Saudi Arabia 2000 A Strategy For Growth:

Saudi Arabia 2000 Jean Paul Cleron,1978 **Saudi Arabia 2000** Jean Paul Cleron,2016-09-28 This book is concerned with the economic aspects of Saudi Arabian development It analyzes the structure of the Saudi Arabian economy and gives a detailed description of the simulation model The book presents and comments on the results of the model *Oil and Development in the Arab Gulf States* Walid I. Sharif,2023-10-12 *Oil and Development in the Arab Gulf States* 1985 brings together in one volume the manifold sources of information on the Arab Gulf region especially the impact of oil revenues on its economic political and social development It provides a balanced core of primary and secondary sources on various aspects of the economics of Arab oil between 1973 and 1983 Historical Dictionary of Saudi Arabia J.E. Peterson,2020-03-06 The Kingdom of Saudi Arabia now has been under the spotlight of Western curiosity for more than 80 years More than 15% of the world s total oil reserves lie underneath Saudi Arabia and in the early 1990s the kingdom became the world s largest crude oil producer Not surprisingly a world highly dependent on oil regards the desert kingdom as an area of intense strategic concern as reflected in the coalition of forces assembled on Saudi soil to oust Iraq from Kuwait in 1991 Also it played a major role in the invasion of Saddam Husayn s Iraq in 2003 and shares concern with the West over Iran s nuclear intentions throughout the 21st century This third edition of Historical Dictionary of Saudi Arabia contains a chronology an introduction and an extensive bibliography The dictionary section has over 1 000 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Saudi Arabia Administration and Development in the Arab World Jamil Jreisat,Zaki R. Ghosheh,2016-03-22 This book first published in 1986 examines the literature on administration human resources and development in the Arab world It emphasizes contemporary societies and their internal dynamics the least known and most critical aspects of Arabic studies Handbook of Asian States Markus Porsche-Ludwig, Ying-Yu Chen,2021 This handbook presents precise yet accessible up to date information about the geography history culture politics and economy of 49 Asian states ranging from Afghanistan Bangladesh and China to India Russia and Yemen The targeted readership consists primarily of scholars students teachers journalists and other mediators of political education as well as anyone interested in politics It is a basic work that contributes to comparative assessments of this hugely important and diverse region **The Political Economy of Saudi Arabia** Tim Niblock,Monica Malik,2007-11-13 With Saudi Arabia being of immense importance both politically and economically in the Middle East this book provides a much needed broad ranging survey of the development of the Saudi economy from the 1960s to the present day Written by a highly reputable author the book includes an analysis of how political and social factors have shaped policy and how the Saudi state is coping with the dynamics of a rapidly changing economic and political situation *Saudi Arabia 2000 (RLE Saudi Arabia)* Jean Cleron,2020-08-26 The sharp increase in both the price of crude oil and resulting revenues to Saudi Arabia has seen the

rapid growth of the kingdom's international trade and a large accumulation of financial assets. These sudden and drastic changes have taken place however within a mainly traditional economy unprepared to cope with a massive increase in government revenues. Long term planning is therefore of the utmost importance to Saudi Arabia and this study first published in 1978 presents a detailed analysis of the structure of the kingdom's economy represented by a dynamic simulation model. The first part of the book considers among other issues the production of crude oil the non oil production the accumulation of productive capital the Saudi population and labour force the mechanism of domestic inflation and the relationship of Saudi Arabia with the rest of the world. The second part then presents simulation experiments conducted upon the model which are commented on and analysed. A concluding chapter illustrates how such a study may be extended to cover several other countries in the Middle East.

A Select Bibliography On Economic Development John P. Powelson, 2019-05-20. This bibliography of more than 2 000 titles contains both books and journal articles primarily those published since 1970. Most of the entries are annotated. The material is classified according to forty eight categories and there is also a list of relevant titles for each major country in Africa Asia and Latin America.

Arab Manpower (RLE Economy of Middle East) J.S. Birks, C.A. Sinclair, 2020-07-26. The Arab world increasingly falls into two divisions the capital poor and the capital rich countries where capital means in essence oil. In the capital rich countries shortage of labour is the chief constraint on growth. In the capital poor countries analysis of the labour market is equally central as shortage of labour compounds the already existing problem of shortage of capital. This book surveys the labour markets of the Arab world state by state evaluating them by demand and supply analysis and analysing the different elements in trends of employment. It forecasts the areas of stress in the next decade and suggests ways of minimising them. The book based on much previously unpublished information and on extensive on the spot research in the respective Arab countries sets out the economic and social conditions which underly the impending crisis of development in the Arab region. First published in 1980.

Handbook Near and Middle East States Markus Porsche-Ludwig, Ying-Yu Chen, 2022. This handbook presents precise yet accessible up to date information about the geography history culture politics and economy of 26 Near and Middle East states ranging from Morocco to Pakistan from Turkey to South Sudan. The targeted readership consists primarily of scholars students teachers journalists and other mediators of political education as well as anyone interested in politics. It is a basic work that contributes to comparative assessments of this hugely important and diverse region.
