## **Sartre And Marxist Existentialism The Test Case Of Collective Responsibility:**

**Sartre and Marxist Existentialism** Thomas R. Flynn, 1986-10-15 In this important book Thomas R. Flynn reinterprets and evaluates Sartre's social and political philosophy arguing that the existential ethics of Sartre's early phase is consistent with the Marxist inspired views of his later writings Displaying his mastery of Sartre's entire corpus Flynn reconstructs Sartre's social ontology with its sensitive balance of the existentialist's respect for moral responsibility and the Marxist's sense of social causation Flynn focuses on the issue of collective responsibility as a particularly apt test case for assessing any proposed union of existentialist and Marxist perspectives The study begins with an examination of the uses of responsibility in *Being and Nothingness* and in several postwar essays Flynn then concentrates on the *Critique of Dialectical Reason* offering a thorough analysis of the remarkable social theory Sartre constructs there A masterful contribution to Sartre scholarship *Sartre and Marxist Existentialism* will be of great interest to social and political philosophers involved in the debate over collective responsibility

*Sartre and the Moral Limits of War and Terrorism* Jennifer Ang Mei Sze, 2010-01-31 Based on the latest debate on Jean Paul Sartre's works on ethics and politics this book examines the relevancy and importance Sartre holds for contemporary concerns the reactionary nature of terrorism the extremity of counter violence and limitations of democratization efforts in our post 9/11 era all claiming the name of freedom and liberation It presents a different version of the violent Sartre which was presented recently as militant and supportive of terrorism by critics who were concerned with the terrorist nature of his writings Sartre in this project is reconstructed as a philosopher who although gave importance to the notion of violence in his politics was actually more concerned with containing violent means within morally excusable limits He is presented as both a realist who

understood the inevitability of dirty hands in political struggles and also an absolutist against terrorism he considered wars that derailed from their purported ends of freedom as morally condemnable Arguing for the need for moral limitations to all violent struggles and the need for seeing others as ends for themselves this project outlines an existential response needed to help us reaffirm our moral compass through the invention of existential humanist ethics *Sartre's Ethics of Engagement* T. Storm Heter, 2006-06-23 Jean Paul Sartre was one of the most distinctive and vociferous social critics of the twentieth century As editor of the French post war journal *Les Temps Modernes* Sartre was able to complement his literary and philosophical views with essays devoted to practical ethical and political issues The post war era was one of the most fruitful exciting and daring periods for Sartre's thinking His published and unpublished works disclose a striking feature of Sartrean existentialism The commonly held view is that existentialism champions radical individualism and disparages community social roles and civic participation This book challenges this received wisdom showing that Sartrean existentialism is in fact a deeply social philosophy T Storm Heter demonstrates the vitality of Sartre's landmark essays *What is Literature* and *Anti Semite and Jew* and reveals the importance of the *Notebooks for an Ethics* a rich and often ignored manuscript containing Sartre's most extensive discussion of ethical and political concepts Drawing on these sources Heter argues that Sartrean authenticity is an ethically and politically important virtue Contrary to popular belief the virtue of authenticity is not a mere codeword for sincerity and personal acceptance Authenticity requires interpersonal recognition and group participation We cannot be authentic in a vacuum for the very dynamic of authenticity requires that others recognize our authentic identities This book not only defends Sartrean ethics against charges of formalism emptiness and extreme subjectivism but also shows that authenticity is an important civic virtue relevant to the social and political institutions of the modern world

Kantian Continental philosophy this volume serves as an essential reference work for philosophers and those engaged in the many disciplines that are integrally related to Continental and European Philosophy *Jean-Paul Sartre's Anarchist Philosophy* William L. Remley, 2018-02-22 The influence of anarchists such as Proudhon and Bakunin is apparent in Jean Paul Sartre's political writings from his early works of the 1920s to *Critique of Dialectical Reason* his largest political piece Yet scholarly debate overwhelmingly concludes that his political philosophy is a Marxist one In this landmark study William L Remley sheds new light on the crucial role of anarchism in Sartre's writing arguing that it fundamentally underpins the body of his political work Sartre's political philosophy has been infrequently studied and neglected in recent years Introducing newly translated material from his early oeuvre as well as providing a fresh perspective on his colossal *Critique of Dialectical Reason* this book is a timely reinvigoration of this topic It is only in understanding Sartre's anarchism that one can appreciate the full meaning not only of the *Critique* but of Sartre's entire political philosophy This book sets forth an entirely new approach to Sartre's political philosophy by arguing that it espouses a far more radical anarchist position than has been previously attributed to it In doing so Jean Paul Sartre's *Anarchist Philosophy* not only fills an important gap in Sartre scholarship but also initiates a much needed revision of twentieth century thought from an anarchist perspective

