Sars In China Prelude To Pandemic:

SARS in China Arthur Kleinman, James L. Watson, 2006 This book examines the structure and impact of the SARS epidemic and its short and medium range implications for an interconnected globalized world In so doing it poses a question of the greatest possible significance Can we learn from SARS before the next pandemic *The Political Economy of the SARS Epidemic* Grace Lee, Malcolm Warner, 2007-10-02 This book discusses the political economy of the SARS epidemic and its impact on human resources in East Asia as it occurred in 2003 The epidemic spread from the People's Republic of China to Hong Kong Singapore and Taiwan amongst other countries in East Asia and as far away as North America particularly Canada the EU and elsewhere The book looks first at earlier precedents such as the Black Death and the way in which the potential threats of the recent epidemic were diffused across the world in instant news reports examining why it was dubbed the first global epidemic due to its media coverage and how far the threat started a psychological tsunami of fear and panic Next it examines the anticipated economic consequences arising from this phenomenon and how it affected the business of everyday life market behaviour and human resources in the Chinese and Overseas Chinese economies It focuses in particular detail on the cases of the PRC Hong Kong Singapore and Taiwan It concludes with a discussion of the issues involved and lessons to be learnt and draws conclusions both for theory and practice vis vis future pandemics that may threaten the global economy in the coming decade and the public policy issues involved **Pandemic Crossings** Guobin Yang, Bingchun Meng, Elaine J. Yuan, 2024-01-01 Throughout the COVID 19 crisis nation states found new ways to assert power under the guise of public health from closing or tightening borders to expanding the boundaries of acceptable citizen surveillance As these controls increased in intensity citizens' passions to cross borders seemed to grow in proportion *Pandemic Crossings* explores how these processes of boundary making and crossing often mediated by digital technology despite inequity of access had profound and often contradictory consequences on individual lives national politics and U S China relations This rich and geographically diverse collection of studies informed by everyday individual experiences contribute new insights to the interplay between digital technologies and state governance during the covid 19 pandemic It opens up new avenues of research not only on the covid 19 pandemic but also on global health crises more broadly *Epidemiology and Demography in Public Health* Japhet Killewo, Kristian Hegggenhougen, Stella R. Quah, 2010-08-18 *Epidemiology and Demography in Public Health* provides practical guidance on planning and implementing surveillance and investigation of disease and disease outbreaks Exploring contributing factors to the dynamics of disease transmission and the identification of population risks it also includes a discussion of ethics in epidemiology and demography including important issues of privacy vs public safety With a chapter on H1N1 and Bird flu this book will be important for students and professionals in public health and epidemiology Focuses on the techniques of surveillance and investigation of disease Includes biostatistics and analysis techniques Explores the ethics of disease studies Includes chapter discussing H1N1 and Bird Flu **China's Challenges to**

Human Security Guoguang Wu,2012-11-27 This book looks at human security in China's foreign relations. It discusses the concept and theory of human security and their implications for China. The book goes on to analyse environmental security issues including climate change and water resources as well as looking at issues from an energy consumption perspective. Significant human security issues are then focussed on including food safety, pandemic disease control, migration and the human rights implications of China's overseas investment.

China's Public Diplomacy Ingrid d'Hooghe,2015-01-08 In China's Public Diplomacy, author Ingrid d'Hooghe contributes to our understanding of what constitutes and shapes a country's public diplomacy and what factors undermine or contribute to its success. China invests heavily in policies aimed at improving its image, guarding itself against international criticism and advancing its domestic and international agenda. This volume explores how the Chinese government seeks to develop a distinct Chinese approach to public diplomacy, one that suits the country's culture and authoritarian system. Based on in-depth case studies, it provides a thorough analysis of this approach, which is characterized by a long-term vision, a dominant role for the government, an inseparable and complementary domestic dimension, and a high level of interconnectedness with China's overall foreign policy and diplomacy.

International Handbook of Globalization and World Cities Ben Derudder,2012-02-01 This Handbook offers an unrivalled overview of current research into how globalization is affecting the external relations and internal structures of major cities in the world. By treating cities at a global scale, it focuses on the stretching of urban functions beyond specific place locations without losing sight of the multiple divisions in contemporary world cities. The book firmly bases city networks in their historical context, critically discusses contemporary concepts and key empirical measures, and analyses major issues relating to world city infrastructures, economies, governance, and divisions. The variety of urban outcomes in contemporary globalization is explored through detailed case studies. Edited by leading scholars of the Globalization and World Cities GaWC Research Network and written by over 60 experts in the field, the Handbook is a unique resource for students, researchers, and academics in urban and globalization studies, as well as for city professionals in planning and policy.

