considered as one of the most important wetlands in Greece In addition the Changjiang Yangtze River is known to contribute
significantly to the ecosystems of the Changjiang River estuary and adjacent waters In this book some long term data of
freshwater discharge sediment load nutrient concentrations and compositions in the river and estuary waters are presented
as well as the long term response of the ecosystem in the estuary Moreover the literature on modern estuarine diatoms from
Argentina is revised in order to synthesise the available ecological information and to detect possible modern analogues for
Quaternary diatom assemblages The authors also discuss negative or inverse estuaries those where seawater is concentrated
by the removal of fresh water in the Northern Gulf of California The challenges facing the sustainable management of