**Commonplace Commitments** Peter S. Fosl, Michael J. McGandy, Mark D. Moorman, 2016-09-30 Joseph P Fell proposes that the solution to the problem of nihilism is found in the common experience of persons and the everyday commitments that one makes to people practices and institutions In his landmark 1979 book *Heidegger and Sartre* and in his subsequent essays Fell describes a quiet but radical reform in the philosophical tradition that speaks to perennial dilemmas of thought and pressing issues for action Since Descartes at least we have been puzzled as to what we can know how we should act and what we should value The skeptical influence of modern dualism distilled in the mind body problem at arose with the assertion *I think therefore I am* has shot through not just philosophy and psychology but also society politics and culture With dualism arose radical subjectivism and the concomitant problems of nihilism and alienation The broad aim of phenomenology is to repair the rupture of self and world Announced by Edmund Husserl and developed by Jean Paul Sartre Martin Heidegger and John William Miller who drew from the North American tradition this is the project to which Fell has devoted more than a half century of reflection and technical elaboration In this volume an array of scholars consider criticize and cultivate Fell's key contributions to the phenomenological project Ranging from analyses of key texts in Fell's phenomenology to probing examinations of his crucial philosophical presuppositions to the prospects for Fell's call to find the solution to nihilism in everyday experience these essays gather the work of the authors thinking with and through Fell's key works on Sartre Heidegger and Miller Also included are seminal statements from Fell on his pedagogical practice and his conception of philosophy [Routledge History of Philosophy Volume VIII](#) Richard Kearney, 2003-12-23 Continental philosophy as it has emerged in the twentieth century is less a seamless fabric than a patchquilt of diverse strands

Phenomenology hermeneutics existentialism structuralism critical theory deconstruction these are some of the salient movements which have developed in continental Europe between 1900 and the 1990 s though their influence is by no means confined to geographic location Continental thought has proved highly exportable circulating far beyond the frontiers of Europe to provoke strong responses in the intellectual world at large The fifteen articles in this volume outline and assess some of the issues and experiments of continental philosophy The first five span the twin movements of phenomenology and existentialism running from Husserl and Heidegger to Sartre Merleau Ponty and Levinas Subsequent essays deal with specific currents of continental thought in such areas as science Marxism linguistics politics aesthetics feminism and hermeneutics A final chapter on postmodernism highlights the manner in which so many concerns of continental thought culminate in a radical anti foundationalism This volume provides a broad scholarly introduction to this period for students of philosophy and related disciplines as well as some original interpretations of these authors It includes a glossary of technical terms and a chronological tube of philosophical scientific and other cultural events

Phenomenological Approaches to Sport Irena Martínková, Jim Parry, 2013-09-13 The study of sport is often thought of simply in terms of the sport sciences This book explains how a phenomenological approach is capable of revealing the nature and meanings of sport in ways that are beyond the reach of the sciences and how the very concepts required by sport science stand in need of philosophical explanation The book has a didactic intention seeking to present and discuss ideas and tools developed in the phenomenological tradition in order to illuminate issues in sport in such a way as to be understandable for those without any previous knowledge or background There are clear and straightforward accounts of the ideas of central thinkers such as Husserl Heidegger Merleau Ponty and Pato ka and applications of central ideas to the analysis of particular issues such as the nature of risk sports the feint in football the problem of the instant replay the role of the sport psychologist the idea of bodily perception and the concept of transhumanism in relation to performance enhancement This book was originally published as a special issue of Sport Ethics and Philosophy