China's Great Economic Transformation Loren Brandt, Thomas G. Rawski,2008-04-14 This landmark study provides an integrated analysis of China's unexpected economic boom of the past three decades. The authors combine deep China expertise with broad disciplinary knowledge to explain China's remarkable combination of high-speed growth and deeply flawed institutions. Their work exposes the mechanisms underpinning the origin and expansion of China's great boom. Penetrating studies track the rise of Chinese capabilities in manufacturing and in research and development. The editors probe both achievements and weaknesses across many sectors, including China's fiscal, legal, and financial institutions. The book shows how an intricate minuet combining China's political system with sectorial development, globalization, resource transfers across geographic and economic space, and partial system reform delivered an astonishing and unprecedented growth spurt.

Assembling Health Rights in Global Context Alex Mold, David Reubi,2013-07-18 What do we mean when we talk about rights in relation to health

Where does the language of health rights come from and what are the implications of using such a discourse During the last 20 years there have been an increasing number of initiatives and efforts for instance in relation to HIV AIDS which draw on the language institutions and procedures of human rights in the field of global health This book explores the historical cultural and social context of public health activists increasing use of rights discourse and examines the problems it can entail in practice Structured around three interlinked themes this book begins by looking at what health as a right means for our understandings of citizenship and political subjectivities It then goes on to look at how and why some health problems came to be framed as human rights issues The final part of the book investigates what happens when health rights are put into practice how these are implemented realised cited ignored and resisted *Assembling Health Rights in Global Context* provides an in depth discussion of the historical anthropological social and political context of rights in health and develops much needed critical perspectives on the human rights approach to global health It will be of interest to scholars of public health and human rights within health care as well as sociology and anthropology

The Economic Transformation Of China Dwight Heald Perkins, 2015-03-27 The Economic Transformation of China is a collection of essays written by an eminent observer of the Chinese economy The book covers the Chinese transformation beginning in the 1950s and continuing through the second decade of the twenty first century It includes an analysis of the forces that held China back before 1949 the nature of the economy as it operated under the Soviet model of development and the transformation since 1978 into a socialist market economy The essays of the post 1978 era reflect the author's view of the state of the reform effort at the time the essay was written and carries the story up to the 2012 2013 slowdown in economic growth

State-Led Privatization in China Jin Zeng, 2013-10-01 Large scale privatization did not emerge spontaneously in China in the late 1990s Rather the Chinese state led and carefully planned ownership transformation with timetables and measurable privatization quotas not for the purpose of extracting the state from the economy but in order to strengthen the rule of the Party While it is widely believed that authoritarian regimes are better suited than democracies to carry out economic reform this book provides a more nuanced understanding of reform in China demonstrating that the Chinese state's capacity to impose unpopular reform is contingent on its control over local state agents and its adaptability to societal demands Building on rich fieldwork data gathered in three Chinese cities Shenyang Shanghai and Xiamen this book offers the first comparative study of China's privatization processes at the local level Instead of focusing solely on political elites Jin Zeng adopts a multi level interaction approach to examine how the complex interplay of the central leadership grassroots officials and state owned enterprise managers and workers shaped the contour of privatization in China The book advances three central arguments First local economic structure and cadre evaluation system mediated local officials incentives to initiate privatization Second local officials relied on mobilization campaigns and various appeasement measures to implement privatization Finally the dynamics of privatization were fundamentally driven by the central government's reactions to social opposition and by the

subsequent responses of local officials to the changed political regulatory environment As a detailed analysis of the dual transformation of the property regime and state society relations in China this book will be invaluable to students and scholars of Chinese politics economic reform as well as those interested in comparative political economy and economic development more broadly Governance and Politics of China Tony Saich,2024-10-31 The success or failure of China's development will impact not only its own citizens but also those of the world China is widely recognized as a global actor on the world stage and no global challenge can be resolved without its participation It is important to understand how the country is ruled and what its policy priorities are Can China move to a more market based economy while controlling environmental degradation Can it integrate hundreds of millions of new migrants into the urban landscape The tensions between communist and capitalist identities continue to divide society as China searches for a path to modernization In this revised fifth edition and essential guide to the subject Tony Saich delivers a thorough introduction to all aspects of politics and governance in post Mao China taking full account of the changes of the 20th Party Congress and the 13th National People's Congress as well as the situation in Hong Kong and current debates in Chinese society **Reform and Development in China** Yang Yao, Ho-Mou Wu,2010-09-13 Between 1978 and 2006 GDP growth in China maintained an annual average rate of 9.7% meaning the Chinese economy increased by more than twelve times This was achieved with quite unorthodox approaches to reform and development as China has adopted a gradualist approach to adopting key institutions as well as modifying and experimenting with traditional recipes for economic growth This collection brings together key researchers in the field from Asia US Europe and Australia to discuss how China has managed to push forward reforms in the face of political resistance how the Chinese economy has maintained growth within an imperfect institutional environment and how the Chinese government remains effective when it relinquishes its power to the market Specific emphasis is paid to the relevance of China's experiences to other developing countries This valuable contribution to the study of China's economy covers a wide range of topics including the historical foundations of the 30 years of reform law and development in China foreign direct investment poverty reduction market integration income distribution social protection as well as demographics and population Reform and Development in China finds both unique elements to the Chinese experience and elements which can be applied to other developing countries In particular China's gradualism in economic reform strong leadership and emphasis on inclusive development are singled out to be potentially transferable to other developing countries This collection will be of interest to postgraduate students and researchers as well as practitioners in development economics Sovereign Power and the Law in China Flora Sapio,2010 This volume analyses under researched institutions and practices in China's criminal justice system arguing that derogations from the rule of law constitute an organic component of the legal order **China's Hong Kong Transformed** Ming K. CHAN,2008-10-01 The impressive array of penetrating analysis and provocative interpretations afforded by this volume's 14 chapters sharpen

