and excavation reports Maps and tables **The Campaigns of Sargon II, King of Assyria, 721-705 B.C., 55** Sarah C. Albert Ten Eyck Olmstead, 1908 Sargon the Magnificent Sydney Bristowe, 2018-02-27 In this book first published in 1927 British painter and writer Sydney Bristowe describes her Cain Sargon of Akkad equation theory She asserts that by reconstructing the ancient chronology of Mesopotamia based on the Cylinder of Nabonidus the cylinder dates Naram Sin son of Sargon of Accad 3200 years before Nabonidus and so Sargon to c 3800 BC This contrasts sharply with mainstream scholarship which dates Sargon to the 23rd century BC Bristowe defends the earlier dating from the cylinder and then argues that Sargon was the Biblical Cain Her Cain Sargon theory received support from British Israelites and proponents of Christian and a sequel titled Cain An Argument was subsequently published in 1950 *Western Asia in the Days of Sargon of Assyria* Albert Ten Eyck Olmstead, 2018-02-03 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a

T. Olmstead, 2015-03-06 When scholars study the history of the ancient Near East several wars that had extremely brutal consequences at least by modern standards often stand out Forced removal of entire populations sieges that decimated entire cities and wanton destruction of property were all tactics used by the various peoples of the ancient Near East against each other but the Assyrians were the first people to make war a science When the Assyrians are mentioned images of war and brutality are among the first that come to mind despite the fact that their culture prospered for nearly 2 000 years Like a number of ancient individuals and empires in that region the negative perception of ancient Assyrian culture was passed down through Biblical accounts and regardless of the accuracy of the Bible s depiction of certain events the Assyrians clearly played the role of adversary for the Israelites Indeed Assyria Biblical Shinar and the Assyrian people played an important role in many books of the Old Testament and are first mentioned in the book of Genesis And the beginning of his kingdom was Babel and Erech and Akkad and Calneh in the land of Shinar Out of that land went forth Ashur and built Nineveh and the city Rehoboth and Kallah Gen 10 10 11 Although the Biblical accounts of the Assyrians are among the most interesting and are often corroborated with other historical sources the Assyrians were much more than just the enemies of the Israelites and brutal thugs A historical survey of ancient Assyrian culture reveals that although they were the supreme warriors of their time they were also excellent merchants diplomats and highly literate people who recorded their history and religious rituals and ideology in great detail The Assyrians like their other neighbors in Mesopotamia were literate and developed their own dialect of the Akkadian language that they used to write tens of thousands of documents in the cuneiform script Kuhrt 2010 1 84 Furthermore the Assyrians prospered for so long that their culture is often broken down by historians into the Old Middle and Neo Assyrian periods even though the Assyrians themselves viewed their history as a long succession of rulers from an archaic period until the collapse of the neo Assyrian Empire in the 7th century BCE In fact the current divisions have been made by modern scholars based on linguistic changes not on political dynasties van de Mieroop 2007 179
