Freeman,2001 In this provocative new book the first one to examine print and broadcast news coverage of women s issues in English Canada Barbara Freeman explores what the media were saying about women and their concerns during an important period in our history and why The Satellite Sex is both a social history and a media case study of the years 1966 1971 when the feminist movement began once more to gather support Women wanted equal treatment under the law and they wanted rights they had not gained when they won the vote many years earlier In response the Canadian government appointed a federal inquiry on the status of women and hundreds of women came forward to talk to the Commission about the injustices they experienced at school at work in public life in their homes and even in their bedrooms The Satellite Sex demonstrates that the print and broadcast media coverage of women s issues at that time were much more complex and fragmented than revealed by research in the United States on the same era This book released thirty years after the Canadian Commission presented its report also raises questions about the lack of strong feminist voices in today s news media **Hearings** United States.