appreciation of the ongoing transformations of China's Hong Kong since 1997 and the possibilities embedded in its journey toward an integrative merger convergence with the Mainland by 2047. A unique strength of this volume lies with the wide ranging views and divergent assessments offered by the chapter authors of different nationalities, varied experience, diverse academic professional disciplines and of competing ideological political persuasions. Ten of them are leading academics: economist, historian, legalist, media scholar, political scientist, sociologist, well published on Hong Kong topics, while seven are seasoned practitioners on the cutting edge of Hong Kong's development as HKSAR official legislator, Basic Law Committee member, business leader, think tank expert, journalist and US diplomat. Published by City University of Hong Kong Press. China at 60 Lai-Ha Chan, Gerald Chan, Fung Kwan, 2011. This edited volume China at 60 explores the interactions between China and the world over the course of 60 years of Communist Party rule since 1949 and the impact of these interactions on China's domestic development. To understand China's development experience and its transformation, it is necessary to examine the trajectory of development from pre-reform to post-reform periods. While the book may concur with previous findings on the changing development of China under economic reform, more importantly, it demonstrates the areas of continuity of the PRC's existence over the entire six decades. To that end, a dual theme: change and continuity and global-local interactions on China's development is adopted to assess the historical development of China's policies in various issue areas over the past 60 years. The focus is chiefly on the domestic impacts of China's increasing engagement with the world, the global implications of China's reform efforts and growing power and the long-lasting uniqueness of this rising non-European nation. The book brings together a team of international experts to share their perspectives on global-local interactions within a range of different topics including foreign policy, domestic politics, macroeconomic policy, the central-local relations, the People's Liberation Army, public health, energy, security, finance and banking, foreign trade and intellectual property rights as well as changes in the state's policies towards interest groups such as ethnic minorities and women. **Infectious Change** Katherine Mason, 2016-05-04. In February 2003, a Chinese physician crossed the border between mainland China and Hong Kong, spreading Severe Acute Respiratory Syndrome (SARS), a novel flu-like virus, to over a dozen international hotel guests. SARS went on to kill about 800 people and sicken 8,000 worldwide. By the time it disappeared in July 2003, the Chinese public health system, once famous for its grassroots, low technology approach, was transformed into a globally oriented, research-based scientific endeavor. In *Infectious Change*, Katherine A. Mason investigates local Chinese public health institutions in Southeastern China, examining how the outbreak of SARS reimagined public health as a professionalized, biomedicalized and technological machine, one that frequently failed to serve the Chinese people. Mason grapples with how public health in China was reinvented into a prestigious profession in which global recognition took precedent over service to vulnerable local communities. This book lays bare the common elements of a global pandemic that too often get overlooked, all of which are being thrown into sharp relief during the present COVID-19 outbreak: blame of exotic customs from the country of origin and

the poor bearing the most severe consequences Mason's argument resonates profoundly with our current crisis making the case that we can only consider ourselves truly prepared for the next crisis once public health policies and social welfare more generally are made more inclusive **Media Commercialization and Authoritarian Rule in China** Daniela

Stockmann,2013 Stockmann argues that the consequences of introducing market forces to the media depend on the institutional design of the state The Politics of Crisis Management in China Sonny Shiu-Hing Lo,2014-11-14 This book analyzes the ways in which the Chinese government and military responded to the 2008 Wenchuan earthquake in Sichuan province It adopts a comparative and historical perspective in studying the responses of the Chinese government in the first critical 72 hours the mobilization of the People's Liberation Army and its difficulties the assertive and important role of the non governmental groups which established a partnership with the state in the rescue operations and the process and politics of reconstruction The book is rich in materials including comparative case studies of the Tangshan earthquake in 1976 the outbreak of the Severe Acute Respiratory Syndrome in 2003 the earthquakes in Haiti Chile and Myanmar and the contrasts with the Japanese earthquake tsunami in 2011 Researchers government officials policy analysts seismic specialists journalists and students will find this book extremely useful conceptually insightful and practically policy relevant
